To the Warlen and Councillors of the Municipal Council of Northumberland.

Gentlemen: At last July session I made an application to the Council for a reduction in the rent paid by me for the Public Wharf property. The matter was referred to a committee who recommended a considerable reduction in the rent. This the Council did not adopt. As state I may petition last year, I have spent a large amount in repairs to the property and since last July have gone to considerable expense in keeping it in good condition. I now pay \$125 per annum rent to the County. The revenue derived from the wharf during late years is trifling and would not pay for repairs. This is caused by the immense falling off in wharfage, owing to the building of railways. For the purposes of incompate property is worth much less than it was ten years ag₂. Under these circumstances I think the present rate is much more than ought to be charged for the property I beg therefore again to bring the matter before your notice and to request that you make a reasonable reduction in the amount of rent.
