BEAUTIFUL WOMAN ALMOST WRECKS HAPPINESS AND HOME

After Suffering Indescribable Tortures for Years

A WIFE'S TERRIBLE CONFESSION

We had a wonderful honey...on and the first two years of our ...ried life were the happiest years ...y life. I adored my husband and ...thought I was the most wonderful ...beautiful woman in the world. ...e a dozen little things began to ...and annoy me, everything seemed ...wrong. It seemed to me that ...y remark my husband made was ...al or irritating and I caught my...making sharp and sarcastic re...

...ually it got so that life seemed ...up of just a series of petty ...bbles. Often we would quarrel ...not speak to each other for days ...a time. I dreaded in ...evening to hear the step ...I had so often waited for ...joy and longing. My nerves were ...pletely exhausted and worn out; ...face became sallow and haggard. ...gan to have frequent pains in my ...and after I had eaten, my meals ...like a lump of lead. If the door ...bell or some one 'startled' me ...almost jumped out of my skin. ...ally, I went to the Doctor and told ...my story. I told him that my hus...no longer loved me and that his ...temper and terrible scoldings ...making me almost an invalid. ...can imagine how indignant I was ...the Doctor told me it was all ...fault.

...said that on account of my own ...y nervous condition I had sub...ed my husband to a constant ...ous strain and that the only trou...with either of us was that we were ...ous and all run-down. Later all ...I found out to be true, because ...I regained my health and re...lized my own worn-out exhausted ...ve centers, and the same was done ...my husband. I found him to be ...again the dearest husband in the ...world—his whole disposition entirely ...changed."

The above is a hypothetical case, which a physician says may well illustrate thousands which exist to-day. Homes are wrecked, children ruined, all through exhausted nerve force. Very few people realize the terrible physical and mental tortures often caused by a depletion of the nervo-vital fluid.

In such cases it is worse than foolish to waste your time taking stimulating medicines or narcotic drugs. Your starving nerve cells must have more nerve force, the same as a starving person must have food. This is best accomplished by increasing the activity and power of the nerve-force-making organs, the principal one of which is the blood. This can be quickly and most effectively accomplished by the free use of Nuxated Iron which not only increases the activity of the blood-making organs, but it feeds true, red blood food directly to the blood itself, thereby helping to create millions of new red blood cells. This wonderfully increases the power of the blood to help manufacture new nerve force, the same as enriching the soil increases its power to grow more wheat, corn or oats.

If you are suffering from nerve force exhaustion you can quickly and easily prove to yourself the power of Nuxated Iron to help overcome your condition and make you strong and vigorous again by the following simple test: Make a note of all your symptoms before you start; take Nuxated Iron for two weeks, then go through your list of symptoms again and you can at once see how they have disappeared and what it has done for you. If you have not obtained the most surprising results, all and even more than you expect, the manufacturers will promptly refund your money.

At the Nickel.

NICKEL BARITONE RENDERS FAMOUS SELECTIONS.

Henry G. Kelly excelled himself at the Nickel last night by his renditions of "The Trumpeter," and that popular Irish ballad, "Kathleen Mavourneen." Mr. Kelly could not possibly have selected numbers more appropriate to a St. John's audience. He sang them with much expression and was vigorously applauded.

Blackmailers thrive during three reels of Mack Sennett's super-comedy, "Love, Honor, and Behave." Eddie Gibbon and Kella Pasha raise rumor and gossip to the dignity of high finance and sell photos to interested parties for fabulous sums, their wiles entangling the virtuous as well as the vicious. This is only one of the humorous incidents seen last night in this picture. It would seem that Mack Sennett is determined in reducing divorce in the world. His "Married Life" it will be remembered, showed the folly of most marital misunderstandings. Ben Turpin being the agent of reconciliation. This picture shows the folly of such suspicion. Charlie Murray being the agent in this particular case.

THE FARMERS' VIEW.

OTTAWA, April 17.

According to C. Rice Jones, general manager of the United Grain Growers Company, the Western farmers ask the re-establishment of the Canada the re-establishment of the Canada Wheat Board, (1) to prevent the dumping of a large volume of wheat on the market in the fall because of circumstances over which the farmers have no control, and thus secure better prices; (2) because it would be of benefit not only to the farmer but to his creditors and all Canada; (3) because it would reduce spreads between the different grades of grain; (4) because it would be possible for the farmer to get more fall work done if he knew that by hauling his wheat on the snow he would still secure a good price. These views were expressed before the Agricultural Committee of Parliament.

Marine Engineers'

AGREE TO WAGE REDUCTION.

The Marine Engineers Association, at a meeting held on Thursday night, agreed to accept a reduction in wages as proposed by the local ship owners. The matter of wage reduction was proposed some time ago, and since has been under discussion. The reduction amounts to 12½ percent on present wages. The new scale becomes effestive May 1st, 1922, and will continue until May 1st 1923, when the Association will be at liberty to make a new agreement if feasible, and conditions warrant same. It is also understood that the locomotive and other engineers employed by the railway Company have effected a compromise whereby a reduction of five percent on the prevailing scale will come into effect on Monday next and a further reduction of five percent on October 1st.

THE ART OF CHEWING.

Your whole system depends for its health and strength on the stomach. The stomach, in turn, depends on the teeth. The very foundation of health is therefore laid at the first step in food conversion—the act of chewing. Food improperly chewed enters the stomach in a wrong condition, and it brings about a wrong fermentation which causes first, indigestion, then kindred ailments. The proper chewing of the food will prevent these things. Chew your food plentifully.
