

THE WEATHER.

Maritime—Gales, southeasterly, shifting to south westerly and westerly, with rain.

Toronto, Nov. 9.—An unusually severe storm which was indicated Saturday night on the Gulf of Mexico, near the coast of Florida, is now centered over Lake Ontario causing severe gales from the Great Lakes to the Maritime Provinces, together with excessive rain. In the western provinces the weather has been fine, cold in Manitoba and Saskatchewan, and mild in Alberta. Minimum and maximum temperatures:

Edmonton	Min.	Max.
Prince Albert	28	36
Calgary	16	26
Swift Current	18	26
Minneapolis	12	18
Port Arthur	10	14
Parry Sound	26	40
London	34	43
Toronto	34	43
Ottawa	46	58
Montreal	52	62
Quebec	48	56
Halifax	44	54

WASHINGTON FORECAST

Washington, Nov. 9.—Forecast Northern New England, rain Monday, much colder by night with snow and cold wave in west portions; Tuesday, unsettled and colder, probably snow. South to west gales.

AROUND THE CITY

Ask Increase

The Marine Checkers' Union, local No. 825, I. L. A., are negotiating for an increase of wages.

Found by Police.

A kid glove and a key found on Main street may be had by the owners on applying at the North End police station.

Lecture Postponed.

The lecture which was to be given in St. Peter's Society rooms yesterday by J. A. Barry on "The Young Parliamentarian," was postponed until a future date.

A Good Collection.

At the doors of the Cathedral at the different masses yesterday a special collection was taken for the St. Vincent de Paul Society. The proceeds of the collection were very satisfactory, the amount realized being \$728. The sum will be added to the society's funds in carrying out their winter work in assisting the poor of the Cathedral parish.

The Police Enquiry.

The police investigation, which was to have resumed tonight, has been postponed until Monday of next week, the reason being to permit the completion of the work of transferring Detective Sullivan's evidence, which has taken longer than was expected. Chief Clark will be furnished with a copy of the evidence taken in the enquiry.

Teachers' Salaries.

The demand of the local teachers for an increase in salary will be laid before the school board at a future meeting. The teachers' committee, which has the matter in hand is to meet this evening and it is probable that the question of salaries will come in for a lengthy discussion. A more decisive stand will be taken by the teachers who will be affected if the change is brought about.

Evangelistic Services.

At a special service conducted in the Douglas Avenue Christian church yesterday morning the speaker of the occasion was Rev. Howell McPherson, an evangelist, who chose for his subject "First Things First." The speaker dwelt at length on the subject. The attendance was unusually large. Evangelist McPherson also heard at a special service in the Coburg street Christian church yesterday.

Building Trades Council.

A meeting of delegates from the different unions in the building trades was held in the Bricklayers' Hall on Saturday evening, and it was decided to revive the building trades council, and inaugurate an active campaign for the upbuilding of the various unions and the improvement of conditions in the trade. Although the building operations this year have been much more extensive than usual, the big construction companies which secured the larger contracts brought in workmen from other places, and the local men feel the need of closer organization to protect their interests.

Visitor Impressed.

Mr. Salmond, one of the members of the Water Service Commission of Springfield, Mass., is in the city on a holiday. On Saturday he accompanied Com. Wigmore on a trip to Loch Lomond to inspect the water system of the city. The visitor expressed himself as greatly surprised at the excellence of the St. John water system, and the foresight of the city fathers in providing for a water supply capable of meeting the needs of a large city. Many cities, he said, would be willing to expend a great deal more money than St. John has done to assure a water supply so large and of so good a quality.

A Beautiful Day.

After a few days of rather cold weather yesterday proved so warm and comfortable that it appeared almost like a summer day. About every person who owned a horse and carriage, or an automobile, were out enjoying the afternoon. The Rothery road, the Loch Lomond road and the Minaswagash road were crowded all the afternoon with persons driving, while parties could be seen enjoying boating on the rivers and lakes. Rockwood Park and Seaside Park were crowded with people and the street cars did a big business. The highest temperature yesterday was 52 while 48 was the lowest. Yesterday holds the record of being the mildest November day since 1869, when the temperature rose to the same point.

