Intending purchasers will find it to their advantage to give me a call.

W. TURNER.

Powell's Block, Sackville, Sept. 25th.

"Climax Furnace" for Wood.

Is Admitted by All to be the Best Furnace in Every Way that can be Purchased in the Market.

The above Furnace with Radiator is made wholly of heavy cast iron and CANNOT POSSIBLY CRACK BY EXPOSURE TO HEAT.

The Fire Box or Dome, is made in one piece and heavily corrugated; thus giving it great strength and heat radiating surface, and so constructed that the joints cannot leak smoke, which is the great objection to every other Wood Furnace in use. The fire Door is large and will admit of burning all kinds of rough wood, which, with the Check Dampers, controlling the fire, makes the Climax Furnace also the most economical. There being no thin plates or sheet iron used in its construction it will easily

Last for 20 Years Without Repairs.

I am prepared to contract for the heating of buildings at lowest possible rates for good work, and have secured the services of experienced workmen so that I can **Fully Warrant every Furnace to give Complete Satisfaction.**

If your Dealer cannot show you my Climax Furnace write direct to the Sackville Store Foundry for Description and Estimate of cost.

CHARLES FAWCETT.

SACKVILLE FOUNDRY.

Sackville, N. B., September 25th, 1890.

R. S. PRIDHAM, (THE ORIGINAL PRIDHAM.) Artist in Photography.

Studio opposite Brunswick House, Sackville, and Block's Store, Amherst. Until further notice the Sackville Studio will be open for business every day under the management of Mr. Trenholm. Sackville, N. B., Sept. 11th, 1890.

EVERYONE ACKNOWLEDGES NOW THAT TREMAINE'S DRUG STORE AMHERST,

Is by far the Best Place in the Two Counties

Mount Allison Ladies' College AND CONSERVATORY OF MUSIC. SACKVILLE N. B.

THE FALL TERM WILL BEGIN SEPTEMBER 4TH, 1890.

Courses of study, extending from the primary branches through the whole University Curriculum to the degree of B.A., are open to the students of the Ladies' College. Young Ladies wishing to pursue advanced subjects can here enjoy the Lectures of the University Professors, and at the same time have the benefit of the refining influences and social protection afforded by the home life of the Ladies' College.

An important addition has been made to the literary staff by the engagement of a graduate of the Boston School of Oratory, as teacher of Rhetoric and Eloquence. Special facilities are afforded to those wishing to fit themselves for business life by the courses in **SHORTHAND AND TYPE WRITING.**

The Department of Fine Arts is under the direction of a lady who, in addition to extensive experience in teaching has had the advantage of Post Graduate instruction under some of the best masters in Paris.

The erection of the New Conservatory of Music, will afford increased facilities for effective work in the musical department. The thoroughness of the instruction and the high classical standards kept ever before the pupils have given the school an unrivalled position in the public confidence. The Courses of Instruction, which embrace a thorough training in Instrumental Music, (Piano, Organ and Violin), Vocal Culture, Class Singing, Harmony, Counterpoint, Analysis and Composition, are under the direction of teachers eminent in their profession.

Board and Tuition in Primary Branches \$135.00; other branches extra, as per Calendar. For Catalogues or information with regard to rooms, etc., apply to

Rev. B. C. BORDEN, M. A., Principal.

Aug. 26. 11

Special Locals.

Hickey's for pickling Spices.

Around Town.

STONE.—32 cars of stone were shipped to Toronto last month from Sackville.

Rev. D. C. Lawson, will preach in the hall at Westmorland Point, next Sunday the 12th at 2.45 p. m.

METHODIST SERVICE, SUNDAY Oct. 12th.—11 a. m., P. W. Harrison, 7 p. m., O. Gronlund. Upper Sackville 3 p. m., F. W. Harrison.

BASE BALL.—The Mt. Allison nine and a picked nine from the village played on the Acadia grounds on Thursday afternoon last. The former won by a score of 16 to 8.

FIRE AT CHERRYVALE.—On Thursday night the school house on Aboushagan Road at Cherry Vale was burned to the ground. There had been no fire in the building all day and the burning looks like the work of an incendiary.

