Selling the Apple Crop. THE CO-OPERATIVE PLAN .- DIVI-DENDS FROM POWER SPRAYING.

Department of Agriculture, Commissioner's Branch, Ottawa, Sept. 29. On Sept. 21st, the farmers of the vic-

inity of Ingersoll, Ont., assembled to the number of about 75 or S0 to in-Many of the owners have already spect the work done by the power made enough off their properties to spraying outfit, managed in that vicretire in comfort, and all are what ar inity by the Dominion Fruit Division. The object of the demonstration was only a trifle of encumbrance on one or to show that spraying might profittwo out of the whole thirty properties ably be done as threshing is usually J. W. Bigelow, Ex-President of the done in Western Ontario, one man taking the contract for doing the work of a large number of his neighbors. A circuit embracing 3300 trees was contracted for, and Mr. J. C. of fruit culture on a large scale in Harris was employed to do the work. He succeeded in spraying the whole number of trees four times with one utfit, at a cost of something les Valley orchard, providing it could h than 20 cents a tree. The apples in the unsprayed orchards in thet district are so scabby as to be practical ly worthless. The contrast between the sprayed and unsprayed fruit is

therefore very marked. The audience assembled at one o'clock at the orchard of Mr. J. C. sell at a valuation of \$1000 per acre He also speaks of an orchard, bough Norsworthy and inspected very care fully a large number of trees, counting had vielded a dear profit of over 20 and grading the apples. Some unsprayed orchards were visited, and

again some sprayed orchards, until six or seven had been inspected. The esults may be summed up as follows In the sprayed orchards 90 per cent of the fruit would grade No. 1, while in the unsprayed orchards not more than 15 per cent. would grade No. 1 In some cases only 10 per cent. of first fruit packages, for which there is a class fruit was found, and on son great demand all over the province. trees it was difficult to discover a per fect apple. The cost of spraying was Hog raising on a large scale will be another important branch of the company's work, and the small Valley about 20 cents per tree, or ten cents per barrel, and it is a fair estimate hogs, which now command the best to say that for every 20 cents expendprices on this market, will grow and ed in spraying there was an increase value of about \$1.00. fatten on the waste apples and windfalls.

The inspection was witnessed by Prof. Hutt, O. A. C., Guelph, Mr. G. The company are issuing \$350,000 first mortgage, five per cent. bonds, secured by these 30 odd farms, or-A. Putnam, Superintendent of Farmers Institutes, Mr. P. W. Hodgetts, Secre tary Ontario Fruit Growers' Associaimprovements. The company has five hundred acres under orchard at pretion, and a half dozen corresponden of agricultural papers. Incidentally many points in genera

sent. orchard culture were taken up. Prof. Hutt drew attention to the fact that,

oven though cultivation and pruning The partridge has long been in favor were neglected in some of the sprayed as a breakfast food, and as splendid nourishment for the sick and well, orchards, the trees were well loaded and the specimens large. He pointed but he is now coming into wide favor out that had the season been dry and renown as the farmer's friend. fine samples could not have been He is a candidate for the high perch obtained. Mr. Putnam spoke of the of National bird. His partisans assuccess which had attended the operasure us that he is a stout ally of the
