

SELECTION OF N.B.'S RHODES SCHOLAR TO BE MADE SOON

Committee to Convene Latter
Part of Month to Name
Candidate

REQUIREMENTS OF THE APPLICANTS

Not Original Idea They
Should Be Specialists
in Athletics

The committee for selection of Rhodes scholars for this province will hold its meeting to select a Rhodes scholar near the end of this month. Herewith are some of the most essential qualifications required of candidates by the Rhodes trustees: The trustees desire that the selection of Rhodes scholars shall be carried out with careful regard to the definition of fitness given by Mr. Rhodes in his will, viz: (a) Ability and scholastic attainments; (b) Force of character and capacity for leadership; and (c) Physical vigor, as shown by "fondness of and success in many outdoor sports."

HIGH QUALITIES.
Mr. Rhodes wishes his scholars to be chosen especially for the possession of these mental and moral qualities which would be "likely in after-life to guide them to esteem the performance of public duties as their highest aim." Interest and success in athletic pursuits while of importance is not to be treated as of equal importance with the other requirements, it is said. While it is essential that the scholars should be men of sound health, it was not at all Mr. Rhodes' idea that they should be specialists in athletics.

PERSONAL INTERVIEWS.
In these cases where the policy of committees has been to place more confidence in conspicuous ability in one subject than in a more high average of grades all around, the result has been justified by subsequent performance.

Colds Are Always DANGEROUS

If not checked in time.

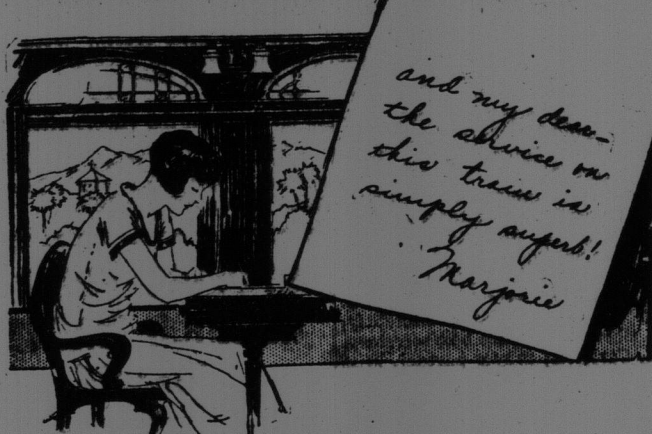

Syrup of White Pine and Tar

Is one of the very best remedies for colds and other throat affections—Asthma, Croup, etc., etc.

Price 25 Cents.

The Historic Scenic Route

BRITISH SUBMARINE SINKS WITH CREW OF 68

The British submarine monitor, M-1, is believed to have sunk off the Isle of Wight, England, with its entire crew of 68 officers and men aboard. Because of the great depth of water where the submarine is believed to have foundered the sub and its crew seems destined for the same fate that overtook the American submarine S-51.

CARBON MONOXIDE BLAMED IN DEATHS

Enforcement of Flue Pipes' Use
on All Gas Heaters Urged
For Safety

Canadian Press Despatch.
MONTREAL, Nov. 18.—Deaths from the inhalation of carbon monoxide gas are inevitable unless the city authorities compel the installation of flue pipes with all gas heaters and cookers in residences, according to officials of the Montreal Light, Heat and Power Consolidated, in discussing the death of the two Goulet sisters, who died recently from gas poisoning in their flat on Park avenue. Furthermore, it was pointed out, in addition to the danger of death from inhaling the poison, there will always be impairment of health from small quantities of this gas leaking into the atmosphere, impossible to detect, as it is practically odorless. Steps should be taken, the company affirmed, to form a by-law making it an offence for anyone to have a gas heater or cooker in their home, without flue pipes to carry off any escaping fumes.

MUSEUM GETS PAINTING.

AMSTERDAM, Nov. 18.—The Detroit Museum has obtained valuable Rubens, Vandyck and Correggio paintings in the auction sale of the \$600,000 collection of C. Castiglioni, spectacular Austrian financier sometimes known as the "Stines of Austria." The museum paid 182,000 florins for its purchase.

WRITES ABOUT BIG MOOSE SHOT IN N. B.

Rotterdam Man Tells How He
Slew Monarch of The
Woods

Writing from the Canadian Pacific liner Montcalm to the tourist department of the company, on his way back to Holland, G. J. Van Heek, of Rotterdam, tells the story of how he shot an enormous bull moose in the New Brunswick woods. It had a spread of 61 1/2 inches, which is pretty nearly the record for this province this season. Mr. Van Heek wrote: "I had been about five or six days out in the bush and saw a number of moose tracks, but they were all old. Then a big snow-storm blew up, confining us to camp for a day. When it abated we got up early and soon found tracks of a young bull. We followed these through a swamp and on to a ridge, when they were crossed by those of a much larger moose. We took these up and traced them far away from camp, but came to a bad country, made very difficult by hidden dead falls. Here my guide and I made so much noise that we alarmed the moose and, as it was then three in the afternoon, we gave up and got back to camp. Next day at dawn we picked up the track again and came up with our quarry. My first shot disabled him and my second laid him low and he yielded a splendid head."

Mr. Van Heek is enthusiastic about his Canadian hunting trip and states he will come for another trophy next season.

MUSIC SCHOOL TO OPEN.

QUEBEC, Nov. 18.—A free school of music maintained by the Provincial Government, and under the supervision of the council of trades and labor, will be opened in the parish hall of St. Malo early in the new year.