—Mr. Wood, M. P., was at Port Arthur on Friday en route to Prince Albert. He may extend his trip to the Pacific coast. Mrs. Wood and her sister, Miss Annie Treuman, are visiting their brother, Albert Treuman, Boston. Mr. Wood will join them there on his return from the West.

GAME.—Horatio Nelson Wallace Esq. of the Halifax Banking Co., and Major Maycock of the Royal Engineers, Halifax, were scouring the marshes the past week for snipe. They were quite successful. On Saturday morning, Messrs. Murray and F. McDougall got 25 birds on the D. Sears bog.

PROMENADE CONCERT.—The promenade concert given in Music Hall last Friday evening by the members of the Cornet Band, was listened to by a large audience. The band played several new selections in its usual good style, and the booths presided over by two lady friends of the band, dispersed material for the refreshment of the inner man. About \$80 was cleared for band purposes. There will be no more open air concerts this season.

PERSONALS.—Hon. Senator Dickey returned a few days ago from a trip to British Columbia. He is enthusiastic over the evidences of progress he witnessed in the west. All the towns along the C. P. R. west of Winnipeg are developing with astonishing rapidity. Three years ago when he visited the city of Vancouver, it had only about 60 houses. To-day it has a population of 10,000 people, with many handsome streets, containing specimens of the most substantial architecture. He states that the generally accepted opinion west is that there will be 15,000,000 bushels of wheat for export this year—double that of last.

MR. ALLISON NOTES.—On Saturday last, Prof. Andrews and about fifty of the students of the college and academy went for a geological trip to the Joggins, where the day was spent in collecting fossils of that rich carboniferous formation, and in studying the strata and escarpments in the locality. Other trips to the same places are looked for in the near future. The class is greatly indebted to Mr. W. C. Milner, of the Joggins Ry., for his kindness during the trip.

—On Saturday, a special car took a large number of both male and female students to the ship railway. The works were inspected, and a thoroughly good time enjoyed. At night, the different parties had a big supper to finish the day.

Dr. Smith, of Progress, visited the St. John exhibition in the capacity of judge. He returned on Saturday.

—The attendance is increasing in all the departments.
—It is rumored that the new Conservatory of music is to be opened by a fancy fair some time in December, near Christmas.

—On Friday evening, 17th inst., Prof. Andrews will deliver his inaugural address in Lingley Hall. Prof. Harrison will also make a short address.

—There is some talk of organizing a Rugby foot ball team. The boys are greatly in favor of the idea.

A WATERY GRAVE.—News reached here Tuesday that the schooner Mary Jane, Capt. Clarke, was wrecked on short distance off Cape Jourdain and all hands lost. The Mary Jane was a vessel of about 55 tons register, and was owned by William McNab, of Wallace. She left Pictou on Saturday night or Sunday morning with a cargo of coal for Chatham, and was watered parties to sail past Wallace on Sunday. During the storm of Monday the poor sailors could be seen by persons on the Cape, clinging in despair to the rigging of the vessel; but nothing could be done to help them, and, one by one, they succumbed to the cold and wind, and found watery graves. When the storm had subsided, parties managed to reach the vessel, but there was no trace of any of the men. The bodies of two of the men, one Franklin Seamen, of Wallace, and another, have been washed ashore.

Mr. McNab, the owner, told a Post representative that there was but three men aboard the Mary Jane. Mr. McNab, Mr. Seamen, brother of one of the men found, and Mr. Clarke, brother of the captain, went to the scene of the wreck yesterday.

K. D. C. Worth millions.

Local Matters.

A Ripe strawberry was picked near Moncton on Thursday last.

There were flurries of snow in Moncton and Elgin on Monday.

The Maritime Presbyterian synod is holding its annual at Moncton. Rev. Dr. Hartley, of Amherst, is writing a book about "Secret Societies."

SAMUEL POWERS, of Pugwash, has been fined \$50 and costs for violating the Scott Act.

THOS. HENNESSY and Chipman have been nominated for councillors for the parish of Moncton.

Mr. BROS. has entered suit against the Ship Railway for damages done his property at Fort Lawrence.

Two boys found the body of a child near Amherst, on Thursday last. It had evidently been strangled. There is no clue as to the mother of the child.

DORCHESTER parish exhibition will be held at Memramouc Corner on the 14th inst. There will also be horse racing. Our local sports are preparing for the event.

