

U. S. EMBARGO ON POTATOES LIFTED

The Federal United States quarantine against shipments from foreign countries of potatoes affected with powdery scab has been removed this week by an order of the Department of Agriculture at Washington, to be effective Jan. 1.

"Canadian potatoes may be shipped into the United States without certification under an arrangement with the Canadian Minister of Agriculture," says the Washington announcement, "but inspection at ports of entry of potatoes from other countries will continue."

Although the New Brunswick Department of Agriculture has not been officially advised of the passage of the order, Mr. J. B. Daggett, Secretary of Agriculture, said it had been expected that the embargo would be lifted on January 1st.

AKES OFF DANDEUFF. HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderrine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderrine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderrine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderrine. Save your hair! Try Danderrine.

NERVOUS HEADACHE

Miss Evelyn M. Riser, Dublin Shore, Lunenburg, N.S., writes—"I suffered from severe headaches for two years. In fact, I had headaches day and night. My appetite was very poor and I frequently had pains in the back. After using a few boxes of Dr. Chase's Nerve Food the headaches disappeared, appetite improved and I gained in health and strength. I am very thankful for the benefit obtained from the use of Dr. Chase's Nerve Food. For I am well again after two years of misery."

The object of pain seems to be to give warning that something is wrong in the human system. For this reason, when you have a headache, for instance, you should honestly seek for the cause.

Headache is not a disease in itself, but rather a symptom. If you find other indications that the nervous system is exhausted—if you are restless, nervous, sleepless and irritable—you may rightly suppose that to be the cause of the headache.

The headache warns you that with neglect of the nervous system you later expect nervous prostration, locomotor ataxia, or some form of paralysis. Wisdom suggests the use of such treatment as Dr. Chase's Nerve Food to build up the system, and thereby remove the cause of the headache, as well as prevent more serious troubles.

The use of headache powders is not only a dangerous practice, but the shock to the system of drugs which are so powerful and poisonous as to immediately stop pain is most harmful. The relief is merely temporary, and with this danger signal removed the disease which caused the headache continues to develop until results are serious. The moral is, when you have headaches or pain of any kind look for the cause and remove it.

Dr. Chase's Nerve Food is not intended as a mere relief for headache. It cures by supplying the ingredients from which nature rebuilds and revitalizes the wasted nerve cells. Some patience is required for this reconstructive process, but the results are wonderfully satisfying, because they are both thorough and lasting.

If you would be freed from headaches, as was the writer of the letter quoted above, put Dr. Chase's Nerve Food to the test. Working, as it does, hand in hand with Nature, it can no more fail than can other of Nature's laws.
