Pain, sickness, fretful children are very trying to the patience of all who have the care of them, and in the majority of cases the fretfulness arises from a weak and enfeebled condition of the body, caused by the drain on the constitution during the period of teething, or the rapid growth of childhood. In such cases give Robinson's Sphosphorized Bismuth according to directions, or the advice of your Physician.

Scientific and Useful.

SPONGE CAKE.—Four eggs, one cup of sugar (yolks and sugar beaten till very light, and whites beaten separately), one cup of flour, into which has been sifted one teaspoonful of baking powder. Flavour to taste.

COFFEE JELLY.—One teaspoonful of very strong coffee. Dissolve in it one packet of gelatine. Put on the fire one pint of milk and six ounces of lump sugar; when nearly on the boil pour in the coffee and gelatine. Let all boil together for ten minutes; pour into a wetted mould and keep in a cool place till stiff.

FOOD FOR CHICKENS.—More and better food for chickens can be grown by planting sunflowers than corn on equally rich soil. The sunflower seeds should not be given as an exclusive diet but once a day in alternation with other food. The fowls that soonest learn to like them will be marked by their bright combs, and will begin laying fast.

WHEN roasting lamb or fowls, if you do not like the flavour given by thin slices of salt pork or of bacon, which are usually put over them, take some hard butter, roll it in flour, and separate it into small lumps and lay here and there on the meat. This will give richness and flavour to the liquid with which you baste them.

A NICE way to prepare a very light lunch for an invalid (and to be taken with a cup of weak tea) is to toast three milk crackers, then pour boiling water over them, draining it off immediately, spread jam or marmalade over them, and pile them up. set them into the oven while you make the tea, and take both into the sick one, and it will prove appetizing and refreshing, if unexpected.

POTATO PUDDING.—Boil and mash potatoes, season delicately with salt and butter, and beat into a thick batter with two eggs and sufficient milk. Put at the bottom of a baking dish some slices of cold beef or lamb with salt, pepper, and a little stock jelly; add a layer of the potato, then a layer of meat, and put a thick layer of potato on top. Bake to a rich brown.

CHICKEN AND OYSTERS. Prepare and divide a chicken as for a pie, stew in enough water to cover until tender, then take out and drain, keeping it hot; put in the gravy a quarter-pound of butter rubbed to a paste with a heaping tablespoonful of flour; season with salt and pepper, add two hard boiled eggs chopped and a tablespoonful chopped parsley; drain a quart of oysters and add to gravy, stew a few minutes and pour over chicken.

LEMON PIE.—Two ounces of butter creamed with twelve ounces of sugar; yolks of five eggs, beaten, juice and grated rind of two lemons; then add two gills of rich milk, and whites of five eggs, well beaten. Mix well, and bake with an under crust, made thus: Eight ounces of flour, three ounces of fresh lard, and ice water to make a dough; roll out and spread on three ounces of butter. You can use all butter instead of lard. This will make two pies.

COLD IN THE HEAD.—The changeable weather gives many persons cold in the head. Colds of this kind may often be relieved, at least in the incipient stage, by sniffing camphor. A lump of camphor-gum, or a little vial of spirits of camphor, will serve the purpose. A small lump of the gum is easily carried about, and it should be sniffed with a long, inhalation, as often as possible, for a day or two. The relief is often speedy.

LEMON JUICE.—Lemon juice is frequently recommended as a sort of cure-all. It is certainly valuable in colds and fevers, but a physician has pronounced too free use of lemon juice hurtful. Lemon juice is a strong acid, and needs to be well diluted before use. But lemonade is a delightful drink, and its free use is beneficial. For a change, orangeade is very agreeable. This is made by substituting oranges for lemons and using less sugar, unless the oranges are very sour.

An excellent pudding is made in this way: Cut apples into halves, peel and core them, put some dates or prunes from which the stones have been removed in the place of the cores; cover them with cold boiled rice; moisten the rice well with milk and water, putting in enough so that the apples will not burn down on the bottom of the dish; bake in a moderate oven for an hour; cover the pudding dish if there is danger of the rice becoming too brown; serve with sauce made of one well-beaten egg, one pint of milk, one cup of sugar, a little grated nutmeg or mace.

Scott's Emulsion of Pure Cod Liver Oil, with HYPOPHOSPHITES. Specially desirable for Children.

A Lady physician at the Child's Hospital, at Albany, N. Y., says: "We have been using Scott's Emulsion with great success, nearly all of our patients are suffering from bone diseases and our physicians find it very beneficial."

"Maryland, My Maryland." "Potty Wives, Lovely daughters and noble men." "My farm lies in a rather low and miserable situation, and "My wife!" "Who?" "Was a very pretty blonde!" "Twenty years ago, became "Sallow!" "Hollow-eyed!" "Withered and aged!" Before her time, from "Malarial vapours, though she made no particular complaint, not being of the grumpy kind, yet causing me great uneasiness. "A short time ago I purchased your remedy for one of the children, who had a very severe attack of biliousness, and it occurred to me that the remedy might help my wife, as I found that our little girl, upon recovery had "Lost!" "Her sallowness, and looked as fresh as a new blown daisy. Well the story is soon told. My wife, to-day, has gained her old-time beauty with compound interest, and is now as handsome a matron (if I do say it myself) as can be found in this country, which is noted for pretty women. And I have only Hop Bitters to thank for it. "The dear creature just looked over my shoulder, and says 'I can flatter equal to the days of our courtship,' and that reminds me there might be more pretty wives if my brother farmers would do as I have done." Hoping you may long be spared to do good, I thankfully remain C. L. JAMES. BELTSVILLE, Prince George Co., Md. May 26th, 1883.

HAVE YOU

- Hot and dry skin? Scalding sensations? Swelling of the ankles? Vague feelings of unrest? Frothy or brick-dust fluids? Acid stomach? Aching loins? Cramps, growing nervousness? Strange soreness of the bowels? Unaccountable languid feelings? Short breath and pleuritic pains? One-side headache? Backache? Frequent attacks of the "blues"? Fluttering and distress of the heart? Albumen and tube casts in the water? Fitful rheumatic pains and neuralgia? Loss of appetite, flesh and strength? Constipation alternating with looseness of the bowels? Drowsiness by day, wakefulness at night? Abundant pale, or scanty flow of dark water? Chills and fever? Burning patches of skin? Then

YOU HAVE

BRIGHT'S DISEASE OF THE KIDNEYS. The above symptoms are not developed in any order, but appear, disappear and reappear until the disease gradually gets a firm grasp on the constitution, the kidney-poisoned blood breaks down the nervous system, and finally pneumonia, diarrhoea, bloodlessness, heart disease, apoplexy, paralysis, or convulsions ensue and then death is inevitable. This fearful disease is not a rare one—it is in every-day disorder, and claims more victims than any other complaint. It must be treated in time or it will gain the mastery. Don't neglect it. Warner's SAFE Cure has cured thousands of cases of the worst type, and it will cure you if you will use it promptly and as directed. It is the specific for the universal
