CONSERVATORY. BURNED.

For ine past the past three years the Rev. Father Aboulle, hissier of Novices at St. Basil's Novitiste, has been working to perfect a hothouse where he inght keep his flowers. He had just about attained his ambition when last week he had the misfortune to lose his whole collection of plants, hothouse and all, by fire. The house, which was an elsaborate affair, constructed in the side of the terrace, was heated by a furnace, and, by some means or other, the structure caught fire and everybling was destroyed. It was built at a safe d'attainer from the main buildings, so that there was absolutely no danger to any of the other parts of the house. Father Aboulis had a fine collection of plants and the lose will be hard to replace. He had spent a great deal of time and and saken great pains in perfecting the hothouse itself, and although the financial loss will be thard for replace the huilding with one as mutable for the oare of flowers.
