Houlton Boy
Is Killed In
Motor Crash

HOULTON, Me., July 4.—Gerald Hazlett, 18, son of Bartlett Hazlett, of this town, was killed in an automobile accident early Saturday morning and his companion, Cyril Robinson, 17, is injured. The boys were returning from a party in Bridgewater and a short distance out of that town, it appears, turned out for another car and struck a culvert end. Both boys were thrown through the windshield. Hazlett's throat and windpipe were severed by the glass and he died almost instantly. Robinson was badly cut about the throat.

You've heard the times if you don't know that Cod Liver Extract is one of the greatest flesh producers in the world. Because it contains more vitalizing vitamins than any food you can get. You'll be glad to know that McCoy's Cod Liver Extract Tablets come in sugar coated form now, so if you really want to put 10 or 20 pounds of solid, healthy flesh on your bones and feel well and strong and have a complexion that people will admire—ask Watsons Two Stores, Ross Drug Co., Wm. Hawker & Son, or any druggist for a box of McCoy's Cod Liver Extract Tablets.

Only 60 cents for 60 tablets and if you don't gain five pounds in 30 days you don't get your money back. It isn't anything unusual for a person to gain 10 pounds in 30 days, and for old people with feebleness over-taking them they work wonders.

HOLY NAME MEET AT
ST. PETER'S PARK

All City Branches to March to
North End For Rally in
September

The diocesan union of the Holy Name Society yesterday planned for a rally of the members to be held on St. Peter's Park on the second Sunday in September, when the large body of men will march in procession through the city streets and on arrival at the rally will be addressed by a special speaker who will be a Redeemptorist Father from outside the city.

The meeting of the diocesan union was held in the basement of the church yesterday afternoon and was presided over by Judge John A. Barry with Lawrence Orsam as secretary and Rev. William Duke as chaplain. Father Duke was appointed diocesan spiritual director.

The chaplains and representatives of each of the branches of the society in Saint John district were present. Short addresses were given by Rev. James Cloran, C.S.S.B., Rev. J. J. Ryan, Rev. Francis Cronin and Rev. Charles Boyd and by the representatives from St. John the Baptist, St. Peter's, Holy Trinity and the Cathedral branches of the Holy Name Society.

It was decided to appoint the executive of the diocesan union later and the members will probably be named in the course of a few days.

At the rally on Sept. 19 it was decided to have Benediction of the Blessed Sacrament following the address, and to have all of the members of the Holy Name Society assemble at one place and march to the St. Peter's grounds. The Cathedral was favored as the place of assembling.

HURT IN FALL

Mrs. A. C. Davidson, of 103 Thorne avenue, stumbled and fell against a pane of glass in a window at her home on Saturday, her right arm being severely lacerated. Police Constable Corcoran called the ambulance and the woman was taken to the General Public Hospital, where she will remain a day or two.

A SAFE has been invented which is claimed to be impossible to open. We hear that it embodies the chief features of a taxicab window and a sardine tin.

FALLS DAWN STAIRS;
SKULL FRACTURED

Mrs. W. P. Ross, Main Street,
Dies in Hospital From
Effects of Fall

FRACTURING her skull when she took a weak spell and fell head foremost down the stairs of her home at 1 o'clock last night, Mrs. William P. Ross, of 705 Main street, died in the General Public Hospital at 11 o'clock yesterday. Mrs. Ross was ascending the steep stairway when she suddenly collapsed and fell backwards, striking her head on the edge of a stair. The unfortunate woman was rushed to the hospital in the ambulance but succumbed 20 minutes after her arrival there. Her husband, a junk peddler, who is at Stukensand, N. S., was immediately notified.

The late Mrs. Ross, who was 57 years of age, was born in Russia, and was of the Hebrew faith. She has been a resident of Canada for 18 years. Two daughters and a son survive. The daughters are Mrs. Ethel Laing and Miss Besse, both of this city. The son, Harry, resides in Flint, Mich. A sister, Mrs. Annie Simon, lives in Halifax. The son and sister were notified by wire early this morning of Mrs. Ross' death.

Non-regulated gas ovens should be pre-heated only for pies, quick breads and meats.

2.—Cakes, unless baked in a regulated oven, should be put in a COLD oven. For a loaf or sheet cake, requiring approximately a one-hour baking period, the rack should be placed in the CENTRE of the oven. Turn ONE burner on slightly less than half-way for the first quarter of the baking period. Then turn gas down until burner is on about one-quarter way. Leave at that height for the remaining three-quarters of the baking period.

Layer cakes, requiring approximately a thirty-minute baking period, should be placed in a cold oven and the burner turned on half-way for the first half of the baking period, at which time it should be lowered to one-quarter way.

This gives the gases in the leavening property (the eggs, soda or baking power) an opportunity to work gradually as the heat increases gradually. The heat reaches the maximum desired at the end of the first quarter of the baking period and the gases have, for the most part expended themselves before the batter actually starts to cook.

The oven door SHOULD NOT BE OPENED during the SECOND and THIRD QUARTERS of the baking period, for the cells at that time are not firm and a slight jar may cause them to settle. The warm expanded air which makes the cake light has already been evolved, and there is nothing present to lighten it again.

3.—Angel-food cakes may be put into a cold oven and the heat allowed to come on very gradually, or should be put into a very slow oven that has not been pre-heated more than three or four minutes.

4.—Quick breads should go to the top-most part of the oven, and a hot oven should be ready for them. Muffins, which require from twenty to thirty minutes for baking, should be placed in the top of the oven. Biscuits should not be in the oven more than twelve to fifteen minutes at the most, and should be baked with a very hot oven, at the top-most part.

5.—Broiled meats must be handled very carefully. The oven should be pre-heated at least ten minutes before the meat is put in, but the broiling pan should be removed from the oven before the heat is turned on.

A hot porcelain broiling pan draws the juices from the under side of the meat, and prevents it from browning nicely when turned.
