

AN OPEN LETTER.

From a Prominent Physician.

A Remarkable Cure of Consumption in Its Last Stages—Is This Once Dread Disease Conquered?—Important Facts to all Suffering from Diseased or Weak Lungs.

Elmwood, Ont., Aug. 21st, 1894.

Dear Sirs:—I wish to call your attention to a remarkable cure of consumption. In March, 1893, I was called in my professional capacity to see Miss Christina Koester, of North Brant, who was then suffering from an attack of inflammation of the left lung. The attack was a severe one, the use of the lung being entirely gone from the effect of the disease. I treated her for two weeks when recovery seemed assured. I afterwards heard from her at intervals that the progress of recovery was satisfactory. The case then passed from my notice until June, when I was again called to see her, her friends thinking she had gone into consumption. On visiting her I found the lungs suspiciously too well founded. From robust health she had wasted to a mere skeleton, scarcely able to walk across the room. She was suffering from an intense cough, and expectoration of putrid matter, in fact about a pint each night. There was a burning hectic fever with chills daily. A careful examination of the previously diseased lung showed that its function was entirely gone, and in all probability it was entirely destroyed. Still having hopes that the trouble was due to a collection of water around the lung I asked for a consultation, and the following day with a prominent physician of a neighboring town again made a careful examination. Every symptom and physical sign indicated the onset of rapid consumption and the breaking down of the lungs. Death certainly seemed but a short time distant. A regretful experience had taught me the uselessness of the ordinary remedies used for this dread and fatal disease, and no hope was to be looked for in this direction. I had frequently read the testimonials in favor of Dr. Williams' Pink Pills in wasting diseases, but not knowing their composition hesitated to use them. Finally, however, I decided to give them a trial, and I am free to say that I only used them at a stage when I knew of absolutely nothing else that could save the patient's life. The test was a most severe one and I must also admit an unfair one, as the patient was so far gone as to make all hope of recovery seem impossible. A very short time, however, convinced me of the value of Pink Pills. Although only using an ordinary scotch cough mixture along with the pills, within a week the symptoms had abated so much that it was no longer necessary for me to make daily calls. Recovery was so rapid that within a month Miss Koester was able to drive to my office, a distance of about six miles, and was feeling reasonably well, except for weakness. The expectoration had ceased, the cough was gone and the breathing in the diseased lung was being restored. The use of the Pink Pills when continued until the end of October, when she ceased to take the medicine, being in perfect health. I still watched her case with deep interest, but almost a year has now passed and not a trace of her illness remains. In fact she is as well as ever she was and no one would suspect that she had ever been ailing, to say nothing of having been in the clutches of such a deadly disease as consumption. Her recovery through the use of Pink Pills after having reached a stage when other remedies were of no avail; is so remarkable that I feel myself justified in giving the facts to the public, and I regret that the composition of the pills is not known to the medical profession at large in order that their merits might be tested in many more diseases. I intend usefulness be thus extended. I intend giving them an extended trial in the case of consumption, believing from their action in this case, [so well marked] that they will prove a curative in all cases where a cure is at all possible—I mean where the lungs are entirely destroyed.

Yours truly,
J. EVANS, M. D.

HOW IS THIS?

Something unique even in these days of mammoth premium offers, is the latest effort of Stafford's Magazine, a New York monthly of home and general reading. The proposition is to send the magazine one year, or one dollar, the regular subscription price, and in addition to send each subscriber fifty-two complete novels during the twelve months, one each week. Think of it. You receive a new and complete novel, by mail, post paid, every week for fifty-two weeks, and in addition you get the magazine once a month for twelve months, all for one dollar. It is an offer which the publishers can only afford to make in the confident expectation of getting a hundred thousand new subscribers. Among the authors in the coming series are Wilkie Collins, Walter Besant, Mrs. Oliphant, Mary Cecil Hay, Florence Maryat, Anthony Trollope, A. Conan Doyle, Miss Braddon, Captain Maryat, Miss Thackeray and Jules Verne. If you wish to take advantage of this annual opportunity send one dollar for Stafford's Magazine, one year. Your first copy of the magazine, and your first number of the fifty-two novels (one each week) which you are to receive during the year will be sent you by return mail. Remit by P. O.
