

GODERICH.

A SUMMER RESORT.

Its Claims Upon a Public Seeking Coolness and Health.

The Prettiest Town in Canada.

Its Beauty and Advantages Described—A Place Bled by Nature—A Town Where Mud is Unknown.

As we were unable to supply the demand for copies of last week's issue, we have been compelled to reproduce the following article on Goderich as a summer resort:

Beautiful for situation, clean and inviting, Goderich has already made a name for itself on the continent as a choice spot where residents of crowded cities can resort to in the warm months, and find pure, bracing air, with all the comforts of civilization at hand. To those leaving the stifling city for

A BREATH OF GOD'S PURE AIR during the summer months, two considerations present themselves:—1st, is the locality chosen for the transient stay during the "broiling term" a healthy one? and 2nd, does it entail too heavy a drain on the family purse? It is on these points that Goderich presents claims that will bear the closest scrutiny. A more healthy locality does not exist on the continent of America. Situated at a height of from 100 to 150 feet above the level of the waters of Huron,

THE TOWN IS NATURALLY DRAINED into that great lake, and a capital system of drainage introduced and practiced by the municipal authorities aids in the thorough exemption of the town from the noxious vapors or miasma which at other less favored points are continually arising during the heated term from standing water on low land. As to the matter of

COST OF LIVING, Goderich offers a good field to those who would enjoy a vacation without having to pay too lavishly for their rest, comfort or pleasure. A town of over 4,000 inhabitants, it keeps one within the lines of civilization and the luxuries of life; yet, being on the borders of a fair agricultural district, those of pastoral tastes can find near at hand

FIELDS OF WAVY GRAIN, green pastures of tender grass over which the skipping lambs gambol innocently, running brooks inhabited by the finny tribe, and all the sights of a Canadian farm; while the

DEEPLY SHADED FORESTS of maple, beech and pine, haunted by the singing birds above and the many colored wild flowers beneath, offer a seclusion cool and full of interest to lovers of nature. The choice cattle bred in this section, feeding knee deep in clover and timothy, yield

RICH, PURE AND CREAMY MILK, which is like a revelation to those who have tasted only city milk during their lives. A walk or drive to a farm, along clean and even roads, and a report of home-made bread, fresh dairy milk, golden butter with the scent of clover in it, and eggs so newly laid that the cackle of the hen can yet be heard in the barn yard, is a treat which can be procured at a price so low as to astonish visitors.

THE FRUIT FARMS in the neighborhood are often visited by strangers. Here the highly prized Canadian apples and plums grow at their best, while the blushing peach comes to maturity, and the cherry and strawberry flourish. The wild strawberry also abounds in season. Canada is

THE HOME OF THE RASPBERRY, and hundreds of acres are scattered through the district, where the bushes, growing luxuriantly wild, show themselves to the annual with their ruddy fruit. Scores of pickers went their way daily during the season, to these resorts, and a rambler in a Canadian "berry patch" with an old dress, sun-down hat and strong boots, is just the thing a boy of girls from the city ought to enjoy. There need not be the slightest fear of a lady experiencing anything but the most careful treatment from rich and poor. We know of no region where a lady and a stranger can travel more safely without escort than in this neighborhood.

THE TOWN OF GODERICH, is one of the most beautiful in Ontario. The court house, a handsome and substantial bit of architecture, embowered in trees, is situated in the midst of a large octagonal square, from which the leading streets radiate in every direction. These streets are crossed by other streets after the manner of

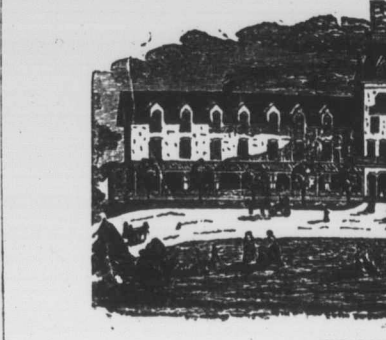

A "CIDER" WEB, and the plan is a novel and pleasing one. The drive around the Court House is about a third of a mile in length and the ground is as level as a race course. The streets are very wide, if the clouds travel no more accumulating overhead than the heaviest rain, and some of them are lined with handsome mansions, making a vista looking toward the Court House which it would be difficult to excel from an artist's standpoint. The dry, level roads, as hard as rock almost, are much appreciated by bicyclists; so much so that Goderich has justly been termed

"THE WHEELMAN'S PARADISE." Early in July the bicycle clubs of Chicago, Milwaukee, Detroit and other American cities are expected in town, and experience tells us that the wheelmen have already been heard to say that the visitors will be astonished and delighted when they glide "around the square" on our wonderful roads, and that they will find them ahead of anything on the entire route.

