of Western Ontario's Great -What is to be Seen-The

The Western Fair in all its glory is once more in full swing at Queen's Park, and thousands of strangers are arriving daily to participate in the enjoyment of the exhibition which has been prepared through the energy of the officers of the association. Street cars from every section of the city carry hundreds of people to the grounds while every other method of conveyance imaginable is brought into acquisition. Then, the distance from the center of the city is only what would be considered a nice walk and so thousands go afoot. To all the officers much is due, so their names

THE MAIN BUILDING.
The exhibite in the main building this year are very attractive indeed. Every crook and cranny is filled with something new and interesting. What many consider the most interesting section of the entire Exhibition is the introduction of steam power in the southeastern portion. "Jumbo," the great steam roller, has been placed on the grounds, and from its whirling wheels the motive power is supplied. Several machines are busy stamping and pressing tinware of various kinds, featherbone is being manufactured, a printing press is in full motion, a number of people placed on the grounds, and from its whirding whose the motive power is supplied. To-MORROW'S PROGRAMME.

The Children's Own Day—An innovation on the procedure of former years, when the last day of the Exhibition was set apart for the children.

The children of all the Public, Separate and other Schools, under 15 years of age will be admitted for 5 cents. This will be a day for them to look back upon.

Machinery of all kinds in full operation.

Processes of Manufacture.—Special attention has been given to this department of the Exhibition. A line of shating has been run along the entire length of the south side of the main building, and power supplied by a gas engine. There will be manufactured, in full view of the public, many of the industrial productions of the country—cotton and woolen looms weaving beautiful fabrics; machines making buttons, crocks, tin-stamping, screws, brushes, etc.; soroll sawing, carving, cigar and cigarette making, etc., etc.

Grand exhibits in Painting, Modeling, Statuary, Photography, Organ and Piano Recitals, etc., in Main Building.

All the Iron and Wood Working Machinery will be in full opration in the Heavy Machinery Hall.

Great Southern States exhibit in Dairy Hall. This will be a splendid opportunity to see the products and resources peculiar to the Southern States. In a growing condition will be shown cotton, rice, figs, peanuts, etc. The American Crocodile, or Alligator, of Florida, alive, and the Hiddemite Stone, as valuable as diamonds, and other curios, will be among the collection.