Two tramps have been arrested in Moncton, charged with attempting to wreck a train on the I. C. R. on the 29th inst. There is a reward of \$200 for the guilty parties.

Mr. W. D. Dimock, agent of the Jamaica exhibition, was in Amherst this week. The Amherst Boot and Shoe Co. and Messrs Rhodes, Curry and Co. will send exhibits of their manufactures.

THERE is a probability of a contest in municipal politics at Amherst. Councillors W. A. Russell and Calixte Gallant, who seek re-election, are to be opposed by Philip F. Boudreau, of Upper Aboushagan.

The late storm was severely felt at Shediac. Several small boats have been wrecked, and a barque loaded with deals for J. L. Black, Sackville grounded and was badly strained. Her cargo will have to be moved before she can be made sea-worthy.

We would direct the attention of those of our readers who desire to buy a first class farm, to the notice of the property of the late Daniel Hamilton, Esq., situated at Shediac. This is one of the finest farms in the province and is a valuable property.

Messrs A. F. Gault and D. Morrice, of Moncton, are preparing the proposed cotton syndicate, were in Moncton last week, and met the directors of the Moncton Cotton Co. in connection with the proposal to sell or lease the mill.

Nearly 200 students are now attending Memramouc college. The upper story of the gymnasium is being converted into a dormitory, which will accommodate 30 to 40 students.

There was never such a number attending college at one time since it was opened.

REV. H. N. S. Starr, Mr. Nichols, of Somerset, was in town yesterday looking for parties to invest spare capital in a little invention he claims to have discovered by which any kind of craft can be propelled in the water. He is a crank, or not? We will await developments.

A MAN named Clancy was before a magistrate on Saturday being charged with committing an indecent assault on a widow woman named McFarlane, formerly a resident of Salisbury. The disclosures were of a rather sensational character, but it is asserted by the friends of the defendant that the case is one of blackmail.

MR. J. McC. Snow is a general insurance agent in Moncton. A few days ago he received the following letter from a Frenchman at the North Shore:—"Mister Snow, I write to let you know I burnt my house last week. I have her insured. Come up and pay me my money. It is not definitely known whether Mr. Snow hired a special train for North Shore when he received the above."

THE schooner Annie Gale, Captain Dolf, which sailed from Shulee a few days ago with a cargo of boards for Vinyard Haven, was dismantled. While at sea and was obliged to put into Gloucester for repairs. The cargo will have to be taken out and a new mast put in. The owners are B. Young & Co., Capt. Wolf, and Dr. Hewson.

THE Record: Councillor A. Wilson, who is doing much to improve the live stock in the eastern part of the county, has been adding to his stables a beautiful bay filly, which he bought from Mr. McLellan, of St. John. The Sun of that city, in referring to the purchase gives the pedigree which shows very fine breeding, viz: Dam Mistleton, by King Alphonso, dam Bombazie by Bonny Scotland.

DENNIS ARNEAU, of Minidie, N. S., while walking near Black Point a few days ago, saw some sticks sticking out of the earth which attracted his attention, and upon digging away the earth, he brought to light two small cannon lying near together, each about 2 ft. 6 in. long, with a bore 1 1/2 inches in diameter. The outside part of the metal had so corroded that it could be cut almost as easily as a lead pencil, which it resembled in color. A piece was broken from one of the guns in taking it from the earth.

Gilmour's Sale.

W. E. Gilmour whose advertisement appears in this issue is conducting a grand cheap sale at Amherst. Music Hall is filled from top to bottom with dry goods of every description, which are being offered at prices to suit everyone. The building is crowded every afternoon and evening and the goods are going off in quick order.

Says the Record: The big sale of dry goods and millinery by Mr. Gilmour, in Music Hall is proving a great source of attraction to customers. The great range of tables and the immense display of goods, handsomely displayed, remind one of the large establishments in our chief cities. With a good staff of salesmen, the sale is a success. The sale of the flesh was torn off but the bone was not injured sufficiently to make amputation necessary. Dr. Thorne dressed the wound.

ACCIDENT.—While coupling cars at the station here on Thursday last brakeman Scott of Moncton had the forefinger of his left hand smashed. The nail and part of the flesh was torn off but the bone was not injured sufficiently to make amputation necessary. Dr. Thorne dressed the wound.

