GEORGE CONROY,

Canadian Northwest LEAD.

WE have procured a car-load of prime No. 1 Hard Red Fife Seed Wheat from Pense Station, 100 miles west of Regina, Assinibola. This Wheat has been selected with great care, and is, without doubt, the best ever brought into the Maritime Provinces. It is a well-known fact that the further morth any cereal grows the better the quality becomes. The conditions in the Canadian Northwest seem to be such as to produce the finest Wheat in the world. We do not expect that this Wheat when sown here will maintain its hardness and be as good as the crismal seed, but we think that the crop will have considerable of the seed, making it better for milling than any yet grown in this Province.

We hope that the farmers will ese fit to give us such patronage for this Wheat this year as will warrent us in importing largely from the Northwest in coming seasons, not only Red Fife but White Fife and White Russian as well.

Our present appared will be a side at a second of the seed. THEY HAVE THE BEST MATERIAL well.

Our present supply will be sold at an advance of some 55 cents per bag over our selling price for Ontario Seed, and is for sale at our Seed Store, and by our Agents in the chief business centres of the Island.

Each bag is marked "No. 1 Hard Red Fife Wheat, from the Cauadian Northwest," THE MOST IMPROVEMENTS!
