

SHUTTLEWORTH'S

Soluble — Compressed Tablets...

(SUGAR COATED)

Are Superior to Pills for the following reasons :

Samples of any formula will be sent to Physicians free of charge on request.

Mail Orders and enquiries solicited

- FIRST—They are compressed by dry compression.
 SECOND—They disintegrate much more quickly than Pills, which are manufactured from Mass containing gummy excipient.
 THIRD—They will keep indefinitely without becoming insoluble.
 FOURTH—They contain the exact quantity of drug stated in formula, the efficient trituration insuring definite and precise quantities in each dose.
 FIFTH—If the Medicament is a soluble substance, the solubility is preserved.
 SIXTH—The drug is incorporated in its natural state, no chemical reaction occurs in its manufacture.
 SEVENTH—They are Soluble and Permanent. Pure Sugar and no insoluble coloring or moisture absorbing chocolate compounds are used in their coating.
 EIGHTH—They assimilate more quickly with the fluids of the stomach by reason of not having any foreign substance to dissolve, hence will be more prompt in their action.
 NINTH—Being flat in shape, they are easily swallowed.
 TENTH—Elegance of form and novelty of appearance render them more acceptable to the patient.