GODERICH BY RAIL.

Goderich is reached by the Buffalo & Lake Huron Railway from Stratford, the railway centre of Western Ontario, only 45 miles distant, and that line is intersected by the L. H. & B. Railway, which gives direct connection with London from Clinton, only 12 miles distant. Approaching Goderich by rail, the visitor is favored with a glimpse of the shining waters of Lake Huron as the train speeds around the curve; the cars then plunge through a dense grove, and soon the traveller finds himself at the railway terminus. The view of the

HIGH BANKS OF THE MATTAPAN from the railway station is picturesque, particularly a snug little bit of scenery up the river. Entering a vehicle, the visitor is whirled along East street, and sees before him the Court House and square, with business stands ranged all around on the outer side of the broad roadway. If he is not looked for

THE POINT FARM, a popular summer hotel five miles up the lake shore road, capable of accommodating 200 guests, and conducted by the well-known J. J. Wright, whose name is a household word with visitors to Goderich, then the traveller can find in town a number of excellent hotels, conducted by capable and obliging men, and affording the best of accommodation at very reasonable rates.

THE BRITISH EXCHANGE HOTEL is a well-known house of accommodation for tourists and the general public. It is commodious and well kept in every particular, and under the superintendence of the present proprietor, Capt. Wm. Cox, it has during the past twelve or fourteen years attained a continental reputation. It is situated on Court House Square.

THE ALBION HOTEL is situated on the Court House Square, in the heart of the town, and within easy reach of Lake Huron, and the railway station. It is fitted up with all the modern conveniences and every accommodation can be furnished that is possible to be obtained at city hotels. The proprietor, Mr. John McBride, has gained for himself during his residence in Goderich, a reputation as one of the most energetic and active men in the hotel business in Huron county.

THE PARK HOUSE is another well-known rendezvous for summer visitors.

GODERICH BY WATER. The town possesses a splendid harbor of refuge, built by the Dominion Government at a large expense. The biggest vessels on the lake can enter it easily, and the well-known Beatty Line call twice and three times a week from Sarnia, and also from Duinich on the down trip. It is easy for visitors who like an occasional trip on a lake steamer, to go up the Lakes to some points on an open steamer, and return on the first boat coming down the lakes.

BOATING ON THE HARBOR is safe at all times, while in fine weather a long row out into the open lake or up to the Point Farm is possible, and the view thus gained of the precipitous banks skirted by spruce, and the spires of the town churches glinting in the distance, well repays the labor at the oar.

THE TOWN PARK is always open to the public, and from it a commanding view of the harbor is had. Just below, the green, thriving mill of Ogilvie, Hutchinson & Co. lifts its tall chimney in the air, and here the dusty millers, a large and busy lot of them, are engaged often day and night for many weeks at a time. The engine is one of the largest in Canada, and the entire premises are in the hands of an order and neatness as remarkable as the establishment of its size and nature suggests. This monster mill is one of the sights of Western Ontario. Just across the river from the harbor, on the summit of the nearly terraced bank, is the

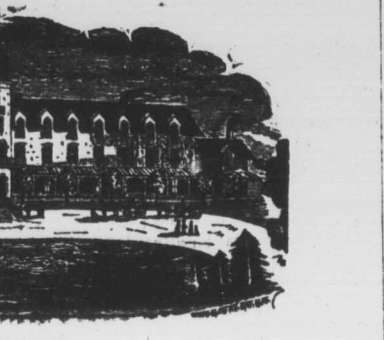

JORDAN'S LOCK, and grounds of some of our citizens have been planned with taste, and many of the gardens are just alive with bloom during the season.

