A Third Party Concerned. and again have English organs opinion given us assurances to this that, should Canada wish either to be ndent or to join the United States, reat Britain would certainly never interpose th force to prevent. Coercion was tried in lack on the editorial page of his paper. old colonial days; but that was an error which will not be repeated by England. This has been told us pretty often by The Times and other influential English journals, much oftener than necessary, we should say. And e assurances as to England's having made mind to let Canada please herself is ready to bid us a friendly good-bye any day we wish to go. Now we do not undertake to dispute the main fact conveyed in all this— that England has really and truly given up ul ides of trying to retain the Cana-ians within the Empire by force, ould they declare that they wish ber to strike out for the manufered to the strike out for the manufered to the to strike out for the manufered to the strike out for the strike ou in this matter, are of late being industriously ther to strike out for themselves or to tion, and the restrictions on free movement. though this be true, it is not the whole truth, selves, are adverse to any large influx of Chinwithout the complement, or the other part of the truth—that which is lacking to make up means for checking and reducing the stream.

THE TORONTO WORLD

SATURDAY MORNING, OCTOBER 6, 1888.

she whole—it may lead us all wrong. It may cause us to forget that there is a third party gration into the Dominio udid not come in for concerned-the Mother Country-which cer- any special remark last June when the Ausmeans, although far away from contemplating coercion and war as means of enforcing her moral rights. The idea of any legal right to hold Canada against the will of the Canadian Canada must prevent an influx of Mongolians. people she wholly abandons : but she is still left free to push her moral rights for all they are worth.

xplanation, that he was "too previous"; now Something like this seems to have been the organ is reaching out toward the truth. present to the mind of Senator Morgan, who Mr. Wiman was "too previous." s thus reported the other day by The New The science of Agriculture.

York Sun's Washington correspondent : "My general conception of British policy on that subject is this: Judging from the man-ner in which Great Britain has been acting towards Canada recently, I think she regards her as the chiet of her colonial possessions, and that the value which attaches to the Dominion ticularly in connection with her with Australia, India and Hong nowledge. At the teachers' convention held

This substantially agrees with an idea which in Toronto some time ago the advisability of has been frequently presented in the columns introducing agriculture into our public schools, of The World-that the acquisition and the development of Canada's new annex, have the dullest of men went into agriculture: eally created a new Canada and a new situation for all the parties concerned. It would re Juire phenomenal stupidity or power of acting me of the two, to pretend that the Dominion is just as much, or as little, to England to-day With such an estimate by the husbandmen as before the magnitude and value of the themselves, of the intelligence required for Northwest annex, also the capabilities of the Canadian transcontinental route to the other side of the globe-were changed from suppositions into realities. Between the old Canads of twenty-five years ago and the new Canada of to-day the difference is boundless, to speak. British war vessels afloat on the Pacific can now coal and refit in a Canadian port, and can quickly receive orders telegraph-

ed from home. This is an important gain, we will all agree; but how many among us do vet "take in" all that it im-

Excess of praise is hardly possible when speaking of this

The Musical Opinion and Music Trade Review, published in London, Eng. April 1, 1887, under the heading CANADIAN MUSICAL EXHIBITS AT THE COLINDIES EXHIBITION, has the following: Referring to Piano Fortes of Messra, Heintzman & Co., Dr. Stainer says as follows: "I much regret that, owing to the late period at which I was called upon to make a report, all the more important instruments exhibited by this firm HAD BEEN SOLD AND REMOVED. But those remaining fully justified their high reputation. An Upright Grand, which I examined was in every respect a fine instrument; the tough was sympathetic and had a good repetition; the tone was full and rich. I also tried a specimen style No. 9, which was equally deserving of unqualified praise."
