THE SHERIFF AND THE POSTAL AUTHORI-TIES.

There has been no little excitement dressed to a Mr. Leslie, of Shippegan, to satisfy the demands of a Writ and Execution issued against him. From what your correspondent can learn after careful personal enquiry, it appears that the first document placed in the hands of the entirely at variance with the facts, for Sheriff against Leslie was a bailable your correspondent has learned that gan, but met Leslie in Caraquet, arrested him there, and made three propositions to his prisoner-either to give bail, make to his prisoner—either to give bail, make deposit, or go to jail. As Leslie was where, having shown herself to be an

away from his home he could not very well get bail, and as he did not desire to take County lodgings, offered as deposit is anxiously awaited, but as there is only a signt draft on Davidson & Creighton, of Halifax, and these parties, on being wired, replied that they would accept at sixty days. The Sheriff took the draft. had it cashed. but as Davidson & Creighton afterwards refused to accept, the DEAR ADVOCATE.

draft was worthless, and the Sheriff had to protest it. The Sheriff had endorsed the draft to Narcisse A. Landry, Barrister when the weather is cold and rough, as when the weather is cold and rough, as it has been during the week now almost on the draft by his brother, P. A. Landry, another barrister, and with this writ he plaintiff, N. A. Landry, accompanying him. The Sheriff had also an execution (under which he seized the letter) said by Johnson & Murray.

While the Sheriff and his companion were on their way down they obtained on its way to Shippegan, which letter it was determined upon to intercept, if possible. They proceeded to the Post tions of Mrs. Hammond, who had in the meanwhile adroitly secreted the letter. Failing in their search, they left, but returned the next morning, asked for ad-

mainter being distributed as follows: 8 to France, 7 to Africa, 4 to Spain, 3 to the United States. As compared with the season of 1882, the shipments for 1883 show an increase of 13 vessels, 15,927 tons, 9,634,000 s. f. deals, batters

tons, 9,634,000 s. f. deals, battens and ends, 1,000,000 s. f. boards and scantling. In palings and timber there was a slight decrease. Statements of lumber shipments Statements of lumber shipments
from other Northern ports will appear
shortly.more promptly in the matter, the facts
being notorious. The warmest friends
of the Sheriff cannot certainly expect
that he will be allowed to retain office
after such a display of ignorance and
lawlessness. Such a course would not
be productive of good, establishing as it
would a precedent for the encourage-
ment of some ignorant and hot-headed
official who might think that he could,interest facts
the entire satisfaction of Mr. Wm.
Walsh, the Government Inspector, and
Mr. G. A. Brown, of Portlaud, St. John,
the engineer in charge. This breakwater
cost between three and four thousand
dollars. The writer, having witnessed
the good effects of the breakwater during
the recent storm, fully concurs in the
opinion that the extension of the work
