The city council held a decidedly in- given power to deal with a request teresting meeting last night. It was not that there was such a great amount of business done, but it was the way graphing Company notified the council which it was all transacted, that the 500 copies of "Illustrated London" ordered by the council were put the spice into the session. The Aldermen seem fully conscious that aldermen seem fully conscious that awaited instructions regarding the they have not many more similar oc- disposal of the same. Referred to No. casions before them. The refulgence of the council chamber's glory may not be theirs more than once again, so they determined to show "the other fellows" what's what, and numerous wordy encounters was the result. The municipal ship of state is now fairly launched upon the darksome ways of the general election, and the process, as usual, produced quite a splash. In their one last hope that the council would not be chosen under the new regime, Aldermen Douglass, Cooper and Jolly made an effort to nullify the effect of the recent municipal legislation. Another matter about which opinions were freely expressed-some not altogether complimentary to Engineer Graydon-was the engagement of Wilks Chipman to prepare the plans of the filtration beds. The feeling against the engineer's department was climaxed by a notice of motion to dis-

charge Mr. Graydon.
Among the matters that were settled with little difficulty was that of the erection of the anti-consumptive sanitarium, the aldermen being asked to send it forward to next year's council with the smile of their approval. The council also decided to provide funds with which to purchase gold watches for the soldiers. A number of requests for remission of taxes were referred to No. 1 committee.

No. 2 committee will consider communications from the city engineer in connection with the Dundas street east eleaning contract; from Sarah A. Code and others, re construction of sewer on Queen's avenue, between Adelaide and Dizabeth streets; from R. Oates, re payment for injury to buggy: from Lewis Clarke and others against a sewer on Elizabeth street, ind that College avenue be renamed

Hellmuth avenue. City Engineer Graydon advised the council "once more," to "have a bylaw passed making it compulsory on every householder to have the snow cleaned off the sclewalks not later than 9 o'clock in the morning," as the present system was in his opinion "antiquat-It was in reality worse than if no snowplowing were done, as the cut a path in which the slush

This was referred to No. 2 committee, though Ald. Pritchard moved to have the matter boosted upon next year's council. The division upon the amendment being a tie, the mayor voted to send it to No. 2. As the amendment carried, Ald. Garratt moved, jokingly, "that the engineer start firs what kind of a job he would

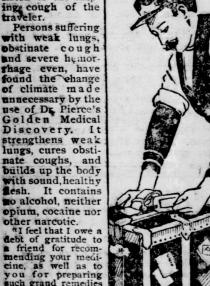

City Engineer Graydon wrote that he was of Mr. Saunders' opinion in the matter of the city trees, as published already in these columns. He recommended that on the avenues, where they were close, every alternate tree be cut down. Referred to next year's council. The mayor and relief inspector were

ed with that object in view. Ald. Wray added that he thought the action of the aldermen in trying to browbeat the mayor very small, indeed.

Ald. Cooper was quickly upon the floor with processations that such that not been his intention. He expressed his belief that Mr. Meredian's opmon should rue, when Ald Brener incur-red his displeasure by speaking to his worship, "Cabl that man to attention, Mr. Mayor," shouted Ald. Cooper, and added, amidst much merriment: "He's always bouncing around like a jumping-jack and taiking."
This remark from Ald. Cooper caus-

ed much amusement. When Mayor Rumball declared that the people wanted and would have the gene at vote, Ald. Douglass remarked: "Surely you will back up the city solicitor. We don't want all the aldermen from No. 5 ward, and that might be people like the city is a ward and that might

happen. Isn't it more sens ble to have them from all over the city?" Ald. Jolly said that the city solicitor had changed his opinion or he would not have told the mayor to follow the ttorney-general's advice.

Mayor Rumball contended that this was not the case. "Well, if he didn't," said Ald. Jolly, "I must be thick-headed.
Finally the people's plan carried on the following division:

Nays-Winder, Jenkins, Douglass, Jolly, Cooper, Garratt, Dreaney and Yeus-Pritchard, Brener, Ross, Malloch, Winnett, Bartlett, Geary, Wray and Stevenson-9.

THE SOLDIERS' SOUVENIRS. A deputation from the reception committee, consisting of ex-Mayor Wilson, ex-Ald. J. W. Jones and Trustee MacRobert, waited upon the council to obtain funds with which to purchase a souvenir to the London members of B company, and so as to give them an opportunity to express themselves the report of the reception com-mittee was presented. Briefly it re-commended that a gold watch be given to each returned Londoner who assisted in the South African campaign. Mr. Peter Birtwistle, speaking as a committee of one, said that he was of the opinion that this souvenir should come, not as a gift, from the city through the council, but from public

amount needed to buy the men a suitable souvenir' Section London requested the coun-Mayor Rumball said that there was cil that in the future nominations for addermen in the city of London be held objection to the citizens doing what they pleased by way of subscriptions; "but," he continued, "if the Ald. THE LITTLE SICKNESSES

Which Grow in o Big Ones. A little cold in the head is a trifle. but a negected and it hangs on from week to week and gets into the throat

and lungs it is no longer a triffe. It is then no longer a shout cold, but the beginning of caronic catarra.

