some curious people have tried to this same partizanship is offered by the attitude of certain owners of the right of way. In a project of this character, undertaken purely in the interests of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported by very heavy private the content of the community at large, and supported pected that land-owners would all be liberal in their offers and would our colleges or in special schools of Miss Stewart p make some personal sacrifices. Many agriculture. It is to the sciences of them, be it said to their credit, that we must look for assistence in

a mile would not pay what some mistakes are almost certain to be owners pretend to ask. It is formade. It is founded on no fixed

things are known emperically by almost every farmer, but, what I wish most every farmer, but, what I wish Tracadie to examine the patients. Death of the Solicitor General,

The Hon, John Herbert Crawford, died at his residence, Hampton, on Monday morning The deceased gentleman was thirty-nine years old. He was first elected twelve years ago member for Kings and has since continuously represented it. He voted against the School measure, but spoke in the Legislature in favor of it. This apparently inconsistent course he justified on the ground that he had been pledged to vote against it, but his private convictions were in its favor. His course was ratified by his constituents, whose confidence he retained to the last, the' for two

in 1879, became Solicitor General. In medicines acted. The medicines acted thus became a true science, was no the Lazaretto on Confederation was the was a very useful and active longer empirical. So it is with farm. He was a very useful and active local member, attending to the longer empirical. So it is with farm that wants of the various localities with promptness. The existence of the St. Martin's & Upham Railway is a monument of his energy and perseverance.

Mr. Crawford's with a scientific training. He must be able to understand the Lazaretto on Confederation was transferred to the Dominion Government, which pays \$300 a year to success, unless he is provided with a scientific training. He must be able to understand the processes which go on during the growing of a success, and has always been liberalmonument of his energy and persoverance. Mr. Crawford's triends always found in him a man of high and generous instincts; and his death, in the midst of a career of usefulness, will be greatly regretted, not only by his own constituents, but by a host of personal friends.

—The paper run by Sir Albert Smith, at Moncton, effects to disbelieve Hon. Mr. Hanington's statement that \$2,000 were placed in his hands to stop the Election Petition of 1878, against the knight.

Its pretended incredulity does not surprise us. It is not the Transcript's business to endors any statement made by Mr. Hanington. It is not paid for that sort of work. Sir A. J. Smith did not buy the type, on which it is printed, to admit any fact that might possibly prejudice himself. Probably the coming election petition will afford abundance of evidence of the truth of the statement made.

Nova Scotia Elections.—The election in Antigonish County, on Tuesday, resulted in the return of Mr. Whidden (Lib.-Con.), by about 400 majority over Mr. C. C. Gregory (Grit). In Cape Breton, A. J. White, Attorney General, was reelected by about 500 majority.

The 15th of August, which was chosen last year by the French population of the Maritime Provinces as a thanksgiving-day, was celebrated throughout the Province with marked ceremony.

—The Pacific Railway construction passed on 23rd through Regina, the site of the new capital of the territory, which was duly toasted.

It is not paid for that sort of work. Sir and his neighbors, following in his measure they are generally sourced or fail according as their soil and conditions are similar to his or not. The educated farmer on the other hand can. predict almost exactly the result of an experiment in farming, and his exist and conditions are similar to his or not. The educated in the return of Mr. Whidden (Lib.-Con.), by about 400 majority over Mr. C. C. Gregory (Grit). In Cape Breton, A. J. White, Attorney General, was reelected by about 500 majority.

The War in Egypt. Continued Successes of Wolseley

Engagement at Magjar.

they will find some day when the faithful:—

Some parties here are working hard to have the Cape Tormentine Railroad commenced; the call for the first instalment made some time ago has not made any increase in the treasury funds.

The animus cannot be mistaken. The people generally are not interested; only some persons. Then it is shouted abroad that the people will not pay up. Another evidence of this same partizanship is offered by with 16 guns. My intention was to pivot on my left at the dam we took yesterday, and swing round my right to take the enemy's position in flank and drive them into the fresh water canal, sending the cavalry completely round their registrations. Wolseley that he always fixes a date for departure, for the end of the war, and for his return to London dine with a few agreeable friends. September 15 is the day on which he proposes to exterminate Arabi.

The Board of Governors of pletely round their position to occupy the railway in their rear and if possible capture their engines and rolling stook. This operation was carried out. All the heavy work devolved on the cavaler and artillers. devolved on the cavalry and artillery, which were well handled by Maj. son of Rev. Elias Kierstead, of Gen. Lowe. He attacked the rear control of the anomy when he were the cavalry and a control of the anomy when he were the cavalry and a control of the anomy when he were the cavalry and a control of the anomy when he were the cavalry and a control of the anomy when he were the cavalry and a control of the cavalry and article of the cavalry

Gen. Lowe. He attacked the rest of the enemy, who had a large camp at Mahsameh railway station, which he took, routing the enemy with considerable loss, taking 5 Krupp guns, 75 railroad carriages laden with provisions and a large louantity of ammunition and rifles. arise. In order to be able to farm to the best possible advantage a man should know two classes of facts. In the first place, he should know exactly what materials form all the different soils with which he has to deal. In the second place, he should know what substances build up the different plants he proposes to raise. He should also know the composition of the various fertilizers. Of course, a great many of these things are known emperically by almost every farmer, but, what I wish to say is that they should be known and they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his person
