St. Louis Speculators Who's

Made money in Wheat.

St. Louis, Aug. 23.—The following amounts are reported to have been made by the local speculators as a result of the recent rise in wheat: William G. Haarstick, \$200,000; Ben Barnes, \$150,000°; D. R. Francis \$100,000; Corwin H. Spencer, \$100,000; W. L. Green Commission Co., \$100,000; Charles T. Orthwein, \$100,000; E. B. White, \$75,000; Amedee Cole, \$75,000; John Warren, \$50,000, S. W. Cobb, \$50,000.

000 on the face of their St. Louis trade, but no one can tell how they stand elsewhere. They may be 100,000 bush-bushels long here and 200,000 short in Chicago or New York. One man who one firm \$50,000 bushels of wheat and has already put up \$25,000 in cash for margins. He may have that wheat bought some place at a lower price. It is a significant fact that the men who were on the inside of the market were the same who formed the celebrated bull pool last year which startled wheat operators. It is hard to estimate what each man has made, o estimate what each man has made to estimate what each man has made, because they are continually jumping in and out of the market, making a profit of 3 or 4 cents and then buying again. When wheat was around 65 cents, the big fellows bought wheat quietly throughout the country. At 78 cents they let a dot of it go, but became bulls again when they saw that the market kept going up.

PRACTICE ECONOMY In buying medicine as in other matters. It is economy to get Hood's Sarsaparilla because there is more medicinal value in Hood's Sarsaparilla than in any other. Every bottle of Hood's Sarsaparilla contains 100 doses and will average, taken according to directions, to last a month, while others last but a fortnight.

HOOD'S PILLS are the only pills to

Local Wheat Reaches Ninety Cents.

THE MARKET IS VERY NERVOUS, HOWEVER, BUYERS ARE ANX-**IOUSLY WATCHING CHIC-**

To hold or not to hold? That is the question. Whether it is better to cling to their wheat like bull dogs to a trouser-leg, or to sell at present prices and not wait a moment longer than is absolutely necessary, is the conundrum over which the farming community and all speculators on 'change are racking their brains.

Wheat growers, who stored their grain two years ago, when the dollar mark was reached and determined to hold it until it climbed to \$1.25, have, many of them, announced their firm intention to unload as soon as a dollar a bushel is paid here again. A large number expect this good time to come along soon and bring them the reward of matience. Others believe reward of patience. Others believe that the dollar and a quarter is al-most in sight, and will continue to

ang on. Some dealers in this city who bought largely when the price was down in the fifties, have bulging warehouses, whose bulge will soon be relieved. Others have sold at a good average

others have sold at a good average advance.

Wheat in Chicago on Saturday struck the \$1 mark and closed at 921-2. Locally it sold early at 85c. but jumped to 90c. and as high as 92c. per bushel was paid in some instances. stances.

Local dealers had large offerings this morning, but were on the chary side until, at 10.30 they learned the side until, at 10.30 they learned the status of the Chicago market. December wheat opened at \$1, in Chicago; but broke, and was soon at 951-2c. From that point, with many fluctuations, it rallied, and was soon up to 99 again. The market was very active and restless between 971-2 and 983-4. September opened at 991-2c, and broke to 95, but a reaction set in that to 95, but a reaction set in that brought it wavering between 98 and 99 cents.

LOCAL WHEAT AT NINETY. At eleven o'clock this morning John Waddell of J. B. Stringer & Co., quot-ed local street prices at 90c. stand-ard, with market feeling very nerv-

It is understood that W. H. Tighe his large warehouse well store has his large warehouse well stored with grain bought on low spots which will soon be shipped. There are also those who place at \$3,000 the net profits on the recent sale of 25,000 bushels of wheat that went east by

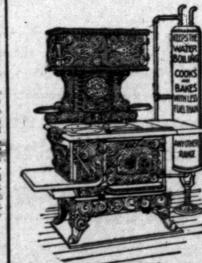

James by the announces his intention to thersh this week and dispose of his grain at once at current prices, whether it be 30½ or \$1.14½.

Those who have purchased stocks through the medium of L. J. Atwater's commission office have in a number of nstances struck it rich; but Mr. Atwater will give no information concerning their identity. Many of his largest patrons are never near his office and the names of winners and losers during the recent rise is a matter for mild speculation. Among the dealers ex-citement runs high and all are reticent

THE FORMER BISE.

Two or three years ago wheat struck the dollar mark in Canada, but only reached 82 cents in Chicago. This difreached 82 cents in Chicago. This dif-ference represented the freight and duty from Chicago to Canadian ports.

HELLMUTH LADIES COLLEGE Pall Term will begin on Wednesday, Sept. 15th es, Board, etc., and Academic Studies \$275, per year MUSIC, AST, STC., EXTRA.

Every "Famous" Stove Guaran-

teed

when wheat eased off in Chicago mil-lers were able to import American grain, pay the duty and freight, and still save a cent or two a bushel. This broke the Canadian market and the fall in price soon became rapid. But if the Canadian were regulated by Liverpool and Chicago prices as it was there wheat here ought to be bringing \$1.15 a bushel.

CONTRACTED AT SIXTY-SIX.

Several of our farmers contracted with The Stevens and Campbell Co. their wheat at 66c., which was considered a good price. To day 85 is being paid, and although not obliged to do so Mr. Rutherford has been generous enough to give them the market price in any case.

AN AUDITOR ASKED Books of Ridgetown Collegiate

Institute Board.

Trouble Between the Town and the Board Over Money Matters.