K. D. C. What is it?

Around Town.

LUMBER.—Mr. J. A. McQueen shipped 4 cars of lumber to Shediac this week.

RUNAWAY.—Yesterday afternoon Mr. Geo. E. Ford's delivery team ran away while leaving the Academy grounds.

Besides the breaking of the "whistle-tree" and shafts there was no damage done.

THE EXHIBITION.—All that is wanting to make the Fall Exhibition a success is a fine day. The entries are large and of good quality. Messrs King Bros. of Westmorland Point will have on exhibition the largest pair of cattle ever shown on these grounds. The I. C. R. will issue excursion tickets from all points between Petitcodiac and Amherst for the exhibition.

LIB.-CON. ASSOCIATION.—The annual meeting of the Liberal Conservative Association of the parish of Sackville was held in Powell's Hall on Tuesday evening last, Pres. J. L. Black in the chair. After the transaction of the routine business of the meeting the following delegates were elected to represent the parish at the county convention to be held at Port Elgin, Nov. 4.—Dist. No. 1, W. E. Egan and Peter Hogan; No. 2, Harvey Phinney and John Johnson; No. 3, Ed. Cogswell and H. A. Powell; No. 4, Wm. Ogden and Chas. Fawcett; No. 5, Chas. Harty and Abner Smith; No. 6, George Campbell and John Fawcett; No. 7 David Wheaton and J. M. Hicks.

AMOS ESTABROOK DROWNED.—Last night about 11.30 o'clock another one of the men of the schooner Glengriff, which was then lying at anchor in the harbor off Sand Point, Amos Estabrook about 25 years of age was the unfortunate man. The captain says that Estabrook and one of the crew had been out and got drunk during the evening. They returned to the vessel about 11.30 o'clock and in getting out of the small boat into the water, Estabrook fell overboard and sank from view. His younger brother who was on the vessel immediately jumped overboard to try to rescue him but in vain. He was not able to rise no more. The young man who met his death in this sad manner was unmarried and belonged to Sackville N. B.

FRIDAY, 3rd inst. He was a son of Miles Estabrook of this place.

SHIPPING.—The Herbert arrived at Barbados on the 16th inst.—The Schooner "Unexpected" arrived in port on Saturday last with 60 barrels of apples and 67 barrels of fish from Kentville. The Parlee arrived on Monday with 25 barrels of facings for Mr. Chas. Fawcett from Boston.—Schr. Domo isle arrived in port from New York on Saturday with oil for Mr. Wood & Sons, 100 bbls. J. H. Goodwin 25, J. L. Black 100, J. R. Ayer 50, J. A. McQueen 30, Chapman & Co., Amherst 20, and Geo. E. Ford 15 barrels.—Mr. Bedford Cook has been appointed managing owner of the schooner Endeavour.

ARRIVAL.—"John Black," Potter, at Rio Janeiro Aug 31st, from Rio de Janeiro. On Monday the schooner Parlee cleared for Boston with 25 tons building stone.

Tidnish.

—The ships have mostly all gone out of port.
—Last week being exceedingly fine the farmers commenced digging their potato crop in this vicinity.

—Another Ship Railway accident: On Friday last, a German by the name of McFarlane, formerly a resident of Salisbury, was nearly crushed to death by the falling of a stone, the weight of two or three tons. He is under the medical treatment of Dr. Black and Clay, and they report his case favorable.

—The work on the Ship Railway is not making much rapid progress in summer, owing to the large number of the laboring class who have left the works. A large number of them have directed their attention to the United States, where they find themselves more favorably situated for the winter.

—The large stone and brick building which is being built as the dock by Rhodes, Curry & Co is making good progress.
—Chappel is building an addition to his hotel, and the addition is nearly completed. These two fine looking hotels add much to the appearance of our village. We hope they will add to the moral and social of our village.

J. A. McQueen has built an addition to his store. We understand he is doing a good business.
—We hope Mr. Casey will be much to the convenience of the public.

Capt. Howard from St. John, has been during the summer, managing the steam boat Mary Ann, towing across the Monctonquarry to Rockland, which has for a long time been in a most dangerous state went to pieces last Saturday night, and the crew were all drowned. The ship was on the bridge at the time, though teams had been crossing as usual all day and one team had clearly crossed the bridge when it gave way.

