## Press Comment

### FOOT-AND-MOUTH DISEASE

Washington Post: The dangerous foot-and-mouth disease is the one that keeps the mouth running while the foot is on the accelerator.

### JY SUIS; JY RENTE.

Boston Transcript: If the Turks who are trying to push John Bull out of Mosul were not "young Turks," they would probably know better than they seem to know that John is the champion sit-taster of the universe.

### THE MURDER RECORD

Louisville Courier-Journal: The public is accustomed to hearing New York and Chicago homicides compared to the record for the British Empire. The matter is brought closer home when the murder quota of one Kentucky county exceeds that of Canada.

### NO NONSENSE

Brooklyn Eagle: The ten-to-one vote of the Liverpool Congress of British Labor to continue the expulsion of the Communists establishes the solidarity of organized workers in all Anglo-Saxon lands to the unwisdom of condoning talk of Government-smashing or affiliating with advocates of violence.

### THE PACT OF SECURITY

Berlin "Taegliche Rundschau": There is nothing new in the fact that France is taking her time in every matter which is calculated to improve the situation and bring peace to Europe. This fact at least should be stated, for the claim will, no doubt soon be made that it is Germany who is delaying the negotiations.

### THE GUINEA'S STAMP

New York Herald-Tribune: The old idea that a white collar job at a low salary was better than an overall job at high wages has been abandoned pretty generally since the cost of food and clothes has advanced. Men, especially those with families, must have money, and they no longer feel that it is necessary to earn it in clean clothes.

### THE MOSUL DECISION.

Constantinople Republic: War is unlikely. If the decision of the League of Nations is contrary to the vital interests of Turkey, it will create between the two countries a situation of hostility which will never come to an end. Diplomatic relations will not be broken off, but a state of war will exist without arms, in which each contestant will strive to create as many vexations as possible for the other.

### PIDGIN ENGLISH

Dr. Wilfred Grenfell in the Contemporary Review (London): Here, as in India, a new international language is springing up, because even when five generals came down to Shanghai to discuss a campaign they couldn't understand one another—the Cantonese and Pekinese dialects being as different almost as French and English. So one finds English here as in India and Palestine and Mesopotamia and Malaya springing up into general use for international service.

## KING OF GAME BIRDS IN PERIL FROM PLAGUE AND ILLEGAL HUNTING

### Citizen Urges Co-operative Effort to Curb Game Law Violators.

Partridge are getting scarcer each year in New Brunswick. This year the shooting doesn't open until the twentieth of October and closes on the tenth of November, a short enough season, but apparently not drastic enough to prevent the threatened extinction of this king of game birds.

So declared a prominent New Brunswick citizen to the Telegraph-Journal yesterday in suggesting measures to prevent the passing of the partridge and to curb violations of the game laws.

"I have talked," he said, "to people who have been in the woods after woodcock, men who have been cruising timber lands and people who have been all summer frequenting the rivers and lakes of the province, who all told the same story, no partridge. The same reports come from all parts of the province. Last year there was evidence of a plague having struck these birds, many of them being found dead in the woods. Apparently we are repeating the results this year. Unless something is done this bird will be extinct."

### Urges Action at Once.

"Whatever action is taken should be taken immediately. All efforts to protect this bird seem to have failed in the past. Bootlegging of Partridge seems to be a profitable business. There seems to have been no great difficulty in recent years, even though the law prohibiting the shooting of these birds, for sale, for the men who had the price to buy any quantity of them. Surely, if we have game laws and game wardens, who will enforce the law, this condition should not prevail. It has been suggested that a game protective association be organized in New Brunswick, the members of which will pledge themselves to report any violation of the game laws. As it is at present, sympathy seems to go to the law-breaker and nobody will report him. The only hope in this matter is of some such organization as I have just mentioned.—Telegraph.

The above applies equally forcibly to Nova Scotia. (Ed. Monitor.)

## BRING METEORITE BACK FROM NORTH

### Third Largest Stone of Kind in World Reaches Scotland on Steamer.

Aberdeen, Scotland.—The third largest meteorite in the world has just arrived here from Greenland aboard the Danish schooner Sokongen. Nobody here has yet seen the stone, but Captain Pederson, of the Sokongen, says it weighs seven tons. Eskimos are attributed with the statement that the meteorite fell in 1918 and that they had been dragging it toward the coast on dog sleds since 1923.

Captain Pederson said he had much trouble in steering his vessel to Aberdeen because the stone deflected the compass.

Of the two larger meteorites in existence, one is in Great Britain and the other in the United States.

## POPPY DAY CAMPAIGN

The Middleton branch, Great War Veterans Association, will conduct a wide-spread campaign for the sale of poppies on Poppy Day. Altho the ex-servicemen deeply resent the yearly shifting of Memorial Day, they are adding by the regulations, hoping that the next session of Parliament will amend their numerous protests by a reversion to November 11th, as the official Memorial Day. Consequently, the poppies will be sold on November 7th, and the preceding week.

