**“Thistle”  
Brand  
Haddies**

Full weight in 16-ounce lined tins, containing no skins, no bones, no waste, no dirt or slime—nothing but the freshly caught, carefully cleaned and cured genuine Haddock.

We predict that the **“Thistle”** brand will increase confidence in any grocer's general stock. It is a “builder” of confidence.

**“Thistle”  
Tunny  
Fish**

Heretofore called a luxury, but now put up in one-pound Seamless Oval Tins in this Country—superior in the delicacy of its flavor and containing no waste.

For a while Spain furnished it in limited volume, but the popular demand compelled the ways and means adopted by the Thistle Company. The Tunny Fish are ready.