Will Hold Social Evening.

The B. Y. P. U. of Leinster street Baptist church will hold their first social evening of the season on Monday evening, Nov. 10th. A cordial invitation is extended to the young people.

EIGHTEEN TRACK UNION DEPOT PLANNED AT HAYMARKET SQUARE

Giant Structure to be Built to Accommodate Increasing Railroad Traffic—Understood that Tenders for Building will be Called for Soon.

It is understood that plans have been prepared for a big union station at Haymarket Square, and that it will not be a matter of many months before tenders for the erection of the station will be called for. The new station will front on Haymarket Square, and will cover the area between Gilbert's Lane and the Marsh Road. It is said the station will be large enough to accommodate eighteen trains at once.

When the Grand Trunk Pacific and the Valley Railway are running trains here, it is expected that the passenger traffic will be much larger than could be accommodated at the station on Mill street, and the I. C. R. authorities intend if possible to have the new union station ready for service in time to meet the demands of the other railways. For some years everybody had been saying and hoping that a new station would be built at Haymarket Square, and the management of the I. C. R. have taken up the matter in a way which promises realization of the people's expectation at no distant date.

While nothing definite is known about the plans for the station, it is said the structure will be of the most up-to-date character from an architectural standpoint, and a credit to the city and the government road. The building of the new station will take some time and give employment to a large number of men. The I. C. R. has under consideration other important plans for improving its facilities at St. John, and it is said it may shortly make arrangements for building a wharf on the property which it took over from the city in lieu of the last wharf property.

CITIZENS NOW SOUNDED

Rev. W. H. Barraclough in Forceful Address, Deals with Alleged Conditions in City—Duty of all.

"St. John is not quite as bad as painted recently by a visitor from a foreign country," said Rev. W. H. Barraclough, during the course of his sermon in Centenary Methodist church last evening, "but it is as bad as we think the citizens should endeavor to arouse sentiment against the existing conditions."

Mr. Barraclough took for his subject "Our Responsibility for a Clean City," and he paid particular attention to the moral cleanliness of the city. His sermon was particularly impressive and he urged his hearers to action in the work of cleaning up the moral conditions here.

"Your sons and your daughters may be victims of vice," said the speaker, "if you fail to do the duty God has laid upon you. Members of the Christian church should never relax in their fight against moral disease—Christians are responsible for present conditions."

The preacher said that people were anxious to have the city clean physically and did all in their power to have the annual spring cleaning complete, but they were not active against moral corruption.

Some persons had said that the church had no right to interfere in affairs, but Mr. Barraclough felt that the Church of Christ was responsible for the moral condition of the people.

He urged the church members to renewed efforts against the saloon, the gambling dens and the houses of infamy. Only by the restraint and suppression of these could the young people be protected.

"Many citizens," said Rev. Mr. Barraclough, "lack the spirit and seem to have no interest in civic affairs. The Christian people fall in their responsibility. The Jews in captivity were told to take part in civic affairs. This example should be followed by Christian people today. The welfare of the city is of vital importance to everyone here. The peace of the city is our peace."

"We all know that vice is the cause of the worst diseases with which medical science has to contend, and we should all know that vice is detrimental to the life of every citizen."

"It is our responsibility to protect our children and them in the race of life. Morality and education should unite to help and protect the coming generation."

TOYS TOYS

You will soon be thinking of different articles which will be needed for Xmas. Let us early draw your attention to our Toy Dept. which contains the latest novelties from German and American factories, personally selected by one of our own representatives.

This assortment includes:

Dolls, Meccano, Humpty Dumpty Circus, Parlor Golf, Mechanical Toys,

Games, Erector, Steam Engines, Cortella, Attachment Toys.

Have You Seen
The Enterprise Magic Range?

