Three burglars broke into Samuel Brett's house near Ansonia early this morning and attacked him and demanded money. His wife Mary Newton, who was asleep, touched the burglar with a broom, and he was killed. The burglar was a Frenchman who was persecuted by the English government, and this was given vent to in articles in all the papers in France. The burglar was written in one of the papers and sent to him as a kind of a compliment, wherein the British government was abused for the acts of the Canadian government. The persons who sent him this article were much surprised when I told them. Your article directed against the British Canadian government, has dealt with the English in the Northwest territory of Canada, and if you intended to please me your article is not likely to answer your purpose.

In which they discovered numbers of lepers who were in daily communication with the general public. The commission's first object was to prevent the disease from spreading. The committee were confronted with Chinamen in the most advanced stages of the disease. It was that of a Chinaman who has been frequently arrested for vagrancy, and although suffering from the disease, has been allowed to mingle with prisoners in the jail. The commission reports that the afflicted ones are constantly coming in contact with the general public, and that many of them are employed in the white families as servants, and that the free way in which these Chinese servants mingle with their employers and frequent the public houses, has done much to spread the disease.

THE MAYORALTY.

MR. GLADSTONE CALLS UPON HIS EX-MINISTER TO SUPPORT A BILL.

The Globe will never discuss anything in which politics are concerned, or in which it thinks politics are concerned, fairly. In writing of the mayoralty on Saturday, it said that Mr. Manning would seek a second term because he had been ordered to do by the conservative powers at Ottawa, and insisted that if he did not certain "huge claims" that he had against the government for shady contracts would not be allowed. It also asserted that: "The pushing forward of a brewer as candidate for the mayoralty in Sir John Macdonald's resolution of the late provincial convention."

Mr. Manning, when interviewed by Our Own Bird, said his claims against the government were all settled, and that no pressure from Ottawa or elsewhere had been put on him to make him run. The other charge is equally false, so far as collusion with Sir John Macdonald and the prohibition vote is concerned. It is more likely that the Globe's attempt to get the prohibitionists to join the Globe and reformers in electing a reform mayor. They have a perfect right to do this if they see fit, and they may succeed, especially if they select a man like Mr. Darling, but for a partisan organ like the Globe to pretend to "see" politics in everything without noticing the beam in its own eye is ridiculous.

Mayor Manning is running because he wants to be mayor again and because he thinks he has done the city good, and because he thinks he can be of further benefit to Toronto in the affairs of the trunk street, the new water front street, especially, and in the general direction of greater economy.

Let the Globe confine its criticism to these points and it will have an effect. The mayor's record for this year is well worth looking into. The electors ought to know if he has carried out those fine promises in these last few months. The candidates are found committed to the bestowal of the franchise on women. In other constituencies there is a strong feeling in favor of triennial parliaments. Mr. Gladstone sees no objection to liberal candidates pledging themselves on all such questions, and that the electors of the country will undoubtedly show that a sufficient number of candidates are already pledged to the cause of female suffrage, so that the question to one urgency in the next parliament.

CHAMBERLAIN IS CURBED

MR. GLADSTONE CALLS UPON HIS EX-MINISTER TO SUPPORT A BILL.

He consents and Lord Hartington is satisfied—Other Political Notes From Great Britain.

LONDON, Oct. 10.—Mr. Gladstone has openly assumed the direction of the liberal campaign. He has already managed to compose the difficulties between Lord Hartington, leader of the whigs, and Mr. Chamberlain, leader of the radicals. The latter was making such headway that Lord Hartington became alarmed and threatened to withdraw from active management in the campaign unless Mr. Chamberlain were so far cured at least as to be unable to commit the whole liberal party to his schemes of radical reform.

The ex-premier summoned the executive of the local government board to be ordered and it was conferred with Mr. Gladstone. The result of this meeting has been that Mr. Chamberlain has agreed to modify his program of reform during the course of the year, and the executive of the local government board to be ordered and it was conferred with Mr. Gladstone. A Liberal Arbitration Committee. LONDON, Oct. 11.—A committee composed of three members from each of the four great liberal clubs in London has been formed to arbitrate in constituencies where more than one liberal candidate puts up for election and aids the choice of a Tory candidate. The club members of the committee are chosen from the National Liberal, the City Liberal, the Reform and the Devonshire, so that all shades of the party are represented. So far it is noticeable that the committee have favored the moderate members of the party. Mr. Gladstone has advised the arbitration committee not to impose any tests upon the candidates, but to leave them as open platforms as possible.