MATTAPAN CEMETERY. The site of the city of the dead was selected with wisdom and taste some 24 years ago. It is situated about a mile and a half from the Court House, on high ground, and the main approach winds completely around it, flanked by a dense growth of brush. The wild strawberry creeps over the earth profusely, and the whole aspect is one of peace and beauty. A spring of the purest water, and of almost Arctic coldness, gushes from the hillside facing the cemetery, and flows in a gurgling stream down a long ravine to the river bed. In the cemetery are a number of handsome monuments and beautifully kept graves. The drive to and through the cemetery is a pretty one, and many of our citizens

THE FISHING FLEET.

is a feature of the place of great interest to visitors. The boats, some of them with the speed of yachts, leave the harbor early each morning, and return at night laden with the spoils of the deep. Salmon trout and whitefish are chiefly caught, in nets, and a trip to the fishing grounds in company with a fishing crew is an experience which is full of interest. This industry is an important one in Goderich, and the boats scudding along under full sail for the harbor as the sun dips into the west is a pretty sight. Later in the season the fishermen sail further north to other fishing grounds, and a staunch tug conveys the "catch" to Goderich for the American market.

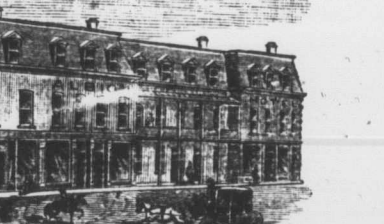

THE SALT INTEREST. The manufacture of salt is extensively carried on at this place, and the process is peculiarly interesting one. The brine is pumped through large pipes at

a depth of from 900 to 1200 feet, into large pans, under which great furnaces have been built, and by boiling, the saline matter is precipitated to the bottom, forming the famous Goderich salt. From the drippings of the pans, some exquisitely beautiful saline crystals are often created, whose form and purity of appearance render them valuable as novel parlor ornaments.

SALINE BATHS. This is a feature that no other Canadian summer resort can boast of. The brine is said to be of much benefit as a summer bath, and can be had hot or cold as the visitor desires. There is also a swimming bath, where old and young can have all the luxury of an ocean dip without the travel or expense.

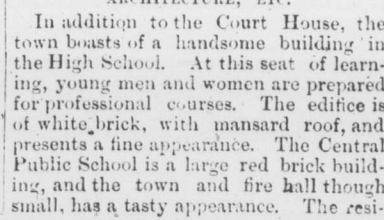

MINERAL WATER. A mineral spring, the water of which

contains some valuable forms of iron and sulphur, has been regarded as a great boon by invalid visitors. Medical men have pronounced in favor of the spring waters as an excellent mild tonic and aperient, and many of the residents of the town prefer it to the drastic doses of the doctor. The water can be procured free at the spring.

THE CHURCHES. There are six churches in town. St. George's (Episcopalian) on North-st., recently completed, is a beautiful structure, cruciform, and planned and built with exquisite taste. The Methodist Church of Canada have a large edifice, on North street also, and at the head of the same street is the R. C. church and convent. The Presbyterians worship in a large church on East street, and have just put in a handsome organ of wonderfully pure tone. The Gaelic speaking Presbyterians have also a church on Nelson street. A very pretty edifice is that of the M. E. church, on Victoria street. There is also a gathering of the Brethren, held in an upper room on the corner of the square and Kingston street.

ARCHITECTURE, ETC. In addition to the Court House, the town boasts of a handsome building in the High School. At this seat of learning, young men and women are prepared for professional courses. The edifice is of white brick, with mansard roof, and presents a fine appearance. The Central Public School is a large red brick building, and the town and fire hall though small, has a tasty appearance. The resi-

dences and grounds of some of our citizens have been planned with taste, and many of the gardens are just alive with bloom during the season.

What are the desirable qualities in a whisker dye? It must be convenient to use, easy to apply, impossible to rub off, elegant in appearance, and cheap in price. Buckingham's Dye for the Whiskers unites in itself all these merits. Try it.

