WASHINGTON, June 12.
 Reciprocity will go through the Sen-
 ate said Senator Lodge of Massa-
 chusetts at the White House to-day.
 Whether Senator Root's amendment
 goes through is not so material. Even
 if it does, the agreement will be just
 as effective. Lodge said that he had
 abandoned the idea of offering an
 amendment for the protection of the
 fishermen.

LONDON, June 12.
 Experts on behalf of large British
 Railroads have reported favourably
 upon the invention of a safety appli-
 ance which is a modification of the
 logic principle invention, and prac-
 tically makes the derailment of trains,
 while rounding curves, an impossi-
 bility, thus allowing increased speed,
 which will enable trains to make the
 run of 185 miles between London and
 Manchester in 2 hours.

PARIS, June 12.
 Official confirmation is given to the
 statement, published here, that France
 has notified the Powers, that were
 signatories to the Algeiras Treaty,
 that she has informed Spain she can-
 not approve of the Spanish occupa-
 tion of the El Araish territory in
 Morocco. For the moment, France
 will treat with Spain.

NEW YORK, June 12.

Give The Children Plenty of Good Bread

good home made bread—made of "BEAVER" FLOUR. It means vigor, bone and muscle to your growing children, because it is a perfectly balanced food. And it is the least expensive food you can put on the table.

"BEAVER" FLOUR is a scientific blend of the best Western Spring Wheat and Ontario Fall Wheat. It is as good for pastry as for Bread, and best for both. Your grocer has it.

Coronation Concert.

Last Evening's Meeting — Citizens
 Asked to Illuminate.

The Coronation Committee met
 again last evening in the Judges'
 Chambers, His Lordship Chief Justice
 Horwood occupying the chair. All
 the unfinished business standing over
 from the previous meeting was dis-
 posed of, satisfactory reports were
 received from the sub-committees,
 and arrangements generally pretty
 well finalized.

Letters of acceptance, from the
 ladies and gentlemen, invited to sing
 solos, and from the four Brigade
 Bands, were received and read by the
 Secretary, who informed the Commit-
 tee that he had, as requested, written
 Lieut.-Commander Atlay, of H. M. S.
 "Calyso" intimating to him the
 pleasure it would afford them to have
 some of his men to assist in decorat-
 ing the interior of the Rink. No re-
 ply had yet been received from the
 Commander, as he was out of town;
 but the Committee had the indirect as-
 surance that he would be glad to com-
 ply with their request.

The "great big building" will be
 brilliantly lit and beautifully decorat-
 ed with evergreens, flags of the
 Empire, red, white and blue bunting
 and Chinese lanterns, the latter en-
 closing electric bulbs, so as to obviate
 all risk of fire and make the thous-
 ands of people assembled there feel
 perfectly safe.

On the immense platform, which
 has a frontage of about forty feet, will
 be rows of seats, one above the other,
 to accommodate the singers, while
 the comfort and convenience of the
 players will be equally well provided
 for by the Rink Committee—Messrs.
 Bennett, Slattery, Howley and Barter.

His Excellency the Governor and
 suite, the officers of the warships in
 port, the Judges of the Supreme
 Court, members of the Executive Gov-
 ernment, representative prelates and
 clergymen of the different religious
 denominations, and other distinguished
 guests of the Committee will oc-
 cupy seats in the galleries. As many
 of these will appear in uniform or
 court dress, and as the ladies will be
 elegantly attired — with the back
 ground arranged so as to produce the
 best possible effect—the view from
 the auditorium will be a brilliant and
 imposing one.

To add to the general interest, hand-
 somely printed programmes, such as
 would likely be preserved by those
 present as souvenirs of the Corona-
 tion, will be freely distributed among
 the audience, and in sufficient num-
 bers to enable every one to obtain a
 copy. Other pleasing features of the
 event will be announced after the next
 Committee meeting, when, it is hoped,
 the work of preparation will be fin-
 ished.

