THE EVENING TELEGRAM, LIMITED, PROPRIETORS. St. John's, Newfoundland, Saturday, March 24, 1923.

WORN OUT CATCH CRIES.

The old time catch cry with which the Government organs are attempting to beguile the electorate will not work. People to-day are not to be tempted nor seduced with ancient and worn out slogans, which have been worn threadbare by constant use. Merchant and fisherman, employer and employee have to work in unison for the common good. The fisherman is helpless without the supplier, as equally the merchant cannot make any progress in his business without the fisherman. Both therefore are not independent of each other, but interdependent upon each other, and it is the wildest kind of phantasy to indulge in such language as overflows in the Government organs. But anything to win is their motto. Consistency does not count in the least, They have the biggest merchant in Newfoundland sitting at the Executive Council Board; they have merchants of the South and West Coasts on their various tickets, but yet their one inane cry is "Down with the Merchants." What kind of a game do they think they are playing? Have they so spellbound the electors that they will listen to such worn out and mouldy catch cries? Who is Winter, who is Cheeseman, who is Hearn, who is Pike? Are not all these supplying merchants? And there are many others aligned with the Squires-Coaker Party. Is not Mr. Coaker himself the general manager of the biggest commercial concern in Newfoundland, with ramifications extending almost everywhere? Merchants, forsooth! If it had not been for some of them the Fishermen's Union Trading Company would have been in sorry plight long ago. So hands off the merchants, if you please, Messrs. Mail and Advocate.

PAUCITY OF POLICY.

The Government press shrieks itself hoarse, and bawls to not one sound can be heard of any outline of policy upon which our to assist his doleful and doomed cause. the Government crowd intends to fight the issue of a general election. Abuse of the Opposition candidates seems to be the Mail? Is not the very dominance of the spider in the centre of order of the hour, but so far as generalities are concerned they the web at Port Union a threat of destruction to vested interests are conspicuous by their absence. This should not be the case in the Colony? Coaker has declared that "Nationalization" is forts to uplift the country, by developing the internal resources, the fishery with this threat hanging over him? If Squires and or if not that, by promising to secure their development by de- Coaleer come to power again, not a dollar can be prudently invious ways and methods. All the vague mouthings of the paid vested in the fishery business until it has been proven that night, that Squires' father-in-law he has not. Now we ask the people of stand four years ago, we have been organs of the Government seek to impress upon the people that | Coaker is lying, that Squires has become a firmer man than he if they are elected the interior of Newfoundland will be one vast was in 1920, and that "Nationalization" is a pretence, and has father-in-law would pay this money ses such great sympathy and concern are not going to fall for any camhive of industry, and that henceforward there will be neither ceased to be a menace. penury nor poverty nor destitution for the whole population. But there is no explanation of hew all these marvellous accomplishments are going to be brought about. It is all words, words, and still more words. Naturally people want a little more except any sugar coated pill prescribed for them by the political physicians of the Government party. Facts, and solid facts, at that are the only things that will count. Vague and boastful expressions will not convince the electorate that there is the coming of the millenium, unless there is something more solid Meeting of and concrete to back these assertions.

"GOADED BY NECESSITY."

"Goaded by necessity, the Merchants insist upon taking last night, Chairman Caldwell outcharge," the Advocate quotes the News as saying. Well, what lined the work for the coming week. of it? What necessity is meant? Not their own private neces- As there are close on one thousand sity, as men, but the necessity of saving their business from de- names on the Committee rolls, a thorstruction, and thereby the whole people of the Colony from disaster and poverty.

And the saving of their business is not to be by purloining gates of the United Fishermen's public money for private use, nor by subsidizing services for Movement. Mr. Samuel Clooney, a private gain, a la Coaker—as by Salt Scandals, for instance, but by decreasing public expenditure and taxation, and so making centia and J. C. Puddister. Candidate more certain the prosperity of business, and profiting all the for Bay de Verde. Mr. Puddister anpeople who depend upon it; and who amongst us, except poli- nounced that he and J. G. Stone, Canticians in office, is not so dependent?

