JUST IN TIME.

For the benefit of those who see nothing but suffering and death before them, I wish to say there is hope for you yet. I have been in a like condition myself and owe my restoration to health to the ever-reliable Histogenetic remedies. This last speing I was ntterly prostrated by a severe attack of La Grippe, which resulted in bronchitis and other serious complications. When my case seemed perfectly hopeless my friends decided to try Histogenetic medicine, and in less than three days a change for the better was so apparent that we were all inspired with hope. I continued the treatment for a number of weeks, progressing slowly, but surely, day by day. I am now comfortably well and am still gaining in strength and power of endurance and am a wonder to those who knew how hopeless my case was. To show my gratitude to Dr. J. Eugene Jordan for his wonderful remedies, and to my Heavenly Father for commanding this blessing to rest upon them, I take this way to let all afflicted ones know where they may find help in time of trouble.

Three years ago I had a sudden stroke while sitting on a sofa; a second one 14 months ago while lying in bed. All I did for it failed to do much good. My voice and all one side were badly affected. At last I tried Dr. J. Eugene Jordan's Histogenetic Remedies. In three months my voice became strong. My limbs, which were almost useless, regained full power. Last April I had a severe attack of pneumonia and Histogenetic Remedies cured me in a few days, and on the 8th of this month I took congestion of the liver and right lung. I was so bad I could not have lived long. In a few hours the Histogenetic Remedies once more gave immediate relief. It is only two weeks, and I am sitting up every day and nearly well. To say that my faith in Histogenetic Medicines is strong but faintly expresses it. Try it, ladies, for these or any other complaints and be convinced. Dr. Rear of Toronto is allowed to give my name and address to any inquirers similarly affected.
