To Fight Loan Shark Evil

New York, June 19—The fifth annual convention of the National Federation of Remedial Loan associations began here today. The organization was formed in Buffalo in 1909 at the time the National Conference of Charities met there. It is comprised of 32 organizations spread all over the country and is devoted entirely to the removal of the "loan-shark" evil. These companies compete with the "loan-shark" in his own field and are financed by men of the greatest reput, whose sole ambition is to remedy the prevailing conditions by providing a place where people of small means may borrow money without fear of persecution and extortion. The society does not advocate the constant borrowing of money, but desires the working man, when hard pished at times, to come to these societies where he will receive a sum under simple conditions and without the fear of being handicapped by large rates of interest.
