"NATIONAL" NO. 1 HAND POWER.

THE NATIONAL Cream Separator

MANUFACTURED BY THE RAYMOND MFG. CO. OF GUELPH, CAN.

Has every valuable improvement to make it serviceable, reliable, easy and handy to operate.

Has no complicated parts to wash, only two loose pieces inside of the bowl.

Anti-friction ball bearings, to save power and cost of oil.

The neatest in design and finish.

Proven beyond a doubt to be a necessity to make dairying profitable on the farm when making butter or when sending cream to the creamery or city trade.

It makes more butter and improves the quality so as to command the highest price.

Saves labor, and earns an extra increased profit of from \$4 to \$8 per cow annually.

Ask those who have them. Consider the waste of money by feeding the most valuable constituent in milk to calves, when grain meal, having the same feeding value, can be substituted at 1-16 of the cost of the butter-fat.

The "National" is sold entirely on its merits. A free trial given at your own home.
