SNATCHED FROM DEATH,

Dr. Agnew's Cure for the Heart Saves the Life of a Lady Resident of the Northwest.

His Wonderful Catarrhal Powder Cures a Nova Scotia Resident of Catarrhal Deafness.

When heart failure overtakes a unless the action of the heart can be im-mediately accelerated the very worst results may follow. This is where we hear of many cases of sudden death from heart disease. The elements that constitute Dr. Agnew's Cure for the Heart are such as to Agnew's cure for the neart are such as to give relief in this particular immediately, without producing any hurtful effects. Then, continued with a little patience, the disease becomes banished from the system.

Mrs. J. L. Hillier, of Whitewood, N.W.T.,
says very plainly that this remedy saved
her life. She had been much affected with her life. She had been much affected with heart failure, finding it almost impossible to sleep or lie down for fear of suffocation. The best doctor's skill in these Northwest Territories was of no avail. She says—"A local druggist recommended a bottle of Dr. Agnew's Cure for the Heart. I tried it and with the result that I immediately secured ease, and after taking further doses of the medicine the trouble left me. The fact is knowing how serious was my condition,

medicine the trouble left me. The fact is, knowing how serious was my condition, this remedy saved my life."

It would be a mistake to suppose that Dr. Agnew's Catarrhal Powder will only cure the milder forms of catarrh. It will certainly do this, and with wonderful expedition. But, as in the case of Mr. John MacInnes, of Wathabuck Bridge, N.S., it will cure the worst cases of catarrh. This gentleman suffered from catarrhal deafness, but after using one bottle of this remedy he was able to hear as good as ever. Painhe was able to hear as good as ever. Pain less and delightful to use, it relieves in tem there. The premium on gold has risen minutes, and in a little time permanently to a prohibitive rate 85 per cent, being cures catarrh of all kinds. A resolution providing for the abatement of the nuisance caused by waterclosets being connected with the open drain on Charles street, was adopted. ALD. WILSON asked that instructions be given to have the telephone replaced in the residence of the street superintendent; and the Mayor said that great inconvenience had been caused also by the telephone having been taken away from the city engineer's house. No action was taken.

The council again went into committee of the whole on the estimates. A motion by Ald. Macmillan to reduce the medical health officer's salary from \$90 a month to \$60 was lost, only the mover voting for it. This and all the remaining items were passed and the committee rose and reported.

The board adjourned at 10:25 p.m. MATTERS IN HAYTI.

New York, Aug. 4.—The Sun's Kingston, Jamaica, correspondent, under date of July 29, writes: "Alarming reports are current here as to the political and financial position in Hayti. The steamer Andes, which arrived here vesterday, brought letters from Port au Prince, indicating a serious position of affairs the latest quotation, and trade is almost
