down to the hall. The Phoenix Electric Light Co. put in an engine and
Dynamo machine, with the intention
of lighting the buildings and some of
the principle streets of the city; but,
exhibition has been a magnificent success, and acknowledged to be in advance of any other previously held in
the Maritime Provinces. Our limited
space will not, of course, permit us to
go into details; in fact, it is not necessary that we should, as nearly every
body, and their sisters, brothers, cousins and aunts paid the show a visit.
We will, therefore, merely glance at
some of the most prominent features.

The exhibition was formally opened
by His Honor Lieut. Governor Wilmot,
with the customery address of which

the mast prominent features.
The exhibition was formally opened by His Honor Leut. Governor: Wilmot, with the customary address, of which, however, owing to the bustle and confusion pertaining to giving the finishing touches to many of the exhibition which led to the valve on the engine intended to move the machinery, immediately a whistle sounded, and, whirr I in motion went all the different machines, shafting, pullies and belts, and the ecremony was over.

As our reporter was unable to give special attention to a number of the departments to which we wait to draw our readers' attention, we have been compelled to condense from the complete reports of the St. John press, which certainly deserves credit for the extincts the summer and extent of the exhibition, not omitting the slightest has been treated.

We will begin with a summarized account of the exhibition, not omitting the slightest has been treated.

Montreal via the Intercolonial railway. On
either side of the car in large letters.

Machinery Hall, see called, situated Machinery Hall, so called, situated on the ground floor of the main building, was filled with all kinds of machinery in motion, the most valuable of which was the fine display of agricultural implements shown by Tippet. Burditt, & Co. This firm showed several threshing machines, two or three mowners and a reaper, all in full operation, and were the centre of attraction for our sturdy farmers. Josi. A Fowler had a number of machines hard at work making axes, springs, etc. Win. Flemming & Sons showed a magnificent locomotive, made expressly for the occamotive, made expressly for the occamot when the design is the latercologial railway. On the Prothonotary for the City of Hall-the Prothonotary for the City of Hall-the Prothonotary for the City of Hall-the City of the North West, embracing forty difsion, and name the "Centennial."
