

of town right away, going to another logging camp, operated by a man whose name I believe was Kaposinski, at Hinton, Alberta. This was about 4 weeks after we had left Red Deer.

We worked there for about another 6 weeks. We then decided that we would return to Red Deer and give ourselves up. This we planned to do after our next pay-day. However, four or five days previous to pay-day, Line went into Edson for the day and was apprehended by the R.C.M.P. From him they learned where I was, and the next day came to the camp and arrested me.

We were then returned to Red Deer, and I have been under close arrest since that time. Pte. Line was later discharged as he was underage. I had turned eighteen on the 11th of March, 1942, and so was kept for trial.

I had no trouble with the police in civil life, and since my return to Red Deer have behaved myself to the best of my ability.

The above I swear to be a true statement.
