

SOLUTION

Iron Peptonate... and Manganese

A Palatable,
Permanent and
Efficacious . .
Compound.

CONTAINS 0.6 PER CENT METALLIC IRON

. AND 0.1 PER CENT METALLIC MANGANESE.

Dispensed on the Pre-
scriptions of Leading
Physicians Everywhere.

In our Solution Iron Peptonate and Manganese we offer to the medical profession a combination of exceptional value in the treatment of anemic conditions, where the digestive and assimilative functions of the patient are impaired.

It is hemoglobin-producing, and promotes corpuscular nutrition, and in cases of chlorosis and neurasthenia it has accomplished most encouraging results.