Before the meeting closed, the Com-
 mittee unanimously decided to "light
 up" their residences on the nights of
 the Coronation festivities, and ask
 their fellow-citizens to do the same.
 Most of us still remember the splendid
 effect of the general illumination here
 in 1901, when their Majesties, as the
 Duke and Duchess of Cornwall and
 York, visited Newfoundland and Bri-
 tain's other Dominions beyond the
 Seas.

Hints to Householders
 PROFESSOR HENRY ADAMS in
 his Presidential Address to the Insti-
 tute of Sanitary Engineers early in
 1908, said:—"Gas fires for heating are
 already widely adopted for offices,
 consulting rooms where a fire may be
 required at short notice. I have had
 nothing else in my office for the last
 thirty years and do not find any of
 the ill effects that have been ascribed
 to them."

Gas fires are universally used by
 medical men in London, and they re-
 commend them for use in the homes
 of their patients.
 The Coal Smoke Abatement Society,
 among whose members are many men
 of high scientific and artistic attain-
 ment, are strong advocates of the use
 of gas for heating. The Society car-
 ried out a most elaborate series of
 tests with gas fires, etc., in May and
 June, 1906.

Woman Attacked.
 Sunday night at 10.30 a woman who
 resides on Scott Street, in coming
 from the home of a friend, was at-
 tacked and insulted by two scamps
 whom she first met opposite Mrs. Mit-
 chell's, Queen's Road. As she passed
 them they jostled against her, and
 when she remonstrated they laughed
 and passed swiftly on. The night was
 wet and the street was deserted, and
 as she went along near Victoria Street
 the same brutal tactics were adopted
 and the woman became greatly fright-
 ened. She ran and they pursued her
 and on Harvey Road, near the Par-
 ade Rink, they attempted to detain
 her, when seeing a man coming along
 they ran away. Both were respect-
 ably dressed but would be known by
 the lady if she saw them again. It is
 a pity such a trace of scoundrelism
 could not be rounded up and given
 the punishment they so justly deserve.

Infant Died on Intercolonial Train.

Coroner Decides an Inquest Unneces-
 sary.

The death of an infant a few months
 old took place under particularly pa-
 thetic circumstances on the Halifax
 express, which arrived in the city
 early this morning. The child, whose
 name was Peter Cahill, was put to
 sleep by his mother on the train
 Thursday night. Everything was
 thought to be well with the child, but
 later he became quite weak, and when
 the train was in the vicinity of Roth-
 easy the young child quietly passed
 away. Coroner Berryman met the
 train on its arrival in the city, and
 after examining the little body, decid-
 ed an inquest was unnecessary. The
 mother was travelling from New-
 foundland with her three children to
 join her husband in Cambridge, Mass.
 The little boy who died this morning
 was a twin, whose little mate died
 under similar circumstances only two
 weeks ago. Mrs. Cahill was much
 grieved over the sad affair. The re-
 mains were placed in the waiting
 room and were later removed to
 Chamberlain's undertaking rooms.—

700 Pound Halibut.

Largest Ever Brought to Billings-
 gate.

The largest halibut on record was
 landed at Billingsgate Market yester-
 day. It weighed 700 lbs., or nearly
 a third of a ton, and was part of a
 catch of 100 tons of fish from the
 White Sea, North Russia, landed by
 the trawler Macfarlane, of Hull.

The mammoth fish was brought
 from the trawler into the market on
 planks borne on the shoulders of six
 porters. It was offered for sale by
 auction by Messrs. Peter Forge, but
 such is the glut of fish just now that
 it only realised £2 5s., or just over
 three farthings per lb. It was pur-
 chased by Mr. Taylor, fishmonger, of
 Watney Street, Stepney.

