

You get the best results every time from

PURITY FLOUR

because the quality is in the flour itself to start with.

More Bread and Better Bread

IN buying flour, it is some consolation to know that the responsibility for its success doesn't altogether rest with you. It is part of our policy to inspect and test each barrel of Horton Flour before it is shipped. In that way, we not only avoid complaints, but we ensure that the flour shall always be of the same uniform quality, and therefore always dependable. Since it costs no more for this kind of flour, why not at least give it a trial? We believe you'll like it. Nearly every grocer carries and is glad to recommend Horton Flour.

Y.M.C.A. Leader Gone Overseas

Capt. S. O. Watt Sent to Continue Work With Canadian Troops Abroad

The Y.M.C.A. staff at Aldershot has recently lost an efficient member and leader in the person of Capt. S. O. Watt who has had charge of the work here during the summer. He has been sent overseas to continue in Y.M.C.A. work with the Canadian troops in Europe, a position for which he has been excellently fitted by two years of military Y.M.C.A. service at Amherst, with the 6th Mounted Rifles, at Valcartier, Halifax and Aldershot, backed by several years of creditable work in local Associations.

Capt. Watt is a genial soul, a "good old scout"—to use an epithet which he himself sometimes applied to individuals among his many friends in camp. He was "Dad" with many of the boys, and a friend to all, one who had a smile and a joke always ready for use, and in whose presence it was difficult to be "blue." He goes to what we believe a larger service with the good wishes and the confidence of officers and men alike. He is succeeded in the important position which he has left by Mr. Guy MacKenzie.

Capt. Tupper Recruits Eighty Men to War on Kaiser Alcohol

Sunday, Sept. 24, was Temperance Sunday at the Y. M. C. A., Capt. Chaplain Tupper was the speaker. In an address that combined humor and pathos, he arraigned the evils of alcoholic indulgence, and took away or annulled all evidence used to make a good case for the upholders of the use of alcohol as a beverage.

So well did he argue and so thoroughly did the men agree with his words, that at the close of the meeting eighty men came forward and pledged themselves totally to abstain from alcoholic drink and to assist their comrades to do the same.

THE MUNICIPAL ELECTION

The electors of Kings County are in a few weeks to have the duty and privilege of exercising the franchise in the selection of men, who will have in charge the affairs of the municipality for the next three years. Inasmuch as, in some respect, the questions of temperance and moral reform are the most important with which the new council will have to deal, it is fitting that attention should be drawn to the principles of the Temperance Alliance, as they apply in this election.

The object of the election should be to secure a body of intelligent God-fearing men, who, putting aside all selfish considerations, will work for the highest welfare of the municipality. The Christian standard is set forth in Romans the thirteenth chapter as follows: "For rulers are not a terror to good works, but to evil. For he (the civic ruler) is the minister of God to thee for good. But if thou do that which is evil be afraid, for he beareth not the sword in vain, for he is the minister of God, a revenger to execute wrath upon him that doeth evil." To realize this standard, and to seek its attainment, will serve as a guide to all concerned.

The Alliance holds that the ideal condition is that municipal affairs should be kept out of party politics. Suitable men for councillors should be selected irrespective of party affiliations, and they should be expected to keep themselves free from the machinations of petty partisanship. But where this ideal has not been attained, the policy of the Alliance is to use its influence so that none excepting good candidates shall be in the field. Then, whatever the complexion of the Council may be from a party viewpoint, the purposes of temperance and moral reform will be served. In order to encourage the parties to measure up to this standard, it is necessary simply for Alliance members, first, to use their influence; in their respective parties, to have the right kind of candidates nominated, and, secondly, to exercise a sufficient degree of independence to vote for the best man on the ticket. Unless Christian electors are prepared to take this stand, it is not only folly, it is positive sin to pray "Thy Kingdom come, Thy will be done."

F. H. BEALS, Wolfville, Oct. 2nd, 1916.

THE BROWN TAIL MOTH

We have during 1914-15 and 1915-16 two successful seasons in controlling the Brown Tail Moth in the Province. In 1913-14 the year following the big flight from New England States, the inspectors found 24150 nests in the Province. The following year they cut this down to 18154 nests and this winter they made a further reduction finding only 14755 in the Province.

One of the reasons that they have been so successful is that they know most of the infested orchards and go to them early in the season before the crop of the nests begins.

Many infested orchards however could not be located until quite late in the season and thorough work was of course impossible in them on account of the drop that had already occurred.

The Brown Tail is very easily located by apple pickers during October. The winter nests are now being formed and a circle of skeletons of leaves surround each nest to a distance of from six inches to two feet. These spots of brown skeletonized leaves are now very conspicuous against the dark green of the trees and the nests containing a number of small caterpillars in the centre of these brown leaves will identify the work with certainty as that of the Brown Tail.

Owners desirous of keeping their orchards free from the brown tail would do well to tell their pickers to keep a look out for these nests and to destroy

Intense heat-resisting power is the feature of the almost imperishable fire-box linings of our own McClary semi-steel fire-box made in eight pieces—can't warp.

