

Dunlop Double-Life, High-Mileage Cord and Fabric Tires Will Save You More Money Than Ever

Compared to a few years ago tire users are getting easily double—and even more than double—the mileage in the tires of to-day.

Ten, twelve and fifteen thousand miles are just average mileages to-day. And the records on the road show that Dunlop Cord Tires and Dunlop Fabric Tires are even exceeding these mileages.

With Dunlop big mileage you have rock-bottom prices and paramount tire quality—tire quality that is accepted as standard to-day, and which other makers are vainly striving to duplicate.

When you can get a tire with prestige back of it like DUNLOP, and with practically an unlimited guarantee, why chance your life on a second-rate tire at any price?

In Dunlop Cord Tires you have "Traction" and "Ribbed" to choose from.

In Dunlop Fabric Tires you have "Traction," "Ribbed," "Special," "Clipper," "Plain."

Harbor Grace Notes.

What was supposed to have been a falling meteor was witnessed by a large number of our townspeople on Sunday night last, near the hour of 8 o'clock.

A resident of the West End, in the person of Mr. George Sheppard, met with a very bad accident this morning. The unfortunate man was coming from the country with a load of wood, when his slide capsized, and he was thrown underneath; his head was thrown under a wheel, his head relieved will prove fatal. At the time of the accident, his son was with him. Deepest sympathy is expressed for the family of the injured man.

The train from the city, due to arrive about 2.30, did not get in until somewhere near five o'clock, owing to the condition of the track at the present time. She brought along a foreign mail—the first for some time.

and, needless to say was most acceptable.

The funeral of the late Mrs. Eli Verge, whose death took place at her home, Pipe Track, on Sunday, was held to-day, Tuesday afternoon; interment being made in the Church of England Cemetery. Condolence to the bereaved.

To-day (St. Patrick's Day) is, as is customary, a general holiday in town, and a very fine one for those who purposed "catching the speckled beauties," as well as for all who were hoping that the weather would prove favorable.

Rev. W. H. Browning, pastor of the Methodist Church, has been ill for the past few days, but is on the mend now.

The harbor is still frozen over from the Point of Beach towards, and is daily used by our South Side folks, as well as those of this side. During the last few days of frosty weather

it has caught over some distance beyond the Beach referred to.

Mr. Darcy, representing the Imperial Tobacco Co. (Nfld.) Ltd., was in town during the past week.

During the past few days several accidents have occurred; and sad to say one fatality. Mrs. John Pike, of Harvey St. West, fell on the ice, not a very great distance from her home, which resulted in her arm being broken. Mrs. Pike is being treated at home, and at the present time is on the mend.

Mrs. Douglas French, of Water St. West, whilst coming down the road, somewhere near Main's Lane, slipped on the ice and fell, yesterday afternoon, causing serious injuries. Dr. Cron was called, who found that her leg had been broken near the hip. Mrs. French is somewhat advanced in years, and the fall having such an effect, is indeed serious. Arrangements were immediately made to have her conveyed to the General Hospital, St. John's, to have the broken limb attended to. We trust to hear that Mrs. French's condition is improving.

Reference was made on the 14th inst., to the accident which occurred to Mr. George Sheppard, when on the way from the woods with a load of wood; and it is with deep regret we now chronicle the passing of Mr. Sheppard. Death came as an end to his sufferings, about six or seven hours after the time of the sad happening. The sympathy of the whole community is aroused over the untimely passing of one of the town's respected citizens. Left to mourn are a wife, three sons, Ronald, William and Leonard; two daughters, Elsie and Marjorie; three brothers and one sister. The funeral took place yesterday Thursday afternoon, Rev. W. E. R. Cracknell, conducting the services. At the Church, Christ Church, a very powerful sermon was delivered by the rev. gentleman, which has been commented upon as one which must have sunk deep into the hearts and minds of the hearers, the words of the preacher being so very touching and beautiful. "May the God of all comfort be very near to the family who are called upon to bear this heavy affliction."

Miss G. Parsons went out by Wednesday morning's train to spend a time with her sister, Mrs. Wiseman, of the city.

Mr. R. Ritchey, of St. John's and re-

presenting the Acadia Gas Engine, Ltd., was in town on Thursday.

Dr. W. S. Goodwin and assistant, Mr. William Stevenson, are at present at Bay Roberts on a professional visit.

A S. U. F. dance will be held in the Masonic Hall on Monday evening, April 24th.

St. George's Day, April 23rd, coming on Sunday, will be observed as a general holiday on the following day, 24th.

Mr. A. French, representing Soper & Moore, St. John's, was in town during the week.

March 17th, 1922.

Twenty Years Ago To-Day.

(Evening Telegram, March 20, 1902.)