Do not make the mistake of thinking you have no catarra because the head and nose appear to be clear. If there is cough, theking in the throat, hoarseness or a sense of oppression in the chest you have throat and pronchial catarra. If the a petite is poor, nau-sea, gagging and disgust for food, especially in the morning, you have of motion. cataruh of the stomach.

The surest and salest treatment for every foun of catarin is an internal remedy which acts especially on the blood and mucous membranes. Such a remedy is the new catarrh cure, sold everywhere by druggists under name of Stuart's Catarrh Tab- carried.

lets, a medicine in pleasant, convenient tablet form and containing all the best and latest specifics for catarrh, whether Several of the aldermen, Douglass located in nose, throat bronchial tubes or stomach. themselves strongly against the plan "Whise advice are you following in this matter?" inquired Alli. Douglass, "the city solicitor's or the attorney-

Sugart's Catarrh Tabets are composed of sanguinaria, guiacol, red gum and similar antiseptics which destroy the germs of catarrh in the blood, and no one who suffers from any form of catarrh and has seen the uselessness of sprays, douches, and powders will ever go back to them after once trying so convenient; pleasant and harmless a remedy as Stuart's Catarrh Tablets, and one which gives relief in so short a time.

Even in cases where catarrh has affected the senses of smell and hearing. these tablets accomplish a cure, be-cause the blood being cleaned of cataurhal germs, the mucous surfaces of the nose and throat no longer clog up the respiratory passages with catarrhal secretions.

All Gruggists sell full-sized treatments of Stuart's Catarrh Tablets for the nominal price of 50 cents, and the regular daily use of them will effectually cure this troublesome and dangerous disease.

The Human Body a Bundle of Nerves

Without that vital force supplied by the nervous system, the heart, lungs, stomach,

liver, kidneys and bowels are powerless to perform their functions, and hence it is that weak, starved and exhausted nerves result in such derangements as cause indigestion, nervous dyspepsia and Readache; tired, languid and despondent feelings; loss of energy and ambition; fear to venture and incapacity for business; nervousness, weakness, debility and general break-down of the body.

The human body is a bundle of nerves and the whole system is instilled with nerve energy and vitality when the nerves are revitalized by Dr. Chase's Nerve Food. Through this great restorative prescription, Dr. A. W. Chase has made it possible to cure the most serious cases of nervous disease. This great food cure tones and invigorates the system as no preparation was ever known to do.

Chase's Nerve Food

The wonderful success of Dr. Chase's Nerve Food, and food cures, these preparations contain poisonous drugs,

As you value your life and health, beware of these the consequent popularity which it has attained, has given worthless imitations. On every box of the genuine will be rise to numberless imitations; but, instead of being genuine found a portrait and signature of Dr. A. W. Chase, the best guarantee as to quality which any preparation can such as morphine, cocaine and aconite, which relieve by possibly have. This cut of the box is given for your guiddeadening the nerves, but do not nourish them back to ance. Insist on having the genuine, and do not, under any health and build up new nerve tissue, as does Dr. Chase's circumstances, accept substitutes of any description cents, all dealers, or Edmanson, Bates & Co., Toront

to draw plans and prepare specifica-tions for the filter beds. Ald. Jolly and Ald. Douglass moved that Mr. Chipman's services be dis-

"The contract is let," said his worabout that?"

"When we have three engineers here," replied Mr. Jolly, "surely we don't need to pay another to prepare plans for every little tuppenny job that comes along."

Ald. Winnett explained that Mr. Chipman is an expert in such matters, and it was to make the best use of their money that he had been engaged. "The citizens of London," rejoined Ald. Jolly, "are tired of paying two or three engineers, and then for every little job having someone else. I say if Mr. Graydon is not competent, then let him take some of his salary and go and learn it." Mayor Rumball ruled that the mo-

council had already beer given power to do as they had done.

The point was holly debated by Ald.
Jolly, who in the end was defeated on Ald. Douglass moved in amendment that the report be adopted, and that the following division: Yeas—Pritch-ard, Winder, Jenkins Douglass, Jolly, the financial question involved be referred to No. 1 Stevenson, Ross, Cooper, Garratt and Dreamey-10. Nays-Mayor Rumbali, Winnett, Malloch, Bartlett, Brener,

tion required a two-thirds vote, as the

Gerry and Wray-7. This would have been enough to give Mr. Graydon a very unpleasant halfhour had he been present. But he would probably have been more astonished had he heard the voice that came out of the silence: "I move that at the next meeting of the council we discharge Engineer Graydon." It was Ald. er. "I'm not scared," he added in response to the volley of astonished eyes that were directed to-

SANITARIUM PROPOSAL. The council passed a resolution deing that it favored the erection of a canicarium, as recently suggested at the public meeting held here, and recommended the matter to next year's council for its favorable conside atton. Dr. Cl. T. Campbell and Dr. English appeared before the aldermen, requesting that this be done, and exputining their reasons at some length.

wards him.

was absolutely no hesitancy evinced by tailed statement of the amount of the council in agreeing to their desires. The arguments advanced Davor of the construction of the sanitarbum have already been made pub-GENERAL MATTERS.