McClary's Kootenay Range

The man who designed the Kootenay knew his job. I know that and that is why it carries my guarantee as well as the makers'.

"SOLD BY W. W. ROCKWELL."

Letter From the Front

Recent letters from the front, written by officers who were through the actions of September 15, have brought fuller details of the terrible fighting of that day and the glorious work of the Nova Scotia Battalion.

The following is an extract from a letter written by a young Halifax officer of the Nova Scotia Battalion:

"France, 5.30 p.m. Sept 20th. I've been through the most trying experience that any man could go through and live, but thank God I was one of the five officers out of twenty-two that went into the engagement who came out unharmed, and I must bear a charmed life for I never thought any of us would return. "On Sept. 15th we left Div. Reserve with orders to capture Courcellette and extend our line the other side of the town. We formed up in four lines of platoons across an eight hundred yard front, my platoon being the first wave. This was about 1,200 yards from the German trenches in front of the town. As soon as we started the advance we came under heavy shell and machine gun fire but our lines kept on as straight as if on parade.

Major Brooks' Death

"The first officer to fall was Major Brooks, the bravest and best gentleman I ever knew. Major Flowers and Lieut. Wetmore were wounded, also Lieut. Hiltz, our scout officer. We passed over our first line and went forward at the double through a hell of fire, but we got through, driving everything before us and dug in about 100 yards the other side of the town. Hobkirk and I raced through the streets pot-potting a Fritzes. Some of the beggars put up a fight but in most cases they put up their hands with 'Mercy Kamrad.' We bombed their dugouts and captured machine guns and trench howitzer.

Received Highest Praise

"Our Battalion has received the highest praise for a most gallant charge and probably some one will write a more glowing account than I can. We held our new trenches till late on the night of the 17th when we were relieved by another Battalion.

"We lost 17 officers during the three days, five killed, 12 wounded and about 275 men.

"Poor old Battalion! We were twenty-four hours at one time without water and on half rations.

"Poor Hobkirk, he fell at the head of his platoon, a gallant soldier. I can't write about it now. Poor John Stairs too, he is gone.

EIGHTEEN APPLES TO HALF BUSHEL

Bridgetown, September 29 — While looking through the big orchard of Arthur T. Marshall, at Clarence, yesterday, a Daily Post representative saw some "Wolfe's River" variety being packed for the English market. Eighteen of the biggest apples ever grown in Annapolis Valley just filled a halfbushel. And ninety-five filled a barrel close fit. These are the apples that took first prize at the Halifax Exhibition for size and quality.

they by burning wherever found. They would also confer a great favor if they would notify the writer of nests found in their orchards so that an insector may be sent to these orchards at the beginning of the season, and that more effective work can be accomplished.

KINGS CO. BARRISTER MARRIED AT LUBEC

(Lubec Herald)

A very pretty wedding took place on Wednesday of last week at high noon, at the new home of Mr. and Mrs. Wm. K. McBride, when Miss Esther Elizabeth Winchester, a sister of Mrs. McBride, was united in marriage to Mr. Harry Phillips Newcombe, of Saskatoon, Canada. The house was tastefully decorated with golden-rod and purple asters. The bride, who was dressed in a dark blue traveling gown, and carried a bouquet of sweet peas and lilies, was given away by her brother, A. Brooks Winchester of Grand Manan, Miss Belva Bancroft McBride niece of the bride, acting as maid of honor. The wedding march was played by Miss Emelle Newcombe, sister of the groom. The ceremony was performed by the Rev. D. M. Angell, pastor of the Methodist Episcopal church in the presence of immediate friends and relatives. After the ceremony, dinner was served by the hostess. The bride, who was formerly one of Lubec's poular teachers, has for the past two years been engaged in Temperance Reform work, and recently resigned her position as New York State Lecturer and Organizer. She has also served as president of the W. C. T. U. in Washington Co., and as Maine State Secretary of the Young Peoples Branch. Mr. and Mrs. Newcombe left on Wednesday night's steamer for Boston, enroute for their new home in Saskatoon, Saskatchewan, Canada, where he has an established law practice.

Mr. Newcombe is a son of Mr. and Mrs. G. W. Newcombe formerly of Canning and he practiced law for a while in Kentville before going West.—Ed. Advertiser.

MAGNIFICENT WORK OF NOVA SCOTIANS

Made a Name But at Terrible Cost

In the Canadian Eye Witness report of the capture of Courcellette and adjacent positions on September 15th and the succeeding days, reference was made to the brilliant work of Nova Scotians, as follows:

"On their left (referring to the French Canadians), a Nova Scotian Battalion co-operated brilliantly in the capture of the rest of the village."

Substantiation of this magnificent work of the Nova Scotians was contained in a cable from Colonel Hilliam, Commanding Officer of the Nova Scotia Battalion to Premier Murray, the cable being as follows:

"Let Nova Scotians know that all Canadian Corps is proud of Nova Scotia Battalion's magnificent work."

"COLONEL HILLIAM."
