

Plenty of Time To Pay For It In A TEN YEAR GUARANTY

And I Will Find a Market For All You Want To Sell

Get this without paying a cent. ASK ME HOW.

MOST Incubator-men talk loud about steady Heat and little about Clean Air. I can afford to talk both, and more besides. Because:—

The Peerless is the incubator that hatches with clean air,—the incubator that has real ventilation.

Now the quality of air an incubator-chicken gets before it's hatched is far more important than the quantity of food it gets after it hatches.

And many a poultry-for-profit venture has gone to smash by the carbon-dioxide route — bad incubator air. Carbon-dioxide is a deadly gas every egg gives off as it hatches.

Open the ordinary incubator's door and sniff,—that sulfurous, musty, choking smell is carbon-dioxide; and it is poison to animal life.

There is no smell in a Peerless—the poison is continually flushed out of the Peerless hatching chamber by the Peerless natural, unfailling ventilation.

Remember that for almost 500 hours the chick breathes what air seeps through the porous shell. If that air is poison loaded, as it is in badly-ventilated ordinary incubators; that chick is stunted, its vitality impaired, its vigor weakened.

It never can thrive as Peerless-hatched chicks, that breathe pure, clean air, do thrive.

Remember, too, that this is only one of fifteen plain reasons why the Peerless incubator not only hatches every chick that can be hatched, but gives those chicks the right start.

Every one of the fifteen reasons means the difference between money made and money lost in poultry-raising.

Suppose you send me your address—use a post card if you like—and let me send you the free book that tells some things you need to know, whether you are a beginner in poultry-raising or an expert.

Sending for the book doesn't commit you to buying the incubator. All I ask you to do is read the book. I won't importune you nor bother you.

Just send for the book and read it—that's all.

If you do that right now, I will tell you, also, how you can make the Peerless earn its whole cost long before you pay one cent for it.

Whether you have ever thought about raising poultry or not,—whether you know all about incubators or you don't, I will show

you why it will pay you,—pay you, personally,—to know what the Peerless is and what it could do for you if you wanted it to.

Simply your name and address fetches what will tell you that,—and no obligation on your part. The obligation will be mine to you, if you'll just write now.

In this Free Book I show you how to start in the poultry business without spending a cent for the important part of your outfit.

I will make you a partnership proposition that puts the risk mostly on me and leaves the profit wholly for you.

I will tell you how to get the incubators and brooders you need without paying for them till they have paid for themselves twice over.

I will show you why that beats all the free trial offers you ever heard, and why my way is the only sensible way for you to start raising poultry for profit.

I will even find you a cash buyer for all the poultry you raise—and all the eggs.

Because You Need The Money

It's your business and if you don't attend to it, who will? You cannot afford to keep cows for fun. That isn't business, and, furthermore, it isn't necessary. There is money in cow keeping if you go at it right, and besides there is more fun in going at it right than there is in staying wrong.

You need a Tubular Cream Separator because it will make money for you; because it saves labor; because it saves time; because it means all the difference between cow profits and cow losses.

Look into this matter; see what a Tubular will do for you and buy one because you need it.

How would you like our book "Business Dairying" and our catalog B. 185 both free. Write for them.

The Sharples Separator Co.
West Chester, Pa.

WASHING Without RUBBING

Here's a machine that washes clothes without rubbing—and all but works itself.

The New Century Washing Machine sends the water whirling through the clothes—washes the dirt out of the thread—yet never rubs or wears the fabric. It's easy work, and you can wash a tubful of clothes every five minutes. Our booklet tells the "reasons why." Write for a free copy. **The Downwell Mfg. Co., Limited** Hamilton, Canada

WINNIPEG, MAN.

Scientists claim that with the average stove 80% of the heat goes up the chimney and is wasted. The

WINNIPEG HEATER

saves nearly all this waste heat, heats another room with it and yet costs you nothing for additional fuel.

It can be readily attached to any ordinary stove or furnace pipe.

Ask your stove dealer or write to

Keep Warm and Cosy

On Every Winter Drive with a

Clark Carriage Heater

Ask your dealer for one. He can get it quickly. Be sure to ask for the Clark Heater.

at your feet in wagon, sleigh or carriage. These heaters are made of metal throughout; they are attractively covered and lined with asbestos. They will not bend or break, and give a strong, comforting heat on the coldest day. Everyone guaranteed to please or money refunded. They burn Clark coal at a cost of only 1 cent a trip of 5 hours or more. They cost so little you can afford to keep warm.