'Ald. Ross presented his motion regarding railway crossings and the speed of trains. He had already made known his views upon this matter. In speaking to the motion, he told of the gravity of the situation at present. Thirteen serious accidents had happened in the city the last two years, and he regarded a state of affairs that would allow this to thappen as truly lamentable. An amendment to have the present powers of the council emforced was

carried.

Ald. Stevenson moved that the city clerk learn how many of the city officials have passes on the street railway. Ald. Cooper moved that Manager Carr be asked to have the speed of cars materially decreased at the cornes of Dundas and Wellington streets, as seven serious accidents had happened there in the past six weeks. Ald. Cooper desired, too, that a committee be appointed to inspect the cement walks, but Mayor Rumball ruled that he must make this a notice

"Ch," said Ald. Cooper, "I'm on to you. You know that snow will be on the ground then and it will be no Ald. Winnett's motion to grant the

TRYING TIMES In a Woman's Life.

There are three periods in a woman's life when she is especially in need of the heart strengthening, nerve toning, blood enriching action of Milburn's Heart and Nerve Pills.

The first of these is when the young girl is entering the portals of womanhood. Very often at this time she is pale, weak and nervous, and unless her health is built up and her system strengthened she may fail a prey to consumption, or be a weak woman for life.

The next period a woman needs Milburn's Heart and Nerve Pills is motherhood The drain on the system is great and the exhausted nerve force and depleted blood, require replenishing. These pills supply the system with the very elements needed to make rich red blood and create new nerve tissue.

The Change of Life is the third period in a woman's life when she is most liable to heart and nerve troubles. Often there is nervousness, hysteria and melancholia; palpitation, dizziness, feeling of "pins and needles," hot flushes and general weakness. Every woman approaching this eventful period should fortify her system by the use of Milburn's Heart and Nerve Pills and thus safely tide over an epoch in her life fraught with so much danger to her health.

No. 6 Div.-W. R. Garner, at Mrs. Wright's house, 779 Colborne street. No. 7 Div.—John McDonald, at Thos. Devoy's house, 818 Maitland street. No. 8 Div.—Charles Bartlett, at his house, 480 Elizabeth street.
No. 9 Div.—Peter Toll, at W. H. Pring's house, 727 Princess avenue.
No. 11 Div.—Thomas Tuxford, at

John A. Matthew's house, 921 Dufferin A STARTLING STATEMENT.

Toronto, Dec. 3.-Mr. James Noxon, provincial inspector of prisons and public charities, says: Drunkenness and immorality are on the increase among the girls and young women of Ontario employed in the factories and shops of our cities. There are now propably from five to ten times as many girls and young women employed in the shops and factories of our cities as formerly. These come in most cases from the rural districts, and are removed in the city from the restraining influences of home life. Moreover, the drudgery of the factory and constant nervous tension makes them feel the need of amusement and excitement after the day's work is over. These influences, combined with the constant and free intercourse among the sexes, lead too frequently to drunkenness and vice. As an evidence of the fact that there is an actual increase in this connection. Mr. Noxon instanced the fact that the increase this year in the House of Refuge is over 50 per cent-made up larg ly of young girls who had been led astray in one way or another,

First and Foremost

In the field of medicine is Hood's Sarsaparilla. It possesses actual and unequaled merit by which it cures all diseases caused or promoted by impure or impoverished blood. If you have rheumatism, dyspepsia, scrofula or catarrh you may take Hood's Sarsapariila and be cured. If you are run down and feel weak and tired you may be sure it will do you good.

The favorite family cathartic is Hood's Pills.

Not all parts of Europe enjoyed a prolonged summer. In the Bohemian Mountains the first violent snowstorm occurred on Oct, 17.

GOOD DIGESTION SHOULD WAIT ON APPETITE .- To have the stomach well is to have the nervous system well. Very delicate are the digestive organs. In some so sensitive are they that atmospheric changes affect them. When they become disarranged no better regulator is procurable than Parmelee's Vegetable Pills. They will assist the digestion so that the hearty eater will suffer no inconvenience and will derive all the benefits of his food.

In 300 German towns, with an aggregate population of 15,000,000 inhabitants, medical statistics are now regularly recorded and compiled.

HE HAS TRIED IT .- Mr. John Anderson, Kinloss, writes: "I venture to say few, if any, have received greater benefit from the use of Dr. Thomas' Eclectric Oil than I have. I have used it regularly for over ten years, and have recommended it to all sufferers I knew of, and they also found it of great virtue is cases of severe bronchitis and incipient consumption. The cheapest postal service in the world is that of Japan, where for two sen-about one and two-fifth centsletters are conveyed all over the em-
