

Annex 2

CONFERENCE ON WATER TREATMENT AND QUALITY

Chairman: Prof. Hallvard Odegaard, NTH, Norway

1. Water Quality in Fish Farming: The importance of quality for growth and health  
by Fishery Biologist James Meade, National Fishery Research and Development Laboratory, USA.
2. Acid Rain: Toxicity, treatment methods  
by Dr. Helge Leivestad, University of Bergen/Cornell University, USA.
3. Impact of Water Hydraulics on Water Quality: Inlet and outlet, water exchange, removal of particles  
by MSc Steinar Skybakmoen, SINTEF, Norway.
4. Gas Transfer/Oxygeneration: Principles, practical methods by Ph.D. Kjell-Ivar Dahlqvist, AGA Innovation Sweden.
5. Recirculation of Water: General principles, use of air, oxygen and biological filter  
by Dr. Bjornar Eikebrokk, SINTEF, Norway.