Suburban farmers all actively engaged getting their land in readiness for seeding.

Men from Little Fogo Island report that the sealing ships were in the vicinity of Snap Rock, and apparently taking seals.

The argument in re the arbitration between the Government and the Reid Nfld. Railway Co., was heard before the Supreme Court. Mr. Morris, K.C., contended that one of the daily trains to Carbonear should be discontinued. Mr. Morris, K.C., for the Government, maintained that the train should not be taken off without it could be shown that there was not enough traffic to keep the trains running.

Russia and France addressed a warning to England and all the Powers that they would duly protect their interests in China.

The Filipino Insurrection on Samar Island closed with the surrender of Guevana.

Sir Isaac Newton at the Mint.

Of Sir Isaac Newton, who died on March 20, 1727, Lord Macaulay has written that "there may have been minds as happily constituted as his for the cultivation of research purely experimental; but in no other mind have the demonstrative faculty and the inductive faculty co-existed in such supreme excellence and perfect harmony." In popular anecdote, he figures as the hero of two familiar stories—one about the falling apple, the other about the two holes cut in his study-door, a big hole for his cat and a small hole for her kitten. But his successful tenure of office as Warden of the Mint under William III. is less frequently called to mind, although it was very memorable in its way. Until Newton was appointed the place generally was regarded as a sinecure suitable for an idle courtier, but his ability, industry and integrity wrought a revolution in the department. "Well had it been for the public," wrote a contemporary, "had he acted a few years sooner in that situation." Still, as it was, he filled it at a time of vital importance, during the great measure of re-coinage undertaken under the auspices of Montague, later Lord Halifax. Until that great work was accomplished, as Macaulay records, "harvested sternly and almost angrily, every attempt by men of science, here or on the continent, to draw him away from his official duties." Certainly it was a task demanding his undivided energies and attention, for the operation was critical, and the year in which the old coins were called in and the new ones circulated, was a period of no small national inconvenience and suffering. Happily the people faced it with a good spirit, and it was recorded afterwards as remarkable that a time when much popular ferment might have been expected, passed without a serious riot.

Reference was made on the 14th inst., to the accident which occurred to Mr. George Sheppard, when on the way from the woods with a load of wood; and it is with deep regret we now chronicle the passing of Mr. Sheppard. Death came as an end to his sufferings, about six or seven hours after the time of the sad happening. The sympathy of the whole community is aroused over the untimely passing of one of the town's respected citizens. Left to mourn are a wife, three sons, Ronald, William and Leonard; two daughters, Elsie and Marjorie; three brothers and one sister. The funeral took place yesterday Thursday afternoon, Rev. W. E. R. Cracknell, conducting the services. At the Church, Christ Church, a very powerful sermon was delivered by the rev. gentleman, which has been commented upon as one which must have sunk deep into the hearts and minds of the hearers, the words of the preacher being so very touching and beautiful. "May the God of all comfort be very near to the family who are called upon to bear this heavy affliction."

Miss G. Parsons went out by Wednesday morning's train to spend a time with her sister, Mrs. Wiseman, of the city.

Mr. R. Ritchey, of St. John's and re-

If Bilious, Sick Take Cascarets For the Bowels.

Get a 10-cent box now. You're headachy! You have a bad taste in your mouth, your eyes burn, your skin is yellow, your lips parched. No wonder you feel mean. Your system is full of bile not properly off, and what you need is a cleansing up inside. Don't continue "biling" a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are gone by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascarets too because they never gripe or sicken.

The Death of Henry IV.

On March 20, 1413, Henry IV., King of England, died in the Jerusalem Chamber of Westminster Abbey. While praying there before the shrine of Edward the Confessor he had a fit, and after being taken in great agony to the Abbot's house he rallied for a short season, but could not be removed further. He expired at forty-six years of age, after reigning less than fifteen years. It was said to have been foretold of this Sovereign that he would die in Jerusalem, and this circumstance Shakespeare has immortalized in his play, which bears the name of the king, whom he describes as asking to be taken into that apartment after inquiring and learning its name. Perhaps Henry's desire to visit Jerusalem as a pilgrim, through rebukes of conscience, had suggested this hope and expectation. Twice, in 1390 and 1392, he had gone abroad on Crusade, or war for the Cross, but only further east in Europe to redeem and rescue Christians who had been captured by Turks and other Mohammedans. While at the Mediterranean island of Rhodes, at the close of 1392, he rallied to Jaffa, or Joppa, a seaport on the coast of Palestine (Jonah 1:3; Acts ix. 36), and thence made a short visit inland to Jerusalem, one donkey carrying all his majesty's possessions. After his death, his body was conveyed along the Thames to Gravesend, and thence overland to Canterbury, where, in the cathedral, it was buried, by the tomb of the Black Prince, Richard II's father. His second wife, Joan of Navarre, was interred by his side in 1437.

