To The Editor

To the Editor of The Courier Sir,-The spirit of domination which imperils civil liberty abroad persists in effort to suppress religious liberty at home. Men who are free to leave their church if they wish, and go tent with that, but are doing their utmost to bring to an end The Presbyterian Church, and to drive her homeless membership into a new church com-

May I refer to the latest agency and the newest arguments for leading people to submit to such dictation and coer-

The latest agency calls itself the "Montreal Presbyterian Publicity Committee." It has been sending out a series of letters to the press all over Can-

"Of its four members the only two names known to me are Mr. W. M. Birks, Chairman, and Dr. Bruce Taylor, Secretary. The former does not belong to our church, but to the Presbyterian Church, U.S.A. The latter has only been a short time in Can-ada. Of the efforts of outsiders and newcomers to break up the Presbyterian church, and their good taste in assuming the task, your readers can judge.

Passing from this latest agency, note the latest arguments. The old arguments failed. Their only result in the four years between the two votes of the people was to increase the opposition by about fifty per

The new arguments are of two kinds, names and pictures. Our people will appreciate this tribute to their intelligence.

First came the names. The first letter of this "Montreal Presbyterian Publicity Commit-tee" recently published, consists of the names, occupations, etc. of forty-eight "Presbyterian laymen" from Halifax to Van-These names are not given as members of a committee, but as reasons why the Presbyterian Church in Canada should be blotted out because

they think so.
Presbyterians usually do their own thinking. They do not sup-pose that a little prominence in finance, politics or law specially qualifies for deciding questions

faith and conscience for Thirteen of the forty-eight names, more than one-fourth of them, are given as from Mont-One of them, to whom they call special attention as heading the list, removed from Canada thirty years ago. Five others of the thirteen belong to the American church of the

Presbytery of New York, Presbyterian Church, U.S.A. It is a congregation of worthy people, and has done much of its mission work through the Boards of our Church. for more than forty year's it has lived beside the Presbyterian Church in Canada and has not United with it. There was no special reason why it should do so if it preferred otherwise. It would not have done better

work. It shows that organic union is not necessary to unity. This "Publicity Committee" has thus published to the world, as belonging to and representing the Presbyterian Church in Canada, nearly half their list of Montreal names from another Church. This is so plain an un-truth that there need be no surprise at a second untruth, in that same letter, which declares that "the Basis of Union permits and expects existing congregations to continue in every

particular exactly as before.'

On the contrary, it is self

evident, and it is expressly declared in the Basis of Union. that every congregation will be "subject in general affairs, to the legislation, principles and discipline of the United Church";—a Church which has deliberately dropped from the ordination vows of ministers all declaration of acceptance of any system of Scripture Truth, drop-ping even the vow of acceptance of its own Basis;—leaving an open door for error, especially that error, all too prevalent, which takes from Christ His Crown of Deity and makes Him merely a man—a Church which for its so-called eldership, has no ordination vows of any kind whatsoever;—a Church which hands over all control of the Calling and Settlement of min-isters to an arbitrary and irres-onsible Settlement Committee,

meeting once a rear. Some of the letters sent out by this "Publicity Committee" have the photos of the supposed writers. The pictures, like the names, are intended to impress.

One of their picture letters tells of what it calls "The first Union Church in Canada" at St. Anne de Bellevue, near Mon-treal, the seat of McDonald Agricultural College. The letter implies that over-lapping and waste has been there replaced a self-supporting Union

This is a third untruth. What are the facts . We have a few good people at St. Anne who, for many years, maintained re-ligious services, entirely self-supporting. During these years the Methodists and Congrega-tionalists had there neither peo-ple nor service. Shortly before the opening of the College the Methodists began holding a ser-
