Ryan is worth more than the report indicates, making it a virtual compromise.

DIPHTHERIA IN FREDERICTON What promised to develop into a serious outbreak of diphtheria in Fredericton is now said to be under the control of the Board of Health authorities. Inspector William McKay said on Tuesday there were five cases in the city, four of them within a short distance of one another in the West End. The placards in four of the houses are to be removed some day this week.

DODDIS

In Lynn, Mass.

A pioneer business man of British Columbia passed away in Vancouver a few days ago in the person of Stephen Tingley, formerly of Point de Bute. He was a brother of William Tingley, of Point de Bute, and an uncle of Stephen T. Coates and J. Sanford Coates, of Amherst. He was a son of the late Mr. and Mrs. Caleb Tingley his mother having formerly been Miss Deborah Tuttle, of Wallace Bay. Mr. Tingley went to British Columbia in 1861, and settled at Yale. Later on he was connected with the first mail coach between Fort Yale and Richfield. Subsequently, he became one of the leading business men of the province. He is survived by two sons and two daughters, all resident in western Canada.

LOCAL NEWS

CIVIC GRANT FOR THE BRITISH RED CROSS

TO SEARCH FOR MISSING JEWS

Indorsement by Prominent Jews.

Mr. Hershfield will carry with him letters to all consular and diplomatic representatives abroad, as well as indorsements by the prominent Jews of this country, and letters to prominent organizations and individuals in London, Berlin, Vienna, Paris, Petrograd and Rome. It is expected that he will be able to enlist the co-operation of the Jewish organizations in the various countries of Europe to unite in forming a large central permanent body which will continue the work that he will initiate.

This enterprise on the part of the society will, it is expected, call for the expenditure of a vast sum of money, but the good that will be accomplished is out of all proportion to the amounts that will be expended.

It will result in millions of dollars being sent across the water for the relief and the support of the suffering Jews of Europe by their immigrant brethren of the United States. The Jewish immigrants here have always taken a deep interest in the welfare of their co-religionists, and have sent even in normal

interest in the welfare of their covering-ionists, and have sent even in normal times large sums of money to Europe to aid their relatives. In this work the task of relieving the Jews in the war zone will be immensely expedited.