St. James' Court.

The appellation of "St. James' Court," is given to the court of Great Britain because the official residence of the King of England was at the Palace of St. James from 1533, in the time of William III, until 1837, during the reign of Queen Victoria. Then the queen and the remainder of the royal family changed their abode to Buckingham Palace, but, in theory, the court continued to reside in the squat and rather ugly edifice of St. James. In support of this legal fiction, many official functions continued to be held there, and to this day, representatives of foreign powers are still accredited to the "Court of St. James," the palace being so named because it occupies the site of a hospital for lepers founded in the Twelfth Century and dedicated to St. James the Less.

Household Notes.

A teaspoonful of corn or rice starch sifted with the salt will make it flow easily from cellars in damp weather.

To save your eyes when learning a new pattern of Irish crochet, practice with a large hoop and wrapping string.

A perforated cover for the frying pan prevents grease splattering, saves time and allows the food to brown nicely.

Strips of Fig Newtons make an attractive dessert when piled around a center of whipped cream and garnished with jelly.

To clean a photograph, wipe with a soft cloth wrung out in warm water and a little ammonia. Dry with another cloth.

With the addition of sliced potatoes, milk and seasoning, leftover corn and tomatoes can be made into an excellent chowder.

Spread two slices of pineapple with syrup from stewed apricots. Cover with whipped cream and garnish with chopped nuts.

Smoked mica may be cleaned by rubbing each piece with a cut raw potato, dipping into cold water and drying with soft cloth.

To stuff six large potatoes use two tablespoonfuls grated cheese, yolk of

one egg, two tablespoonfuls melted fat and seasoning.

If you wish a very tender crust on your bread, rub the warm loaves with butter. For a crisp loaf, rub with beaten white of an egg.

Stuff stewed prunes with nuts and serve on lettuce with mayonnaise. Creamed cheese and crackers should be served with the salad.

When using tomatoes in puree, to prevent curdling, use one-eighth teaspoonful of soda to each cup of puree; put in white puree is hot.

Prepare slices of bread, as for French toast, place in a greased pan, put on each a slice of tomato and a piece of cheese. Season well and bake.

Pineapple salad, served in nests of cabbage leaves with cream Russian dressing is delicious. Garnish top of salad with candied fruits and finely chopped nuts.

To one-half cupful chopped walnuts, add one-half cupful sharp cheese, grated, a little salt, mustard and paprika. Mix with mayonnaise and spread between thin slices of bread.

To make cheese custard, beat three eggs slightly and add three-fourth cup milk; season with one-half teaspoon salt, one-eighth teaspoon pepper, few grains of cayenne, few drops onion juice and three tablespoons grated cheese.

A thick white sauce for vegetables

is made by melting two and a half tablespoonfuls butter, adding one-half cup flour mixed with one-half spoon salt and few grains pepper. When smooth, add slowly one cup milk, then stir until sauce boils.

To prepare prunes for stewing, cover them with tepid water, allow them to remain in water five minutes. Pour off water and wash through several waters. Cover with cold water and let stand for five hours. Let them gently in same water a half hour.

Stafford's Phorotone will cure Coughs and Colds. For sale everywhere.—mar.17

Princess Secluded on Her Honeymoon

MARY AND LASCELLES DISPIED WITH THE TELEPHONE ON THE WESTERN ESTATE.

SHIPPALE, England, March 1. (Associated Press).—The honeymoon of Princess Mary and Viscount Lascelles, who were married in London yesterday, will be spent in seclusion at Weston Park if their wishes are observed. They expressed great gratitude for the tremendous display of good-will at their wedding, but now they frankly wish to be left alone in the manor with its 11,000 acres of ground.

There is no formality in the seclusion and there are no court attendants or relatives. There are only a few servants whose purpose is to make the seclusion of the royal pair complete. Even the telephone has been dispensed with in order to make the seclusion more secure from intrusion.

It is the purpose of the couple to leave the manor for at least a few days. In the meantime the great estate offers all they want in the way of diversion and exercise. This morning their horses were brought out for a ride, but rain caused the Princess to remain indoors. Her husband, however, went out for a stroll and inspected the church on the estate.

The interest of the villagers in the decorous and respectful. Last night there was a bonfire celebration in the village, but to-day the people of the countryside had fallen in with the wish of the newlyweds to be left alone.

PILES

Do not suffer from Piles. Dr. Chase's Ointment will relieve you of all Pile troubles. It is a sure cure for all Pile troubles. Sample Box free if you send 25 cents and enclose 20, stamp to pay postage.

MUTT AND JEFF
