

Breakfast Foods

There is an astonishing number of so called "breakfast foods" made nowadays. Some of them are particularly nice, nutritious and wholesome. They are exactly what a person needs for breakfast. They put the system in order for the days work.

A WEATHER PROPHECY.

A visitor from London yesterday prophesied to several of his friends that on Saturday there would be a great display of thunder and lightning with a heavy rain towards evening. Last year this man predicted thunder and lightning in February and his prediction came true. James Jones, the well-known gunsmith who has been a resident of Chatham since 1852, said that there would surely be a change in the weather, but whether it would be for better or for colder Mr. Jones couldn't say. He says that he can tell by his bones whenever a change of weather is on the tapis.

IT IS NOT COMPULSORY.

To the Editor Daily Planet.—I see by The Planet of the 31st ult. that the veterans of 1855-66 are requested to appear in their uniforms on the evening of the Patriotic Concert. Where is the authority, and what is the object? The 21st Battalion being defunct, hence, I don't see how the publisher would like to see us with the accoutrements that have been lying idle, packed away, I may say, for several years.

In my name, sir, as well as in the name of several others, veterans of '66 also, we do most earnestly protest against any such red-tape military rule of another age. Let us appear, as we are, in civilian clothes. It is our individual wish and our utmost desire. We don't want to make ourselves "show soldiers." This would be out of season and out of place.

Yours truly,

Ex-Corporal Vol. Coy. Veterans of '65-66, formerly 21th Kent Batt.

The complainant charges violation of the Lincoln health laws.

CIVIL WAR IN KENTUCKY.

Frankfort, Feb. 3.—The Democrats of the Kentucky legislature met in secret session yesterday and ratified Goebel as governor and Beckham as lieutenant-governor. An injunction will be served on Taylor today. He will ignore it. Beckham will then appoint a new adjutant-general with instructions to enforce the authority of the courts. Taylor's troops will resist this and civil war the state will be almost sure to follow. Goebel's condition is improved.

Finance Committee Thinks the C. C. I. Board is

And Registers an Able-Bodied Kick—Radial Railway Talk.

There were present at the meeting of the civic finance committee yesterday afternoon Ald. Stephens, the chairman, Ald. Scane, Ald. Sulman and Mayor Smith.

A number of accounts were recommended paid and other routine work accomplished. Considerable discussion was created over the financial statement of Secretary Treasurer T. K. Harris of the C. C. I. board for the month of January. Of this total which amounted to \$972. Of this total \$133 was the account of Blonde Bros. for raising the floor of the assembly hall and \$50 was charged to small accounts which were not itemized.

Ald. Sulman said he thought the bill for the raising of the floor should have been paid out of the entertainment funds. He understood it was proposed to purchase some 600 opera chairs in the near future and if the committee did not protest now they would probably be billed for them.

Ald. Scane drew attention to the \$50 for small account itemized and thought it was scarcely the proper way to pass amounts of that kind.

The Mayor endorsed the remarks made. Ald. Stephens pointed out that one of the main reasons of the continued high rate the citizens of Chatham were taxed was largely due to the expenses of the schools and more especially the high school.

Ald. Sulman believed the high school board should be elected by the people and thereby made directly responsible for their expenditures.

A resolution was unanimously passed

that the chairman should recommend to the council that the C. C. I. board should endeavor to exercise more economy and reduce their present extravagant expenditure.

IT'S A LONG LETTER.

"I will move," said the chairman, smiling, "that Ald. Sulman read this letter. Do you second that Ald. Scane?"

"Assuredly," was the response. The chairman handed over a voluminous communication from George C. Rankin on the building of a radial railroad, in which the corporation should take a controlling interest and the citizens subscribe the balance of the stock.

Ald. Sulman—Well if you want me to read it, I'll do so.

Ald. Stephens—Refer it to the reporters with power to publish gratis. The Mayor—That's the idea.

Ald. Scane—But the proposal's a good one. It's just what we ought to do.

Ald. Sulman—Yes, but whose got the nerve to start it.

Ald. Stephens—I'd willingly start a subscription with \$1,000, even if I knew I never would get a cent out of it.

Ald. Sulman—It would do more good that all the good road schemes in the district.

The Mayor—As I told the people I was negotiating with the Saturday receipts would pay the expenses of the week.

Ald. Stephens—Dover would bonus the enterprise at \$2 an acre. Why tomorrow they wouldn't have cars enough to carry the traffic.

Ald. Sulman—Well I'm heartily in sympathy with the idea and will do all I can to assist.

The committee decided to report the receipt of the communication, which contained many valuable ideas and was filed for future consideration.

Re the application of John Gemmill for remittance of poll-tax Ald. Scane said the Chief of Police had informed him that he thought the assessment

fine and cost should be remitted. This was consequently done.