There is no fussy ornamentation or filigree about the "ENTERPRISE MAGIC." Just the plain black surface with nickel trimmings—the "Mission style" applied to a stove.

The "ENTERPRISE MAGIC" has all the latest improvements and aids to easy and perfect cooking and baking. Like all other Enterprise Stoves, it is absolutely guaranteed.

We say if not satisfactory, send it back.

EMERSON & FISHER, LTD.

Boys' and Youths' Overcoats
FOR WINTER

A Large Assortment of Fashionable Garments in New Soft Finished Cloths and the Ever Popular Tweeds

It would be impossible to outfit boys more stylishly or serviceably than in this department for we have made special selections of cloths best adapted for good wear and the models are decidedly the dressiest of any season.

Most of the overcoats are designed after adults styles, with convertible and shawl collars, plain loose fitting backs, others have half belts and some with the new three-piece belt adjustable in either half or full belt effect.

All through this immense exhibit of the finer kind and better fitting overcoats for boys will be observed the M.R.A. characteristics of durable materials and extra good tailoring.

Overcoats in sizes from 28 to 35 suitable for the larger boys and youths, made of strong Tweeds, also the new soft finished cloths in fancy mixtures, stripes, diagonal weaves and plain effects in various shades of brown and grey. Prices from \$5.25 to \$13.50.

BOYS' AND YOUTHS' CLOTHING DEPARTMENT.

Attractive New Suitings
In the Dress Goods Department

Good Quality Velour and Satin finish velvet hats worth up to \$4.00 each for \$1.50 each.

Oriental and Bulgarian Bands, Ribbons and Ornaments.

During this sale no hats on approval, none exchanged from 12.30 to 1.30.

Marr Millinery Co.

Tickets for Banquet.

It is necessary for all those who intend attending the Hazen-Rogers banquet on Wednesday evening to send in their names at once in order to procure tickets.

Miss Frances Brandt will have an opportunity to display her emotional power in "The White Sister," at the Opera House tonight.

Manchester Robertson Allison, Limited

TO INSTRUCT FOREIGNERS INSUFFICIENT PROTECTION

Members of Church Brotherhoods will Probably Teach Strangers to Speak English.

In the rooms of the Y. M. C. A. yesterday afternoon representatives of the different churches in the city met to hear an address by W. W. Lee, national immigration secretary of the Y. M. C. A. About thirty members of the brotherhoods attended and found the address of particular interest.

The speaker dealt with the question of "The Stranger Within Our Gates," dwelling especially on the fact that if the foreigner is taught the language of the country in which he finds an adopted home he will be able the better to take care of himself and in this way the first seeds of good citizenship can be sown. He explained how in other cities this work is carried on and demonstrated and how a similar work could be done in St. John. In many of the large cities throughout Canada organizations such as church brotherhoods are giving attention to this phase of teaching the foreigner coming here the language of the country. He has been found that when he has acquired this knowledge he more easily adapts himself to the manners and customs of his adopted country.

In St. John, Mr. Lee pointed out, there is an opportunity for this kind of work. This city is becoming every day more cosmopolitan. The large amount of construction work in progress is drawing in many foreigners, many of whom are ignorant of the elements of the language. At East St. John, where the Courtenay Bay work is going on there are about 25 or 30 Bulgarians. At West St. John a party of Austrians are employed. The teaching of these languages of the country opens a field for the brotherhoods or others who would inculcate the principles of good citizenship in the strangers within the gates.

He explained the method employed in other places in teaching the foreigner who is devoid of all knowledge of the English language. A system known as the Roberts system, named after the inventor, has been found very satisfactory. By this method the foreigner is taught the language by means of gesture, facial expressions and motions indicative of some particular word or phrase.

As a result of yesterday's conference it is probable that some action will be taken here to have classes opened for foreigners in which they can learn English. If teachers can be found to offer their services the work will probably be carried on during the winter. The brotherhoods may take two to visit the different places where these foreigners are located and instruct them in the evenings. As it is difficult to persuade them to go to classes in either the Y. M. C. A. or any of the other centres, the scheme is for the teachers to go to them, visit them in their own camps and their own environments and instruct them. Four or five teachers will be required for the work and it is expected that the necessary volunteers will be found within a short time.

