ONION GROWERS CO-OPERATE IN ONTARIO

Co-operation is nearly always born of distress. When, for instance, marketing conditions reach the deep mire of despair, those who are producing a certain line of farm products are liable to get their heads together and seek improvement through co-operation. It was conspicuously so with the apple-growers of Southern Ontario, and the latest example is the Scotland Onion-growers' and Farmers' Co-operative Association, of Brant County. Last year, when, with a bumper crop in this leading onion-producing district, the price was forced down below the cost of production, assisted possibly by manipulation of the trade, the producers decided to unite for the disposal of their crop. The result was an organization representing a considerable proportion of the heaviest producers, with business arrangements for the shipping, selling and storing of onions. It is believed by the members that their association has already had the effect of raising net prices to the growers, both in and out of the organization, by ten or fifteen cents a bushel. Success to this latest Canadian line of co-operation.

MANCHURIA AS WHEAT PRODUCER

It cannot well be many years before Manchuria will become a wheat producing country on a large scale. The valley of the Liao river contains a very extensive farming country through which passes the railway from Dalny to Mukden. The valley of Sungari river is about double that of the Liao, and the whole of it is suitable for wheat culture, as is proved by the quantity that is already grown there. The harvest coincides with our own, but is conducted in very primitive fashion, farmers grow little more than enough for their own consumption. The land, however, is there, and is bound to be developed as the taste for wheat flour extends amongst the inhabitants, who at present live upon various sorts of millet and sorghum seeds. With the grain-growing possibilities that the country has she will doubtless become an exporter of wheat in spite of the mills that have been erected in the country. Northern Asia will differ from Canada only in so far as the grain growers of Canada have been developing their wheat fields by pushing steadily westward, whereas in Asia the wheat belt is being developed both from the eastern and western ends, from Western Siberia and from the North Pacific coast.

SCOTTISH SHORTHORN SALES

October is usually an active month in Scottish Shorthorn circles and October, 1909, was no exception. Some important auctions were held during the month, chief of which probably were the dispersal of the Ballechin herd, when the results of 31 years of breeding by the late Alexander Robertson came under the hammer, and the annual sale of Duthie and Marr at Tillycairn. The average price secured for the Ballechin herd, counting each calf as a separate lot was £61 14s. 3d. The following is a summary of the sale:

	Average	total
30 cows.....	£73 5 9	£2198 14 0
14 heifer calves ..	39 15 0	556 10 0
12 bull calves ..	44 12 6	535 10 0
9 two-year-old heifers.....	56 4 8	506 2 0
12 yearling heifers	53 9 3	641 11 0
3 bulls.....	166 5 0	498 15 0
80	£61 14 3	£4937 2 0

DUTHIE AND MARR SALES

The annual sale of calves from the herds of Wm. Duthie, Collynie, John Marr, Uppermill, and J. Duthie Webster, Tarvis, took place at Tillycairn, Oct. 12. Shorthorn breeders were in attendance from all parts of the British Isles. The following is a summary of the animals sold and prices secured:

	Average	Total
24 Collynie bull Calves	£251 1 7	£6025 19 0
7 Uppermill bull calves	70 16 0	495 12 0
2 Duthie Webster bull calves	29 18 6	59 17 0
33 bull calves	£199 8 8	£6581 8 0

For Bilious Attacks

HASSARD'S HORSES

I have just landed a fresh importation consisting of Clydesdale and Hackney stallions and Clydesdale fillies, direct from Scotland. The stallions are sired by such notable sires as Lord Fauntleroy, Revelanta, Baron of Buchlyvie, Sir Everest and Prince Thomas; these stallions range from 2 years to 6 years old and are horses with lots of size and extra quality. The fillies are two and three years old and are sired by such horses as Prince Alexander, Benedict, Prince Attractive, Prince Maryfield and others. These are good big fillies with a lot of quality—the kind to take to the show ring. In fact, it is said by those who have already seen them that they are the best bunch that has ever come to the province. I have 18 more fillies coming that will reach Deloraine by November the 15th; further particulars of them later. Come and see me or write. I am always ready for business with small profits.
