Comparative Table - The Result by Wards-Every One Shows an Increase,

The assessors have completed their duties, and have submitted the assessment of the city for 1894, upon which the rats of taxation is to be based. The valuation was made by these officials:

Wards 1 and 2—Stephen Grant, assessment complete.

Was made by these officials;
Wards I and 2—Stephen Grant, assessment commissioner.
Wards 3 and 4—Peter Toll.
Wards 5 and 6—Alfred McCoubrey.
The population of London within the corporation limits, is 32,571. With London West, Pottersburg and the settlements which skirt its boundary added it is fair to put the figures in round numbers at 40,000. Ward 5, East London, shows the greatest increase—325—with ward 6 next—202. Perhaps this is because there is more room to grew is outlying wards which are not filled up as yet.

In real estate the banner ward is No. 2, with an increased assessment of \$892.75, while the first ward has section are of course more valuable. The increased assessments in the other wards are chieflyon residential property. It is noticeable that the added value and population are shared more or less by every ward.

He reports the wheat crop on the heavy clay in Metcaife and on the east side in the high lands of Brooke altotal failure—in many cases not green enough to show that wheat had ever been sown; but through Lobo and the light soil of Caradoc and the flat land of Brooke, although very much backward, still, if the winter is favorable, it may be a crop.

OXFORD.

An old hostler, named Joe Murphy, who for some time had been employed at the Commercial Hotel, Woodstock, met with an accident Tuesday morning, in which he sustained injuries of such a severe nature that he died a few hours later. Murphy, it appears, slept Monday night in the loft of the Royal Hotel, and must have got up in the dark and fallen through the trap-door to the floor, a distance of twelve or fifteen feet. He was found in the morning lying unconscious in a pool of blood on the stable floor. Very little is known of Murphy beyond the fact that he came from Montreal.

beyond the fact that he came from Montreal.

On Tuesday night, Nov. 14, the temper ance workers of Ingersoil held a most interesting and instructive meeting in Charles Street Church, when the various objections urged by the liquor dealers and their sympathizers, to the number of fifteen, were discussed, and the canvassing committees prepared for a thorough house-to-house canvass of the town. The different objections had previously been assigned to different speakers, each of whom presented his topic, after which it was subjected to an informal discussion. Altogether this was perhaps the most instructive temperance meeting held in Ingersoil, and many excellent susgestions were given as to the best. of refuting the arguments of the

Liberal Tariff Platform.

We, the Liberal party of Canada, in convention assembled declare:

That the customs tariff of the Dominion should be based, not as it now is, upon the protective principle, but upon the requirements of the public service.

That the existing tariff, founded upon an unsound principle and used as it has been by the Government as a corrupting agency, wherewith to keep themselves in office, has developed monopolies, trusts and combinations;

must be based only on the principle of protection.

We denounce the principle of protection as radically unsound and unjust to the masses of the people, and we declare our conviction that any tariff changes based on that principle must fail to afford any substantial relief from the burdens under which the country labors.

This issue we unhesitatingly accept, and upon it we await with the fullest confidence the verdict of the electors of Canada.