A large committee is in charge of the work, and assistance is being asked of the I. O. D. E., Women's Institutes, and school teachers. To stimulate interest in the significance of the poppy, the branch has announced an Essay Competition on "The Flanders Poppy," open to public school children in the area bounded by Paradise, Clarence, Port George and Bloomington inclusive. The rules governing this competition have already been published, but further particulars may be procured from K. P. Johnson, Secretary of the branch. The committee of judges will consist of two members of the G. W. V. A. and the Inspector of Schools.

The poppies have been made by wounded ex-servicemen in the Veterans Shops in Halifax—men who are quite unfit to compete in the general labor market. The sale of poppies, therefore, directly assists these incapacitated men, in addition to commemorating our Sixty Thousand Dead. The profits from the local sale will probably be used by the G. W. V. A. in endowing a soldier's bed in the Memorial Hospital at Middleton, but this matter has yet to be settled.

The following comprise the Poppy Committee: C. A. Good, Middleton, (Chairman), C. E. Bent, Paradise, H. P. Hamilton, Lawrencetown, C. R. Weaver, Port George, F. East, Nictaux Falls, K. D. Cleveland, Middleton, K. P. Johnson, Middleton, M. B. Neely, Spa Springs, A. P. Borden, Brooklyn.

## PLEDGING THE CANDIDATES FOR FEDERAL HOUSE

The following appeal has been made by the Prohibition Federation of Canada to the Candidates seeking election to the Federal House on October 29th.

In the County of Annapolis the appeal has been made through the Social Service Council, of which Rev. W. D. Wilson is Secretary, and both Candidates, L. J. Lovett, M. P., and H. B. Short have given their pledge to use their influence and vote, should either be elected, to do all in their power along the lines indicated in paragraphs 1-2 and 3, as set forth in the appeal which follows below:

The Prohibition Federation of Canada, which seeks the ultimate elimination of the Dominion of Canada of the traffic in, and use of alcohol for beverage purposes, in view of the present situation, regards Federal action as imperatively required to achieve the following ends:

1. The automatic prohibition of export, manufacture, importation of liquor, out of, within or into any province whose Legislature having prohibited the sale requests this Federal support, or whose electorate on referendum have voted for the prohibition of the sale.
2. The refusal of Federal License to establish any new brewery or distillery in any province which has legislated as aforesaid.
3. The adoption of a thoroughly friendly policy of complete co-operation with the United States of America in the enforcement of the constitution and law of that country and the removal from international relations of the irritation caused by now existing facilities for the evasion of these laws.

In accord with the foregoing we respectfully submit the following:—Should you be elected to represent this County in the Dominion Parliament we will depend upon you to use your influence and vote for Federal action along the lines indicated in paragraphs 1, 2, and 3.

In behalf of the Social Service Council,

Yours sincerely,  
W. D. WILSON,  
Secy. of Social Service Council of Annapolis County.

## OBITARY

### Mrs. Florilla C. Whitman

Granville Ferry.—Mrs. Florilla C. Whitman died at the age of eighty-two years on Saturday, at the home of her daughter, Mrs. Keane, of Port Wade. The funeral was conducted on Tuesday by the Rev. Clarence Mason of the Baptist Church. Interment was made in Upper Clements beside her husband. The floral tributes were numerous.

The deceased is survived by two daughters, Mrs. Keane, and another daughter, resident in the United States, who was present at the funeral.

## ABLE TO DO HOUSEWORK NOW

### Sick a Year. Got Great Benefit from Lydia E. Pinkham's Vegetable Compound

Bloomington, N. S.—"I took Lydia E. Pinkham's Vegetable Compound for pains and backache, also for nervousness, sick headaches and sleeplessness. I was troubled in this way for over a year, and a friend told me about the Vegetable Compound and induced me to take it. I must say I have received great benefit from it and am able to do my household work now. I recommend the Vegetable Compound myself and am willing for you to use this letter as a testimonial."—Mrs. WILLIAM MORSE, Bloomington, Annapolis County, N. S.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 88 per cent. replied "Yes."

This means that 88 out of every 100 women are in better health because they have given this medicine a fair trial.

Mrs. Morse is simply another case of a woman receiving "great benefit." Women suffering from the troubles so common to their sex should listen to what other women say who have experienced the same sufferings and found relief. Give this dependable medicine a chance—and at once. It is sold at all drug stores.

## FALKLAND RIDGE

Miss Marie Sproule left October 12th, for West Dalhousie, where she has engaged to teach school for the coming year.

Mr. Emerson Wagner made a business trip to New Germany October 14th. He was accompanied by his daughter, Mildred.

Mrs. Ella Weaver left on Monday for East Dalhousie, where she is the guest of her sister, Mrs. Herman Taylor.

Adelbert McNayr, of W. Pepperell, Mass., is spending a few weeks with his parents, Mr. and Mrs. Silvanus McNayr.

A cold, rough, snowy Sunday, October 11th.

Mrs. R. R. Beamish, of Los Angeles, California, who has been visiting her sister, Mrs. Robert Swallow, left Monday, the 19th, for her home.

Miss A. McNeil leaves for her home at North Range, October 17th.

Helen Mason went to Middleton on Friday.

