Being Sold On Western Section of the Read, Which Is Divided Into Prairie and Mountain Divisions.

New York, Nov. 30.-Details of the Grand Trunk Pacific project are an-nounced in connection with the fi-ancing of the road by Speyer Bros. The following announcement was made in The Wall Street Journal to-

made in the train behavior day: The read is to be built in two di-visions, the eastern from Moncton, N.B., te Winnipeg, 1,800 miles, and the western from Winnipeg to the Pa-cific, 1,500 miles. Rails are to be standard 75 and 80 pounds steel rail. The western division is to be completed by 1911.

by 1911. The eastern division will be built by the Canadian Government under Grand Trunk supervision. The west-ern division will be built by the Grand Trunk Pacific under Government supervision. When completed the entire line will be operated by the

entire line will be operated by the Grand Trunk. The eastern division will be leased for fifty years on a rental equal to 3 per cent. of the cost, and at the end of that time Government may ex-tend the lease or operate the road it-self. At all times the Grand Trunk Pacific concedes a right of way to other systems as the Government dic-tates. The second secon tates.

On the eastern division fifty-year 3 per cent. Government debentures will be issued. The Grand Trunk has nothing to do with the financing. The Grand Trunk Pacific will have noth-ing to do with the eastern division until it is ready for operation. After this date for several years no rental will be paid, this seven years inter-est being paid by the Government as

After the ten years the bonds will become bonds guaranthe bonds will become bonds taken teed by the Government absolutely. All western bonds are to be dated on the completion of the property, equipped and ready for operation. When this is done the first mortgage debt will be 3 per cent. guaranteed bonds. The second mortgage, repre-senting additional cost, may bear any interest. Of the stock \$20,000, any 000 may be preferred and \$25,000,-common. The latter goes to Grand Trunk, which will thus 000 the control the new property.

#### Ren. John Bryden's Mission to Ohienge Live Stock Shew.

Chicago, Nov. 30.-Hon. John bryden, Ontario Minister of Agricul-Dryden, Ontario Minister of Agricul-ture, arrived yesterday to attend the stock show. He expects to meet Sec, retary of Agriculture Wilson, who is on the way from Washington to-day, and have a conference with him. One of the subjects which Minister Dryof the hans to take up with Secretary Wilson is the need of revising the tariff on Canadian imports. "The tariff wall should be lower-ed," said the Canadian Minister. ed," "The great expense of shipping cattle from Canada to the United cattle from Canada to the United States has in a measure restricted our exhibit at the stock show. Cana-da is flourishing, and the wheat raising country of the Northwest is bound to make a record some day. Everything raised in our latitude is hardier than the products of land further south and is better." Minister Dryden would have exhib-ited his prize shorthorn bull, Prince Gloucester, but decided not to pay the tariff duties.

sumption, Pleurisy and Pneumonia -A Certain Cure in Reach Of All. Influenza, coughs and colds, bad

Influenza, coughs and colds, bad and distressing as they are in them-selves, often lead to yet worse and more dangerous maladies. Very fre-quently bronchitis, or inflammation of the bronchial tubes results, which in its turn is a forerunner of the fatal and dangerous disease of con-sumption. Pneumonia or inflamma-tion of the lungs, and pleurisy or in-flammation of the serous covering of the lungs are also the direct effects of influenza. It is highly important, therefore, that influenza should not be allowed to run its course uncheck-ed or fatal consequences may result.

therefore, that influenza should not be allowed to run its course uncheck-ed of fatal consequences may result. Stuart's Gatarrh Tablets are a nover-failing cure for influenza, coughs and colds and are so recogniz-ed throughout the land. They go direct to the root of these dieases and thoroughly expel from the sys-tem all causes and thus render the disease impossible. Under their in-fluence all poisons are carried away and the system is thoroughly cleans-ed, the blood purified and the diseased and wasted tissues and membranes are restored and rebult. The disease is conquered and destroyed and all danger of the fearful consequences are permanently removed. The unparalleled success and popu-larity of Stuart's Gatarrh Tablets, both in England and America con-clusively, prove the effective merits and virtues of this great zemedy. Being in reach of all classes, they re-lieve the suffering and danger of rich and poor alike and, as a consequence, their name has become a household

lieve the suffering and danger of rich and poor alike and, as a consequence, their name has become a household word throughout the English-speak-ing world. The cures they have ef-fected and the health and happiness they have brought to the people of these countries and the reasonable price at which they are sold have put them so far ahead of other, rem-edies for these diseases that all at-tempts at competition have been given up.

tempts at competition have been given up. Stuart's Catarrh Tablets are sold by druggists everywhere at 50 cents a box. Druggists don't dare to be without them for the people insist on having them and no other. Physi-cians are prescribing them through-out the land and if your own doctor is real honest with you he will tell you frankly that there is nothing on earth so good for influenza, coughs, colds and all catarrhal af-factions as Stuart's Catarrh Tablets.

### Fall Ploughing in West.

**Fail Ploughing in West.** Winnipeg, Nov. 30,—The C. P. R. yesterday completed the preparation of a special report on fail plowing throughout the west. ; The report shows an increase in areas broken for 1904 of from 20 to 25 per cent, in general as compared with the fail plowing done in 1903. Only a few points show a decrease, while dis-tricts along the Prince Albert branch report extraordinary percentages of increase, running as high as 1,000 per cent. at Kenaston. These figures came from newly settled districts.
