of the soil and crops. Mechanics and mechanical engineering will enable him to better understand his farm machinery, and to use it to better advantage. Veterinary surgery will show him how to use simple drugs and appliances to a sick animal that in the absence of a fully qualified medical man might die and become a total loss. Botany and the study of plant life is of practical use. Zoology will give him a greater interest in his live stock and better impress him with the importance of the law of heredity among animals and the vital importance of line breeding for the production of a desired type. A knowledge of the principles of carpentry, bricklaying, blacksmithing, and so on in almost any trade is useful. In fact, scarcely any knowledge is useless on the farm. The present day farmer is, indeed, a man who needs an extensive and a varied knowledge for the successful practice of his business.

So far as Canada is concerned, certain it is that the Canadian farmer will in no wise lag behind his competitors in other countries. Splendidly as he has done in the past, he will do all that lies within him to do even better yet. Proving still more emphatically in the future as he has so amply proved in the past, that the farming community are indeed "The Salt of the Earth," and by making his farm his own little city and his technical knowledge and farming methods, firm and sound as a hill to support it, he will lend a new and agricultural significance to the words of the grand, old book, "Ye are the light of the world, a city that is set on a hill cannot be hid."

Pills for Nervous Troubles.—The stomach is the centre of the nervous system, and when the stomach suspends healthy action the result is manifest in disturbances of the nerves. If allowed to persist, nervous debility, a dangerous ailment, may ensue. The first consideration is to restore the stomach to proper action, and there is no readier remedy for this than Parnee's Vegetable Pills. Thousands can attest the virtue of these pills in curing nervous disorders.

Billie ain't You Coming Out.

Written for The Western Home Monthly by C. J. Byrne.

When the winter days are here
Memories greet me, memories dear.
That's the time I like the best
When the wind blows from the west:
Shaking dead leaves from the trees;
Chasing out the honey bees
From their haunts of summer time.
Echoes of the Christmas time
Seem to ring upon the air
With the snow flakes everywhere,
While they flurry all around
Here and there upon the ground
When my school mates used to shout
"Billie, ain't you coming out?"

How I love to stand and gaze
At the sort of wintry haze.
As I cross the frozen field;
And to think that from its yield
Such good things we'll have to eat,
All this winter while the sleet,
Rattles on the window pane,
Frosting it all up again.
But you bet it's lots of fun,
Peeking through it at the sun;
When it gets up good and high,
And the clouds all leave the sky;
Thought I heard somebody shout:
"Billie, ain't you coming out?"

When at night we gather near
Father's chair and mother dear;
Now my eyes fill for I know
That those days of long ago,
Are beyond on boyhood's shore,
And to me they'll never more,
Enter in my life, but creep
In my dreams whenever I sleep.
When the wind blows from the west
And those memories with me rest,
Then the sun sets in my heart;
And I wake up with a start
When I hear my school mates shout:
"Billie, ain't you coming out?"

Digging asphalt from Trinidad Lake for Genasco

Genasco

the Trinidad-Lake-Asphalt Roofing

What is the first and greatest thing to expect of a roof?

Stay waterproof.

Trinidad Lake asphalt is Nature's everlasting waterproofer; and that is what Genasco Roofing is made of. It gives lasting protection.

The Kant-leak Kleet keeps roof-seams watertight without cement, and prevents nail-leaks. Gives an attractive finish.

Ask your dealer for Genasco Roofing (mineral or smooth surface) with Kant-leak Kleet packed in the roll. Write for Good Roof Guide Book and samples.