Ridgetown, Aug. 21.—Our citizens were surprised to read in this week's Dominion that a fight was on between the Collegiate Institute Board and the Town Council, and at first were not inclined to pay much attention to the affair. It appears now, however, that the matter has reached an acute stage. At a special meeting of the town council Wednesday evening a resolution was put and carried instructing the clerk to apply to the Ontario Government. was put and carried instructing the clerk to apply to the Ontario Government for the services of a special auditor to investigate the treasurer's books. The Collegiate Institute Board is composed of the following:—Dr. Stewart, Thamesville, chairman: Dr. R. C. Young, secretary-treasurer: Dr. Lake, B. Jull, D. McLaren and W. Mills. People are asking themselves what all the row is about.

The treasurer of the board says that he courts the fullest investigation of his books and accounts and is positive that everything will be found all right. However (as do many other ratepayers) he deprecates the useless expense of a provincial auditor, but he will do all in his power to assist the enquiry.

The treasurer of the board says that he courts the fullest investigation of his books and accounts and is positive that everything will be found all right. However (as do many other ratepayers) he deprecates the useless expense of a provincial auditor, but he will do all in his power to assist the enquiry.

The treasurer is not defence, it may be a hardship on the defendants, but, no doubt, if the mayor asked them to do wrong, he will pay their fine for them." (Laughter).

The council last year were asked to authorize this defacing of the park and flatly refused. Several hundred dollars could not replace the value of the one tree that was so wantonly destroyed this morning.

MR WELLS SIOE OF IT.

Thinks the Oricket Club has a Right to Haye the Trees Cut Down.

his power to assist the enquiry.

The trouble appears to have arise from the circumstance that, whereas in former years, the Collegiate Institute Board only asked the town council for \$1,000 to \$1,500, this year they request-

A GROSS OUTRAGE

It is an outrage that without permitting the discussion of the matter ority of the aldermen of this city should arrogate to themselves authority to deface Tecumseh Park. police did well to make the arrests and should make more if any further attempt is made to mutilate the park.

CARRIED OFF SUDDENLY.

Blenheim Resident Taken Sick on Sunday

(Special to The Planet.) Aug. 23.—Our townspeople were shocked this morning to hear of the very sudden death of R. J. Tyhurst who died at 2 o'clock. Deceased had been under medical treatment for some who died at 2 o'clock. Deceased had been under medical treatment for some time but was around attending to his business duties, in fact was in Chatham on Saturday. Sunday morning vomiting set in which was very severe. Bleeding of the stomach followed caused no doubt by a bursting of some of the blood vessels. Dr. Storye was unremitting in his attendance. Dr. Langford was called in consultation but despite all that medical aid could do death took place. Deceased was a young man just in the prime of life and leaves a wife and three children to mourn his loss. At one time he was in the grain business with C. D. Colby but on Mr. Colby's removal to Potterville Mr. Tyhurst took over the business and was up to the time of his death running it himself. The family have the sincere sympathy of the entire community.

GRAND TRUNK ACCIDENTS.

eronto Telegram Says They are Due to an Un-

There is considerable feeling among some sections of the Grand Trunk Railway employees on the western section over the manner in which some of the train crews have been dealt with. Recently there have been two accidents on the Grand Trunk, one at Goderich and the other at Port Credit, both of which were not of a serious character, but which might have been. The train hands do not complain so much of the company dealing with their employees as they think fit for, neglect of duty, but there are cases when they at least think the men should be heard. One of the arguments put forth by the men is that at the rate of speed they now have to run it is almost impossible to avoid accidents, and the only wonder is that there are not a great many more. Townto Telegram. accidents, and the only wonder is that there are not a great many more. Only recently have several members of the train crews been taken off between Hamilton and Toronto, be-cause they could not make the run-ning time on a freight, which is book-to run faster now than did the regu-lar trains some time ago."

But It Would Have Been Rough on Them Will Get in Trouble to sell at that Price. Over This,

OUTRAGEOUS ATTEMPT TO DE-FACE TECUMSEH PARK-WHO IS TO BLAME--TWO AR-

In view of the important cricket match to be played to-morrow on Tecumseh park, the club agitated the advisability of removing the inner row of trees adjacent to William St. On Saturday, it is alleged, nine members of the council signed a consent

to the cutting down of these trees, and, it is further alleged, the mayor

Have the Trees Cut Down. W. B. Wells, of the Chatham Crick-

et Club, whose name was popularly connected with Dowling's action was "In the first place" said Mr. Wells, "the ground was laid out by the Chatham Cricklet Club in the days when when William and Andrew Northwood. and their associates formed the Crick-et club. At a later date the Royal Canadian Rifles were stationed here, and under the direction of Capt. Boyd the present lecumseh park was much improved. When the Rifles left here the cricket club had a lease of the premises from the government.

Wm. Northwood, the president of the cricket club, and mayor of the town, thought it would be a good plan to set out some trees and this was done. While the trees were small the cricket ground extended from the river bank to William street, they were not in the way and were planted thicker than it was intended to leave them. The intention was that when they grew they were to be thinned out.

"The idea was to have the reservation in the name of the cricket club; but Major Baxter, to prevent encroachment by trees or other-

but Major Baxter, to prevent encroachment by trees or otherwise, proposed that it be specified that it be left as an open place for a parade ground. This, he said, would answer the same purpose.

"The idea of the reservation was that baseball should be played at the southerly end of the park, and cricket at the other end. These were the only sports in practice here at the time.

"What we claim now is that there

What we claim now is that there are five rows of trees there now and that four are more than enough to fur nish shade to twice the number o people that ever congregates at that side of the park. There is a great deal
