Wartime Enthusiasm Over St. John Ambulance Courses Revived in Autumn-Winter

Term.

Grandmothers, Mothers, Young Girls, Share in Lectures and Demonstrations.

Not since war days has such enthusiastic interest been manifested in first aid, home nursing and other St. John Ambulance courses as in the past few months. Classes which have in connection with No. 28, Lord Kitchener. Nursing Division, have been the largest since the signing of the armistice.

Commenting on this fact to the women's department of The Advertiser in presenting for publication ex-amination results, Miss Ella Davis, lady superintendent, said: "There is age limit for our classes now. are grandmothers as well as mothers The interest of the past four or five months has reminded of war days when we were flooded with applications for classes. But there is this difference now: the women taking the courses are those who very much feel the need of the knowledge to be acquired, in order to meet daily emer-

"That is the reason we have had so many mothers enrolled. In war days it was more the young girls, looking to the possibility of V. A. D.

"Looking back, I sometimes wonder how we managed the unwieldy classes, with as many as a hundred enrolled. Some way we got through, and our candidates passed with flying colors, taking most creditable standing when it came to service either at home or overseas. They met se-vere tests of their skill in the "flu" epidemic as well as in regular war

work.

Monday evening the annual meeting will be held of No. 28, Lord Kitchener Nursing Division, when reports for the year will be presented.

These will tell the story of certificates granted to more than fifty taking St. John Ambulance course year, in classes organized by the division. They will tell of a church parade to St. Paul's Cathedral, a joint picnic with No. 51 Division, a successful public demonstration of work put on in the new nedical college auditorium on the occasion of the annual presentation of certificates, and visit of inspection of

NERVOUS EXHAUSTION

The Only Sure Relief is to Enrich and Build Up the Blood.

Nervous exhaustion is the cause o Nervous exhaustion is the cause of headaches and dizziness, and it is due, almost always, to conditions of im-poverished blood. Tablets and pow-ders for headaches should never be ders for headaches should never be taken; they cannot possibly reach tre root of the trouble, and are often most harmful. All that is needed to bring relief is a tonic that will enrich and purify the blood, and the very best tonic for this purpose is Dr. Williams' Pink Pills. These pills have a direct action on the blood, and in this way the headaches, dizziness and other bad symptoms rapidly disappear. Mr. symptoms rapidly disappear. Mr. Mark F. Taylor, Granby, Que., tells what this medicine did for him. He says: "I had severe headaches which would be accompanied by vomiting spells. These would last for two or three days at a time. I would take one of these spells every three or four weeks, and it is almost impossible to describe the misery they caused me. I tried a number of medicines without getting relief, until one day my mother prought me six boxes of Dr. Williams' Pink Pills. When they were used I was feeling much better, and I got a further supply, and under the continued treatment every symptom of the trouble disappeared. I cannot speak too highly of this medicine for t certainly has done wonders for me."

Hereafter Members Will Lead Discussions On Live Topics.

The London Women's Labor party has decided upon a new program policy for 1923. Instead of inviting speakers from outside, the members will be asked to give addresses and papers as a lead for discussions. In this way it is believed the meet ing can be made more generally in-teresting, as well as educative.

A list will be compiled in the im-mediate future of interesting subjects, and one will be allotted to each members. Twenty minutes will be allowed for paper or speech, after which the meeting will be thrown which the meeting will be thrown open for questions and discussions.

Any member unable through illness to take her topic or indisposed to speak on it, will be expected to secure a substitute.

Mothers and Their Children

To Prevent Bowlegs.

My baby's legs were a little bowed after he began to walk. Every night when I put him to bed I rubbed them with oil, holding the little foot in one hand and with the other hand rubbing the leg with firm but gentle upward strokes in the way to straighten it, not more than two or three minutes at a time. When my babies are learning to walk, I buy them laced shoes, not buttoned, for the valuable ankle support this gives them.