PHTHISIS, instead of being purely a local disease of the lung, as is commonly believed, must be treated as a general constitutional malady, the result of impoverishment from a failure of nutrition. Oceans and tissues are impaired by chronic disease, and the disease is the first to give way, and we have the poverty of blood showing itself in consumption of the spine, hip, knee and bowels, as well as the lungs. The cure consists essentially in an insufficient supply of the food materials for tissue construction and the generation of nerve force. WHEELER'S Phosphate of Calcium shows the best record yet attained in benefiting and curing this disease.

during the summer months can be found decorating the graves of friends who rest in that beautiful and retired necropolis. TIC-NICS, ETC.

Beautiful spots for pic-nics are within easy reach, a delightful retreat known as Bingham's Grove being within the town limits.

In short, Goderich is par excellence the summer resort of Ontario.

North Huron Teachers.

The regular semi-annual meeting of the North Huron Teachers' Association was held in Wingham Central School, last Thursday and Friday. The unfavorable weather militated against the usually large turnout of teachers. Mr. Boyle, of the Canada Publishing Company, was heard in reference to the Royal Canadian series of readers, now before the country for approval by the Minister of Education.

In the afternoon the president's address on "The utility of Teachers' Associations," brought forth a well-deserved vote of thanks. Mr. J. J. Wallis, of Grey, gave his "Characters of the school room," pointing out the different phases of character which the teacher has to encounter in the course of his professional career, and stating his method of dealing with them.

Mr. Musgrave, of Bluevale, gave an "Introductory lesson on Fractions," showing the errors teachers commonly fall into in taking up this subject and showing how those may be avoided.

Mr. W. E. Groves, Wingham, gave a "Lesson on Composition" to a second class, showing how this difficult subject may be taken up profitably with even so elementary a form.

Mr. W. H. Stewart, Howick, read an essay on "Taste," giving his own experience in interesting pupils in making the grounds around the school trim and tidy. A short discussion followed in reference to the library, after which the meeting adjourned for the day. The evening entertainment in the town hall was an unprecedented success, both as regards numbers in attendance and as to the quality of the selection.

SECOND DAY. Rev. Mr. Morrison, Wingham, was first called upon and gave a very interesting address on "Habit," which drew forth a vote of thanks from Mr. Dewar, I. P. S.

Mr. Turnbull, head master, Clinton High School, discussed the special Grammar paper of the Intermediate, December, 1882, in that gentleman's usual scholarly style.

Miss Forrest, Seaford, read an essay on the "Cultivation of taste in pupils" touching upon literature in schools, cleanliness in person and dress, tidiness in grounds, &c. This was one of the best articles of the meeting.

Mr. A. McKay, Cranbrook, took the subject of "Sentence Building" in a highly rational and very pleasing manner.

Mr. J. Ferguson, Wingham, showed the method of instructing pupils in teaching writing in the Wingham schools. From the close attention paid this, it was quite evident that the subject was one of great interest.

The committee on books brought a report commending the "Royal Canadian Series of Readers" in preference to any now before the public.

The committee on nominations also presented their report, which was adopted as follows:—President, J. Turnbull, Esq., Clinton. Vice President, A. H. Musgrove, Esq., Bluevale. Secy-Treas., W. E. Groves, Wingham. Executive Committee, Messrs. B. Henderson, W. G. Reid, Morris, Ferguson, Wingham; J. Shaw, Brussels; W. G. Duff, Roxboro. A vote of thanks was then passed to those who so kindly assisted in the evening entertainment. The meeting then adjourned.

Mr. Wm. Payne, Station Master C. V. R., Sheldon, was cured of Dyspepsia by Dr. Carson's Stomach Bitters when all other remedies failed. I have recommended it to lots of railway men and they all think highly of it. If you suffer from Dyspepsia go to your Druggist and get a bottle.

SKILL IN THE WORKSHOP.—To do good work the mechanic must have good health. If long hours of confinement in close rooms have enfeebled his hand or dimmed his sight, let him at once, and before some organic trouble appears, take plenty of Hop Bitters. His system will be rejuvenated, his nerves strengthened, his sight become clear, and the whole constitution be built up to a higher working condition.

Women with pale colorless faces who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

The Quickest Thing on Record. Is Kraus' Fluid Lightning for Neuralgia, Headache, Toothache, etc. It does not blister or discolor the skin; requires but one application to banish all pain magically without using any greasy liniment or carrying your head in a poultice for weeks. Try a 25 cent bottle from Geo. Rhynas, druggist.