C. E. Colwell Scores Police Protection on West Side

But one Officer on Night Duty.

C. E. Colwell, the West Side merchant, called up the Standard on Saturday, and said he wanted to make a public protest against the inadequacy of the police protection on the West Side.

"Early the other Sunday morning," he said, "my office was gutted by fire, and if it had been left to the police to turn in an alarm the whole building would probably have been destroyed. I called up Chief Clark and he told me there was only one man doing duty in Carleton in the night time. The morning my office was gutted by fire the policeman was way up on the hill."

"The city authorities assessed us this year for a larger amount for police purposes than ever before, but the force has been reduced in number, and we are not getting the protection we put up the money for. Because the city authorities are investigating the police force is no reason why the property of business men should be left without proper protection. We are paying them good salaries to administer justice, to enforce the law, and not let the force get so small that it can not properly patrol the city. It is time the commissions made a move to do away with a condition which greatly increases the risk from fire at night, and invites all the crooks in the country to come here."

PREMIER FLEMMING APPRECIATES WORK

Local Men's Work for Good Roads — Percy W. Thomson Receives Letter of Appreciation.

At the meeting of the Board of Trade this week, the report of the traffic committee submitted by Percy W. Thomson, said:

"The bureau co-operated with the good roads interests and secured from Hon. Messrs. Flemming and Morrissey a grant of \$1,000 for two of the main highways in the vicinity of the city and inspected such work from time to time every week during its progress, besides arranging for the major part of the contracts."

M. Thomson has just received from Premier Flemming, in connection with this matter, the following letter:

Woodstock, N. B., Nov. 7, 1913.

Percy W. Thomson, Esq.,
St. John, N. B.

Dear Sir:

I am in receipt of statement signed by yourself and others regarding the amount of money expended on Robesey and Westfield roads under the direction of the Automobile Association during the past summer.

I want to bear a little word of testimony of my appreciation of the public-spiritedness of the men who contributed the \$1,420 and of those who gave care and oversight to the expenditure of that amount as well as the \$1,000 contributed by the government. It is the kind of co-operation, mutual assistance, that is always sure to bring results.

Yours sincerely,
J. K. FLEMMING.

Did Not Arrive

Rev. Mr. Gonthier of New York, who was to have conducted evangelistic services in Carmarthen street Methodist church, failed to reach the city on Saturday. Rev. Dr. Morrison conducted the morning service and Rev. Mr. Nobles preached in the evening.

Priest Honored.

A distinguished honor has come to Rev. Arthur Barry O'Neill, C.S.C., concerning the "Poet Priest," last Saturday's edition of the New Freeman says: "Upon the request of President Wilson, Rev. Arthur B. O'Neill, C.S.C., of Notre Dame University, assistant editor of the Ave Maria, has gone to Washington, D.C., to confer with the President regarding the appointment of chaplains for the army and navy. The duty of selecting chaplains for the military service is an important one to the President, therefore the advice of Father O'Neill should be of great assistance to the President in his selection."

A NORTH END BABY WAS BADLY SCALDED

Three Year Old Child Fearfully Injured when Hot Water was Spilled—Doctor in Attendance.

A three-year-old child named Fritz received a bad scalding yesterday afternoon in the North End, which resulted in painful injuries that may possibly prove serious.

Baby Fritz whose home is on Chapel street was visiting at a house in the North End yesterday afternoon, and while hot water was being carried about the kitchen the vessel was accidentally upset and the contents poured over the back of the child, causing a painful burn. Dr. Broderick's assistance was sought to alleviate the intense pain. It is believed that no very serious effects will result from the scalding.

Dr. Broderick is attending the child, and although not altogether certain that the child is not internally affected, he entertains hopes for recovery. Baby Fritz is being attended at his home.

THE PRINCE WILLIAM HOTEL.
