THE FORESTRY COMPANY

Details of the organization authorized for its unit have been received by Major Lionel Hanington, commanding a forestry company which is being recruited in the province with headquarters in Sussex. The orders authorize an establishment of two majors, one captain, eight lieutenants and 350 men. Four per cent. of the men enlisted may be given the rank of sergeant and provision is made for an equal number of corporals, thus giving ample opportunity for promotion.

WATER AND SEWERAGE

Owing to the collapse of a section of an old wooden sewer in Harrison street, the department of water and sewerage is finding it necessary to renew a section with terra cotta pipe. RIVER OPEN

Clear Water Today From Grand Falls to St. John

A report from Fredericton today says that ice which had been jammed above the highway bridge at Springhill ran out quietly last night and the river is now open from Grand Falls to St. John. At places there is considerable ice along the shores, but this is expected to break up during the next day or two. Tugs are expected at Fredericton early next week to swing the booms.

Indian town is filled with floating ice today, and the ferry E. Ross, which plies from Indian town to Milford, experienced considerable difficulty navigating back and forth.

The water in the river has risen several feet in the last few days and continues to rise. Today all the wharves at the south end of Bridge street were submerged and large fields of floating ice threaten damage to some of the warehouses.

FAVOR DAYLIGHT SAVING

Simmas Employees Want the Extra Hour of Sunlight — Company Places Land at Their Disposal for Garden Plots

Fairville, April 19, 1917.

To the Editor of the Times:

Sir,—Having consulted our employees in the matter of daylight saving, I find a great many are strongly in favor of the scheme. In talking with the men many have expressed themselves as having found the extra hour's daylight in the evening a continuous source of home and enjoyment last summer, without any disadvantages on the other end of the day to offset same.

This year our company having several acres of good land at their disposal, have offered our men the free use of same for garden plots. A number of the men are availing themselves of this opportunity and have been looking forward to the long evenings under the daylight plan, to get in the considerable amount of work necessary.

It is felt that there is a given amount of daylight in either event and that one might get in the extra hour's work in the morning. In my personal experience has been that though one might, most of us don't, and a man used to indoor work can better do his gardening in the evening when rest can follow the greater exertion.

It seems to me a reflection on our statement that provision was not made such time as this takes place, it is inevitable that some in the community will have to make sacrifices for the benefit of the majority; but I am persuaded that the most of those who perhaps are opposing the scheme, would line up on the other side if they realized the real economy in public health and the real financial saving thus made.

It is undoubtedly a fact that among the above, the "morries" suffered considerably last summer, but with our statement pleading for thrift and economy in all walks of life, if the people with the extra daylight at their command instinctively prefer to enjoy God's free great out of doors to spending money for this kind of entertainment, from the viewpoint of the community as a whole we can hardly feel that this is to be regretted.

Every good reform has always met opposition from sincere people who either thought their freedom was being interfered with, or harm being done them, not recognizing the real motive to be an inherent antagonism to change of any kind in their make-up.

If some fairly could change the clocks over night, these good people would be perfectly happy and be rejoicing with the rest of us in the delightfully long evenings.

Sincerely yours,
L. W. SIMMAS.

MARRIED IN WINNIPEG

In Holy Trinity church in Winnipeg, at 10 o'clock on Saturday, the 14th, the marriage of Miss Beatrice Elizabeth Dobbin, youngest daughter of Mr. and Mrs. Isaac Dobbin, of Rothesay, to John Walker of Toronto, took place. Archdeacon Fortin officiating. Prof. H. St. John Nafrel presided at the organ. The church was beautifully decorated with palms and Easter lilies. The bride, who entered the church with her bridesmaids, G. H. Grantham, looked very charming in an imported suit of deep blue velvet, the coat opening over a blouse of white lace and Georgette crepe beaded and embroidered in blue. Her hat, a French design, was of black moiré hair lace and mulline, evolved in a combined shade of rose and blue. She wore a set of white fox furs and a corsage bouquet of bridal roses and lilies of the valley, centered with violets. Both bride and groom were unattended. The groom's gift to the bride was a platinum pin set with diamonds. Immediately after the ceremony the bridal party drove to the Union station and Mr. and Mrs. Walker left for an extended trip to the west. Many beautiful and costly presents were received, showing the popularity of the young people.

Mrs. Dobbin, mother of the bride, wore a suit of navy blue with black hat, trimmed with black ospreys and a corsage bouquet of violets. Mrs. G. W. Grantham, sister of the bride, wore a suit of midnight blue with white fox furs and a bouquet of Obelia roses.

One has already enlisted and the other will take the necessary examinations.