How can the merchants be saved except the people be saved fore the salling of the Senet last night also? How can the real necessity of the merchant, as such, be both gentlemen were given a big dealso? How can the real necessity of the merchant, as such, be both gentlemen were given a big desupplied except by wise and prudent government of public afmonstration. Mr. J. G. Stone in refairs, especially in financial and trade matters? How can busi
sponse to the demonstration addressthrough the courts. Both the Mail and of funds for the Squires campaign at fairs, especially in financial and trade matters? How can busi- sponse to the demonstration addressness continue to be carried on if it be exposed to the burdens the deck of the steamer, assuring which have beset it for years past under the Squires-Coaker re- them that he appreciated their good the game will not work, and fishergime? Borne down by unparalleled taxation, violently inter wishes, and that he had heard the men are alive to the fact that the Monroe, why did he not help out Mr. fered with by Fishery Regulations, menaced by arrogant and call of duty and returned from New presperity of the mercantile comfered with by Fishery Regulations, menaced by arrogant and ignorant politicians, dressed in a little brief authority, the busiof his fellow countrymen, whom the dewn to whom are the fishermen to lowing Bishep's firm to go into liquiness of the Colony has survived only by the tenacity of business felt were not content with the presmen, and the indulgence of capitalists, and neither tenacity nor ent state of affairs, and the manner been given since the Fish Regulations been given since the Fish Regulations. Then take Steer Bros. Hon. indulgence would survive another term of Squires-Coaker mis- in which the administration of the government. * * *

And so it has come to this, that driven by the necessity of Taking Action saving the business of the country from complete destruction, driven by the need of preserving themselves in business, and the people of the Colony from starvation or emigration, the business men of the Colony—the majority of whom were Squires men in 1919-have resolved, with the aid and approval of the electors, to take the charge of public affairs out of the control of the nation-wreckers now in power. And if a majority of the people unhappily should not aid and approve; if the Squires-Coaker gang come back to power again, it is the people themselves who will be the chief sufferers. If, as June begins, the present Government is again in power, the supplying business will practically ment is again in power, the supplying business will practically cease, there will be little or no outfit for the fishery, and the deceived and deluded majority will have to seek aid at the hands winter are acting for Mr. Ayre. of Squires and Coaker.

How could any other result be expected? Is there not at on Monday, featuring the Minister the present moment a war being waged by the Government Education, Honorable Arthur Barne against the merchants, which means nothing else than destructive interference with business affairs? Are not the chief suppliers of the Colony now being assailed and defamed as a class by the hired literary bravoes of the Government? Is not the solvency of merchants being threatened, and their ability to carry on being decreased, by the assaults of the Advocate and Made Bread.—oct4.6mo

Is Squires Prepared to Squander A Half Million of the Taxpayers' Money to Purchase Pawns?

VICTIM PASSES AWAY.

Hon. Sir R. A. Squires, K.C.M.G., Prime Minister,

Sir,—As you and your political associates, as well as newspapers supporting your party, are putting it to the country that the issue of the hour is the Humber Deal, and as the most absolute ignorance prevails of the details of this measure, we invite you and any of your associates to meet ourselves and colleagues at a joint meeting to be held in the Star Theatre on any night that will be convenient to you; there to discuss all features of this question and especially whether the Government in tends to buy out Messrs. Reids' interests in the Railway, and at what figure; as well as other matters in relation to your administration of public affairs since taking office in November, 1919.

We make this invitation in this manner, because we think St. John's is the most accessible quarter for an immediate discussion of these matters.

Trusting to have the favor of an early and favorable reply, as your acceptance of this proposal should make for the enligh enment of the country in regard to a very important measure, We have the honor to be

Your obedient servants,

M. P. CASHIN. W. J. LINEGAR. C. E. HUNT.

What Did Squires Do

But, in the meantime, if Squires did this for Mr. Monroe why didn't he do in that paper a few days ago in con- it for Messrs. Bishop, Steer and Goodnection with the firm's private enter- ridge, three merchants in the West End whose financial circumstances have been the subject of much more they are so desirous for the interests comment than these of Mr. Monroe. Within the past few weeks the town

ness of Messrs. Bishop & Sons. In other words the Bishop firm has gone to the wall and become insolvent. The schooner Jean Campbell, which What did Squires do to help Mr. was recently bought by the Monroe Bishop out of his difficulties, and Export Co., has completed loading help all the hundreds of people emdidate for Trinity District, were leaving by S.S. Senef to open the campaign in their respective districts. Before the sailing of the Senef last night the last election. If Mr. Squires was so keen to help the merchants as he professes to be in the case of Mr. com- Bishop, who did much more for him

Then take Steer Bros. Hon. F. Steer the present principal of that firm, Monroe & Co. purchasing vessels and sending them, fish laden, to market, Mr. Squires as leader of the Opposiand it is also welcome news to know that the principals of such firms have allied themselves with the Bennett who was rewarded for his party services with a seat in the Legislative Council. The firm of Steer Bros. went into liquidation a year ago. It is in the hands of Trustees and so far the creditors have been paid a dividend of ten cents on the dollar, and according to report may be paid another | small dividend. Report says further that Mr. Dove, the Accountant of the firm, went away last month to Canada to negotiate with the Head Office of the Bank of Commerce, which carried by default. The expenses saved the account of Steer Bros., for some settlement that would enable the firm to go on, as otherwise it must close up. What has Squires done to help out the Steer firm, or help the tiens to carry on Steer's business again? Here was a great opportunity for him to show his financial and
