

## Glass Floats

THE MODERN FLOAT for all fishery purposes. Unlike cork floats, which sog and sink, the glass float is practically unbreakable and unsinkable.

**These Floats are used almost exclusively by Norwegian Fishermen;**

and those who have used them in this country have found them very satisfactory.

Wholesale and Retail Prices on application.

**ROBERT TEMPLETON**

## STEER BROS.

### A Plain Statement.

Very light cakes and pastry, pie-crusts, and suet puddings are made by adding one part of

### "PAISLEY FLOUR"

The SURE raising powder to eight parts of the household flour.

### Test its Accuracy.

It costs you so little to try. Get from your Grocer a 5c., 14c., or 22c. tin of "Paisley Flour." The 5c. tin contains enough to raise a pound of flour, the 14c. tin enough for 3 1/2 pounds of flour.

Full directions on packets.

### The Tale of Perfect Time in a Watch

From Mainspring to Hairspring, between them lies the secret. The Mainspring is the power which it transmits to the active parts of the watch. The Hairspring has the control and regulates the motion. The setting is most delicate; imagine a 100th part of a hair. (Impossible to see!) Yet it is enough to interfere in its performance, so wonderful is the adjustment. The friction from accumulating dirt; lack of oil, etc., destroy these perfect fittings. Do not let your watch run to ruin from neglect. Remember our business is the care of watches, and our opinion costs nothing.