County Valuatorship.

MR. KNAPP GIVES HIS VIEW.

MR. EDITOR As I have not the most remote desire to be the scapegoat for the mistakes others you will allow me space to correct some inaccurate statements in your editorial of the second instant about the Gallagher matter. Mr. George did not decline to act as chairman of the board of valutors until after the displacement of Mr. Gallagher. I was not asked for an opinion, and consequently am in no way responsible for the dismissal of Mr. Gallagher. He had been dismissed for some time before I knew anything about the dismissal, and then it did not come to my knowledge officially but through the newspapers. I was never consulted about the matter until after the rule nisi for quo warranto against Mr. Kay had been taken out, and then I was consulted about resisting the rule, and was associated as counsel with Messrs Blair and Gregory. We did what we could, but will be evident from the report of the case that our only hope was to defeat the rule on technical grounds.

The late Joseph B. Peck, always claimed that he gave no opinion about the matter, pro or con: That the Council desired his opinion but as no officer was made to pay him for looking into the matter he declined to give it. Mr. Wells was not in any way associated with the matter until after the action was brought against the County.

As I am Clerk of the Peace, the Council could have called on me for advice before dismissing Mr. Gallagher, but it did not see it so. Mr. Hamilton and Mr. Emmerson were the lawyers called upon, it is said one because he was a grift the other because he was a tory and the question of dismissal was submitted to them, each acting independent of the other. Mr. Emmerson's opinion was taken and Mr. Hamilton's rejected. Mr. Hamilton when asked what he charged, decided to make his advice gratuitous, and that left him open to be afterwards retained by Mr. Gallagher. As Mr. Hamilton had refused remuneration, Mr. Emmerson had to do likewise and the County has since suffered for taking gratuitous advice from two lawyers.

I have been Clerk of the Peace of the County of Westmorland for thirty years and I am happy to say that the County has never suffered to the amount of "one red" when it has taken my advice and I can show that it has suffered to the amount of thousands of dollars where my advice has not been taken, or where when taken it was not followed.

As time as legal adviser to the Council, and of the officers of the County is nearly up, I don't intend to leave the office with the sins of others clustering around my head. Yours &c.

CHAS. E. KNAPP.

Southampton.

—Along this river there was frost on the 13th of June and on the 3rd of September giving an interval of two months and twenty days for the development of the more tender plants.
—Among the startling events that have lately been sprung on this community, was the advent of twin daughters to the home of Humphrey Adams. With equal surprise was hailed the announcement that Dr. Treuman had gone after a bride. Both couples are subjects for congratulations. In this new era of our popular physician's life, he will receive the hearty good wishes of his many friends.

—A very sad event occurred here last week, when F. Lewis's child of two and a half years was seized with a sudden illness and died in a few hours. Mr. Lewis was at the exhibition at the time, having left the family in good health, to return and find his baby a corpse.

—It is significant that the large and representative body as the Methodist General conference, lately convened at Montreal, should have passed a resolution which, while it enthusiastically endorses prohibition, quite as emphatically puts a veto on the Third Party. This, emanating from such a source, must be a greater setback than any that the party has been made the victim to since its birth. For even its most devoted supporters will admit that among that learned body of ministers and educators, there is as strong a temperance spirit prevailing as that which even pervades even the Voice office.

Dorchester.

—Mr. B. B. Teed, student-at-law in the office of Hamilton Teed Hewson & Hamilton, has gone to Fredericton to pass his final examination for admission as an attorney.

—Messrs. Amos Harris Sr. and Wm. Foran, who were in the employ of S. McQueen before the removal of the latter to Springfield, have opened a shop in the building once fitted up as a store by Mr. Dobson, where they are also prepared to manufacture every description of footwear and also do general repairing, &c.

—The highway bridge across the Monctonquarry river at Rockland, which has for a long time been in a most dangerous state went to pieces last Saturday night, and the crew were all drowned. The ship was on the bridge at the time, though teams had been crossing as usual all day and one team had clearly crossed the bridge when it gave way.

BORN.

ADAMS.—At Southampton, on Oct. 1st, to the wife of HUMPHREY ADAMS, twin daughters.

SEARS.—At Sackville, Tuesday Oct. 7th to the wife of ORIEL SEARS a son.