WILSON'S Prescription Drug Store. SEEDS! Fresh Flower and Garden Seeds in Bulk or Packages. DIAMOND DYES. BEST IN THE WORLD. 100 PER. PACKAGE.

ALLAN LINE OF ROYAL MAIL STEAMSHIPS LIVERPOOL-LONDON-BERRY-GLASGOW Every Saturday From Quebec. SHORTEST SEA PASSAGE. SPEED, COMFORT AND SAFETY.

Summer Arrangement. SEASON 1883. Table listing shipping schedules for various routes including Polynesian, Peruvian, Sarmatian, and others.

McCull Bros. & Co., Toronto. Manufacturers and Wholesale Dealers in LARDINE.

CYLINDER, BOLT CUTTING, WOOL OILS. "OUR CELEBRATED" "LARDINE" brand is unexcelled by any other oil on the market.

All the Highest Prizes! Gold, Silver & Bronze Medals. R. W. McKenzie, 1886, Goderich.

AYER'S PILLS. A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver.

GUARANTEE—Every bottle of the "FOUNTAIN OF HEALTH" bears the written guarantee of the proprietors—all that is recommended to do it must be accomplished, or the money will be refunded.

The Lumberman's Friend. S. F. Parks, Ottawa, Ont., a large lumber operator, says: "I have been acquainted with Dr. Dow's Sturgeon Oil Liniment for a number of years, and in that time can safely say, from personal experience and from my own people's repeated testimony, that it is the very best Horse Liniment in use to-day."

Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. ALL experience the wonderful beneficial effects of Ayer's Sarsaparilla.

Salt Rheum Cured. Are you troubled with Salt Rheum, Rough Skin, Pimples or Canker Sores; if so go at once to G. Rhynas' drug store and get a package of McCreagor & Park's Carbolic Cerate. Price 25 cents. It was never known to fail.

The Cash Store. G. H. OLD. YOU CAN GET 12 lbs. Raisins, for \$1.00. London Layer Raisins, per box, 2.00. 25 lbs. Rice, for 1.00. 25 lbs. Barley, for 1.00. 5 lbs. White Belgian Carrot Seed, 1.00. 5 lbs. Mangold Seed, all kinds, 1.00. 6 lbs. Swede Turnip Seed, 1.00.

Sugars Very Cheap. Groceries is Fresh and Good! Canned Goods. Of all kinds at Bottom Prices. A very large stock of Glassware and

GLASS SETS from 50c. up to \$2.00. China Sets! from \$5.00 up to \$20.00. DINNER SETS from \$10.00 up to \$30.00.

Teas a Specialty. INSPECTION INVITED. G. H. OLD, the Grocer, Market St., Goderich.

ROW FOOT. A Sure Cure for all affections of the Liver, Stomach & Blood, Liver & Biliousness, Headache, Pimples, Skin Scarcules, &c. A single Package will convince the most skeptical.

TESTIMONIALS. Collingwood, Ont.—The Crowfoot Bitters I took cured me of Sick Headache, after twenty years of suffering without being able to find relief. Mrs. J. HOLLAND.

THEY ALL KEEP IT! May 17th, 1883. 1891-6m. EGYPTIAN OIL.

The Great Pain Conqueror. rapidly dispels pain. A teaspoonful in water will cure a distracting head ache in five minutes. If applied to any affected surface of the body, as tooth ache, neuralgia, rheumatism, &c., it gives the sufferer comfort and instant relief. It is a charming remedy. Only 25c, and money refunded if not so relieved.

W. J. C. Naftel, Druggist, etc., Agent for Goderich. 320 ACRES FREE! Devil's Lake, Turtle Mountain and Mouse River Country, NORTH DAKOTA.

ST. PAUL, MINNEAPOLIS & MANITOBA R. R. S. SLOANE. Has on hand a large quantity of

WESTERN CORN For sowing broadcast; also a lot of Canadian Corn. GIVE HIM A CALL. Goderich, May 17th, 1883.

Vertical text on the far right edge of the page, including names like Mrs. Tom, Mrs. Tom, Mrs. Tom, and other fragments of text.
