BALDNESS.
A BEAUTIFUL HEAD OF HAIR is the grand ornament belonging to the human frame. How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age, which causes many to recoil at being uncovered, and sometimes even shun society to avoid the jests and sneers of their acquaintances; the remainder of their lives consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of his hair.—To avert all these unpleasant circumstances, **OLDRIDGE'S BALM OF COLUMBIA** stops the hair from falling off on the first application and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning gray, and makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.
 Read the following:
ROBERT WHARTON, Esquire, late Mayor of Philadelphia, has certified, as may be seen below, to the high character of the following gentleman:
 The undersigned do hereby certify that we have used the Balm of Columbia discovered by J. Oldridge, and have found it highly serviceable not only as a preventative against the falling off of hair, but also a certain restorative

I, ROBERT WHARTON, Mayor of said city of Philadelphia, do hereby certify that I am well acquainted with Messrs. J. P. English, John S. Furey, and Hugh McCurry, whose names are signed to the above certificate, that they are gentlemen of character and respectability, and as such, full credit should be given to the said certificate.
 In witness whereof I have hereunto set my hand, and caused the seal of the city to be affixed, this sixth day of December, &c.

CALEDONIA SPRINGS.
TESTIMONIALS.
I HEREBY certify, that I have been acquainted with the medicinal virtues of the Caledonia Springs, for the last ten or twelve years, during which period I have known numerous instances of the efficacy of those waters in various kinds of disease. In particular, the most obstinate cases of dyspepsia have been radically cured by the use of those waters; of which my own individual case is a striking example; and I have not known a single case of failure in this particular.
 These Springs also possess powers of the highest order, in renovating impaired constitutions, and restoring the tone of the system where it has been deranged by warm climates, improper diet, or any other injurious cause.
DAVID PATTEE,

 August 11th, 1836.
 It is with the greatest pleasure that I can testify to the inestimable qualities of the Caledonia Springs, at which place I arrived on the 1st of August 1857, completely crippled with the Rheumatism and suffering for several weeks previous to my leaving Montreal the most acute pains and prostration of strength. I have used the waters freely, both by drinking and showering for fifteen days, and the result has been satisfactory in the highest degree. I therefore recommend them to suffering humanity, as being in my humble opinion, (from what I have seen and experienced) the most valuable medicinal waters in America; and I have only to add my regret, that they are not known to thousands of invalids, who by visiting the waters, or partaking of them, might be restored to health as I have been.

THE real and substantial advantages afforded to the Public by well-regulated Establishments for the Assurance of Lives, and the sound basis on which these institutions are founded, are proved, incontestably, by their complete and continued success, and by the remarkable fact, that, in no one instance, have they ever failed in their engagements, in consequence of an exhaustion of the Funds provided to meet the claims.—So decided and so manifest are the benefits resulting from the system of Life Assurance in general, both in regard to the Provision it affords to Families in the event of premature death, and the Security it gives to Creditors for debts otherwise irrecoverable, that with every increase of information and intelligence, there appears to be excited, on the part of the Public, an increased desire to participate in its protective advantages. So sound and unerring also are the principles on which Life Assurance Companies are based, that neither commercial difficulties and distrust on the one hand, nor pestilential maldies on the other, have ever yet affected their stability or impeded their successful progress.

ASSURANCES MAY EITHER BE EFFECTED BY PARTIES ON THEIR OWN LIVES, OR BY PARTIES INTERESTED THEREIN ON THE LIVES OF OTHERS.

The effect of an Assurance on a person's own life is to create at ONCE a Property in Reversion, which can BY NO OTHER MEANS be realized. Take, for instance, the case of a person at the age of Thirty, who by the payment of £5 3s. 4d. can become at once possessed of a bequeathable property amounting to £1000, subject only to the condition of his continuing the same payment quarterly during the remainder of his life—a condition which may be fulfilled by the mere saving of EIGHT SHILLINGS weekly in his expenditure. Thus, by the exertion of a very slight degree of economy—such, indeed, as can scarcely be felt as an inconvenience, he may at once realize a capital of £1000, which he can bequeath or dispose of in any way he may think proper.

Assurances may be advantageously effected on the lives of others, either for the purpose of securing loans or debts, or in any case where the party has an interest in the life of another, so as to be in any way prejudiced in the event of his decease. To creditors a Policy of Assurance affords a certain, and in many cases the only means of security.—The debtor is too frequently unable to pay the premium for an Assurance on his life; and the creditor, to whom security is the main object to be regarded, may make the payment for the Premium the condition of his forbearance in not insisting upon the immediate payment of his demand. In the same manner the circumstances and prospects of a borrower, and the nature of the security he has offered, are frequently such as to render it absolutely necessary for an Assurance to be effected in his life, in order to enable the lender safely to advance the amount required.

In addition to the published rates, an extra set of Tables has been computed for Assurances; also for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency affecting the human life, against which it may be prudent or expedient to provide.

AMONG OTHERS, THE FOLLOWING IMPROVEMENTS OF THE SYSTEM USUALLY ADOPTED, ARE COMMENDED TO THE ATTENTION OF THE PUBLIC:—

A Table of increasing rates of Premium on a new and remarkable plan, peculiarly advantageous in cases where Assurances are effected by way of securing loans or debts, &c. &c. &c. immediate payment being required on a policy for the whole term of life than in any other office; and the holder having the option of paying a periodically increasing rate, or of having the sum assured diminished according to an equitable scale of reduction.

Officers in the Army or Navy, engaged in active service, or residing abroad, and persons afflicted with Chronic Disorders not attended with immediate danger, assured at the least possible addition to the ordinary rates, regulated in each case by the increased nature of the risk.

Ladies and others to whom it may be inconvenient to attend the office, will be visited at their own houses, by one of the Medical Officers. All claims payable within ONE MONTH after proof of Death.

No proof of Birth is required at the time a claim is made; the Age of the Assured, being in every case admitted in the Policy, cannot under any circumstances, be afterwards called in question.

Policies effected by parties on their own lives are not rendered void in case of death by duelling in the hands of Justice. In the event of suicide, if the policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the policy be not so assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

Policies having become forfeited in consequence of the non-payment of the renewal Premiums, may be revived without the exaction of a fine, at any time within twelve calendar months, on the production of satisfactory evidence relative to the state of the health of the Assured, and the payment of interest on the Premiums due.

By these and similar Regulations, many of which are peculiar to this Establishment, it is presumed that the important object has been attained of rendering a Policy of Assurance as complete an instrument of Security as can possibly be desired.

THE Subscriber having been appointed Agent to the above Company in this City, is prepared to receive proposals and to give the requisite information as to the mode of effecting Assurances.