Grace Sproule spent Monday at Middleton.

## LITCHFIELD

Mrs. Wilbur Hamilton and son, Norval, have returned home from their visit in Lynn.

Mr. and Mrs. Handford Hardy, of Dorchester, are spending a few days at Mr. Hardy's old home here.

Mr. and Mrs. Edward Wilson have their new house completed, and have moved in. Congratulations.

Mr. Eddie Sproule was successful in capturing a nice deer last week and his friends are being generously remembered.

## TOOTHACHE

Rub the face with Minard's in water and place a piece of cotton wool, saturated with Minard's in the cavity.

MINARD'S "KING OF PAIN" LINIMENT

## Here and There

More than 100 persons joined the ride of the Trail Riders of the Rockies on their horseback journey from Banff to Wapta Camp, via Marble Canyon and Lake O'Hara. The ride started on August 8.

Grain figures issued by the Harbor Commission of Montreal show that on August 1st all grain shipment records were broken by one day's delivery of 2,277,712 bushels of grain to outgoing ships. Harbor officials state that this is the first time that grain shipments in one day have topped the two million bushel mark.

Installation of machinery at the new annex of the Dominion Textile Mill at Montmorency Falls, Quebec, will be started by January first next. About 300 additional employees will be required to operate the plant. At present there are about 1,300 employed at the mills.

A prophecy that the Orient would become in the very near future a really large importer of Canadian wheat was made recently by Hon. Dr. J. H. King, Minister of Public Works. In predicting increased Orient trade in grain, Dr. King pointed out that imports of wheat from Canada for 1923-1924 increased by 400 per cent.

Over fifteen thousand men left the east on the first harvesters excursion from the east to the wheat fields in the middle of August. Four other excursions are to follow from Toronto later in August and September, when it is expected that the majority of the remainder of the 50,000 men required for the harvest will travel west.

British teachers touring Canada under the auspices of the Overseas Educational League are now enjoying all the various forms of entertainment to be found in the Canadian Pacific Rockies. They have been riding trails, hiking, fishing, motoring, bathing in the sulphur springs at the Banff Springs Hotel and were the guests at a dinner there given by J. M. Gibbon, secretary of the Trail Riders of the Canadian Rockies.

Confidence of United States capital in the Dominion, optimistic preparations for the new Canadian financing, prospects of a good crop, large United States purchasing in Canada, and heavy expenditures of American tourists in the Dominion, were some of the reasons offered by New York financial experts for the consistent above par stand of the Canadian dollar on the New York exchange. The Canadian dollar is now at a premium on the New York exchange.

The total number of students in Canadian universities and colleges in 1924 was 52,639, or nearly one in eighteen of the total population, according to a bulletin issued by the Dominion Bureau of Statistics. Under the category of colleges, the total number in 1924 was 83. Of this total, two law, one dental, one for pharmacy, one for veterinary science, 28 theological, 39 affiliated, one school for higher commercial studies, one college of art and one military college.

During the coming winter Canada will see the debut of a new transportation device known as the Snow-motor. This consists of two hollow cigar shaped cylinders or drums to which flanges, resembling cork screws, are attached. These drums are fixed to an automobile or tractor in the place of the wheels and, by rotating actually float the machine over the snow. The snow-motor is regarded as especially valuable in the transportation of lumber, it can negotiate snow of any depth and can operate in countries where other methods of transportation are impossible or too costly and can also make roads which other vehicles can use. It is manufactured in Detroit and will be on the market in Montreal during the coming winter.

## TWO BULL MOOSE FIGHT TO FINISH

"Monarchs of Glen" Found Dead With Locked Horns—Woodland Tragedy.

Sunny Brae.—The primitive struggle for the "survival of the fittest" gives the imagination of people to-day and the scene of the Caledonia woodland tragedy, where two huge bull moose fought to the death, drew scores of people on foot and by motor on Sunday. The two fighters were found with antlers interlocked by Mr. Crosby and Mr. Fougere of New Glasgow, and this unique spectacle provided a glimpse into the life of the "forest folks" that even Charles G. D. Roberts himself could not bring some more vividly. The interest of the whole countryside was aroused.

## KENTVILLE HOCKEY CLUB PREPARING

Kentville.—Through the efforts of the officials of the Kentville Amateur hockey club the following Kentville athletes have been reinstated by the M.P.H.A.U. of C. viz., Simmons, Leitch, Cox, Perrier, Cohen, Grimshaw, and Redden. This should prove good news to the lovers of Baseball in the Town of Kentville, and there is no reason why next season Kentville should not have the championship team in the Valley League, as a number of younger players have developed this season and with the addition of the old players the Valley Championship should come to Kentville and possible the Provincial championship.

As far as hockey is concerned all the old players who played on the Kentville team will be seen in the line-up this season, and with the addition of other players and younger material the Kentville Hockey Team should be one of the best in the Province, as it was certainly going strong at the end of last season and was conceded by a number of outside fans to be the best in the Valley League.

The club needs the addition of more members to provide for equipment for the players, and with the same support accorded the team by the citizens as was accorded last winter a successful season with good first-class hockey can be assured.
