Blood. It is the food of your forefathers
And therefore you shall be the same
And I tell it you Sir And to the Government
of Canada that it is so. God made us
And our forefathers, as well as the white people
And their forefathers, God made the mountains
And the valleys And the Rivers, God stocked
the mountains with Games And the Rivers with
fish, And God gave all these to our forefathers
I urged that a settlement of this problem
would bring justice to the Indians and
Advantage to the Whites.

In Conclusion I offer you Sir And to the
Government my sincere thanks for allowing
me in saying these few words.

I Beg to Remain your
Most Obedient Servant
Chief Charley Silpaymick.