"A fish of this enormous size," said
 Mr. Forge, a member of the firm of
 salesmen, "is quite as palatable and
 nutritious as any of smaller size. The
 travelling of the White Sea has been
 successful. There are now fifty ves-
 sels going to and fro, and their car-
 goes have had a very material effect
 upon the prices of fish in London.
 The Russian Government, however,
 has recently shown a disposition to
 shut out the English trawlers by im-
 posing a 12-mile fishing limit.—Daily
 Mail, May 27.

Mechanics Meeting.

The Mechanics Society held a meet-
 ing in their hall last night with a
 large number of the members pres-
 ent. President John P. Scott occu-
 pied the chair. It was decided to de-
 corate the hall for Coronation Week,
 and a committee was appointed to
 arrange for this. A good deal of
 other business was transacted.

The Stomach Needs Help

The liver, kidneys and bowels must
 be kept active with **DR. CHASE'S
 KIDNEY-LIVER PILLS.**

The liver and kidneys are over-
 worked in their efforts to remove the
 poisonous waste matter from the sys-
 tem. They fail and become torpid
 and clogged. The bowels become
 constipated and stomach derange-
 ments follow.

There is one medicine which will
 overcome this condition more cer-
 tainly and more quickly than any
 other, and this is Dr. Chase's Kid-
 ney-Liver Pills.

This medicine gets the bowels in
 action at once and by awakening the
 liver and kidneys ensures the thor-
 ough cleansing of the filtering and
 excretory systems.

With the poisonous obstructions re-
 moved, the digestive system resumes
 its healthful condition, appetite im-
 proves, pains and aches disappear as
 well as irritability and depression.
 You cannot imagine a more satis-
 factory treatment. One pill a dose.

C.E.I. and B.I.S. Draw.

Last night the first draw in the
 League series of football matches
 occurred when the C. E. I. and B. I.
 S. teams met on St. George's Field.
 The weather was intensely cold, a
 gale of northerly wind blew, and very
 few spectators turned up to witness
 the match. The teams lined up:—

B. I. S.—Clinton, goal; Cantwell,
 Stapleton, backs; Duggan, Vincombe,
 Kavanagh, half backs; Duffy, Evans,
 Murphy, Campbell, Doyle, forwards.
 C. E. I.—Hayter, goal; C. Hunt,
 Hussey, backs; Stuck, Oliver, Halbert,
 half backs; Harris, Smith, Godden,
 Drover, James, forwards.

Winning the toss the C. E. I. played
 the western goal, and at the start
 the B. I. S. made a rush up field, the
 C. E. I. retailed by getting the ball
 down on Irish territory. Harris shot
 but kicked the ball which went over
 the goal posts; later the Irish went
 in on their opponents' ground but
 Hayter saved well. Both teams time
 and again had a look in at the others
 goal, but the high wind prevented
 straight shooting, and when the teams
 crossed no scoring had occurred.

SECOND HALF.

When the ball was kicked off the B.
 I. S. rushed matters, but soon both
 teams lost the vim which had charac-
 terized their previous efforts and play
 became very slow. The Irish now
 made several attempts at scoring but
 the C. E. I.'s defended well and the
 game closed with the result a draw,
 neither team having scored.

Straits Report.

The S. S. Home, Capt. Kean, reach-
 ed Bay of Islands yesterday from the
 Straits, having gone as far North as
 York Point. Capt. Kean sent the fol-
 lowing message to the Reid Nfd.
 Co.:—

"Reached as far north as York
 Point, jam of ice from there north
 and impossible to proceed further.
 Experienced a continuance of N.
 E. winds since last Thursday; be-
 lieve Straits is blocked with ice.
 There is a fair sign of fish with
 jiggers at Bonne Esperance and
 Sablon."

Prisoner Heavily Fined

Mr. Hutchings, K. C., Deputy Min-
 ister of Justice, had a further message
 yesterday afternoon from Grand Falls
 saying that a man named James
 Strickland had been arrested on the
 charge of stealing \$26 from Grand
 Falls a couple of days ago. He was
 tried before Magistrate Fitzgerald
 yesterday and was fined \$30 or 2
 months imprisonment.
