MR. BRYAN ON PEACE.

Now that Mr. W. J. Bryan is the service of secretary of state for the Guide States, and is in a position to wick a strong temberare in behalf of peace, it is of interest to read the following extract form an address which he delivered at the Mohon Conference in 1910. It is a follows:

Christian nations do not be personal to the great battleilips, these personal to the great battleilips, these personal to the great battleilips, these personal to the control of the country is now the personal to the control of the country is now ready.

The Ambient News, in discussing the most location of the country to the judgment of the world. If this nation did that, it not only would not be attacked by any other nation on the earth, but it would become the supreme

power in the world."

Secretary Bryan may find it rather difficult to reconcile his views of 1910 with what he will be called upon to do in 1913 and succeeding years, but the acceptance of office brings with it responsibilities which do not disturb the dreams of the mere orator. It is doubtdreams of the mere orator. It is doubtful, for example, if an assurance by the United States government that it would act fight under any circumstances would add to the security of American citivens in Mexico at the present time.
