Outburst Of Revivalism

A Remarkable Religious Movement Now in Full Swing in Wales.

Miners Devote Hours of Rest to Singing and Praying Enthusiastically.

Pubs and Football Games are Fossaken and Meetings Spreading.

London, Dec. 17.—There has been a remarkable spread in the religious revival which started at Bolton, Lancashire, on September 4th of this year by Rev. Benham A. Torrey and Chas. M. Asselstine of Chicago, Wales, which is largely nonconformist, is ringing with revivals and the churches are crowded on week days and on Sundays. Some of the places of worship will not accommodate those who wish to attend and people gather in halls and in the open streets. All classes are affected. No such movement has been known in Wales during the past century, but the leaders of the revival, noting this fact, point out that similar religious demonstrations have occurred at intervals of fifty years of time, and cite as instances the years, 1750, 1800 and 1850, a notable difference between the Welsh revivals and other revival meetings is the fact that the proceedings are not conducted solely by the clergy. The leaders commence the services with prayer, and then call on groups of individuals or individuals in the whole becomes a babel of independent applications with varying degrees of fervor, and in the intervals of which the voices of the women mingle with the men. The Welsh people are famous for their singing, and at times during the meetings the congregations sing hymns, well-known hymns, the congregation taking it up. The singing continues until the services are over. The meetings commence early in the evening, last for two or three hours, and sometimes the services are held in the morning, the most of the time until 3 or 4 o'clock in the morning.
